*Damming the Flood* Peter Hallward,2020-05-05 Long before a devastating earthquake hit in January 2010, Haiti was one of the most impoverished and oppressed countries in the world. However, in the late 1980s a remarkable popular mobilization known as Lavalas (the flood) sought to liberate the island from decades of US-backed dictatorial rule. *Damming the Flood* analyzes how and why the Lavalas governments led by President Jean-Bertrand Aristide were overthrown, in 1991 and again in 2004, by the enemies of democracy in Haiti and abroad. The elaborate campaign to suppress Lavalas was perhaps the most successful act of imperial sabotage since the end of the Cold War. It has left the people of Haiti at the mercy of some of the most rapacious political and economic forces on the planet. Updated with a substantial new afterword that addresses the international response to the earthquake, *Damming the Flood* is both an invaluable account of recent Haitian history and an illuminating analysis of twenty-first-century imperialism.

**Genocide Denials and the Law** Ludovic Hennebel,Thomas Hochmann,2011 In *Genocide Denials and the Law*, Ludovic Hennebel and Thomas Hochmann offer a thorough study of the relationship between law and genocide denial from the perspectives of specialists from six countries. This controversial topic provokes strong international reactions involving emotion caused by denial along with concerns about freedom of speech. The authors offer an in-depth study of the various legal issues raised by the denial of crimes against humanity, presenting arguments both in favor of and in opposition to prohibition of this expression. They do not adopt a pro or contra position, but include chapters written by proponents and opponents of a legal prohibition on genocide denial. Hennebel and Hochmann fill a void in academic publications by comparatively examining this issue with a collection of original essays. They tackle this diverse topic comprehensively, addressing not only the theoretical and philosophical aspects of denial, but also the specific problems faced by judges who implement anti-denial laws. *Genocide Denials and the Law* will provoke discussion of many theoretical questions regarding free speech, including the relationship between freedom of expression and truth, hate, memory, and history.

**Brussels Sprout** Richard Hernaman Allen,2016-09-12 1975. The Secretary of the EEC Commission asks Nick and Rosemary Storey to investigate a discrepancy of nearly 10 million in EEC money used to rationalise coal and steel production in EEC countries. They quickly identify transactions where the Commission has been defrauded and how it was carried out. But the fraudsters seem cautious and cunning, leaving few traces except the involvement of a small man wearing glasses with very thick lenses and a Chinese pistol in the cupboard of a French-Vietnamese woman working in the area of the Commission where the fraud took place and who has since disappeared. Various leads and assumptions lead them to Vietnamese bankers and a Dutchman working in the Commission, all of whom may be spies. But who the fraudster is and what happens to him are completely unexpected. *Brussels Sprout* is the ninth book published in a series of detective stories mostly set in Customs & Excise by Richard Hernaman Allen, a former Commissioner.

**Paramilitarism and the Assault on Democracy in Haiti** Jeb Sprague,2012-08 In this path-breaking book, Jeb Sprague investigates the dangerous world of right-wing paramilitarism in Haiti and its role in undermining the democratic

aspirations of the Haitian people. Sprague focuses on the period beginning in 1990 with the rise of Haiti's first democratically elected president, Jean-Bertrand Aristide, and the right-wing movements that succeeded in driving him from power. Over the ensuing two decades, paramilitary violence was largely directed against the poor and supporters of Aristide's Lavalas movement, taking the lives of thousands of Haitians. Sprague seeks to understand how this occurred, and traces connections between paramilitaries and their elite financial and political backers, in Haiti but also in the United States and the Dominican Republic. The product of years of original research, this book draws on over fifty interviews—some of which placed the author in severe danger—and more than 11,000 documents secured through Freedom of Information Act (FOIA) requests. It makes a substantial contribution to our understanding of Haiti today, and is a vivid reminder of how democratic struggles in poor countries are often met with extreme violence organized at the behest of capital.

*Law of the European Convention on Human Rights* David John Harris, Michael O'Boyle, Ed Bates, Carla Buckley, 2014 Thoroughly updated since the first edition of 1994, this volume contains a comprehensive account of Strasbourg case law and the underlying principles of the European Convention on Human Rights.

**Decisions and Reports** Consejo de Europa. Comisión Europea de Derechos Humanos, European Commission of Human Rights, 1996-01-01

Research and Development in Intelligent Systems XXXII Max Bramer, Miltos Petridis, 2015-11-16 The papers in this volume are the refereed papers presented at AI-2015, the Thirty-fifth SGAI International Conference on Innovative Techniques and Applications of Artificial Intelligence, held in Cambridge in December 2015 in both the technical and the application streams. They present new and innovative developments and applications, divided into technical stream sections on Knowledge Discovery and Data Mining, Machine Learning and Knowledge Acquisition, and AI in Action, followed by application stream sections on Applications of Genetic Algorithms, Applications of Intelligent Agents and Evolutionary Techniques, and AI Applications. The volume also includes the text of short papers presented as posters at the conference. This is the thirty-second volume in the Research and Development in Intelligent Systems series, which also incorporates the twenty-third volume in the Applications and Innovations in Intelligent Systems series. These series are essential reading for those who wish to keep up to date with developments in this important field.

Free Expression and Democracy Kevin W. Saunders, 2017-03-21 An examination of differences in how the world's democracies address a variety of issues involving free expression.

**The Gas Vans** Santiago Álvarez (Writer of The gas vans), Pierre Marais, 2016 During WWII, German forces are claimed to have used trucks to kill tens of thousands of people by means of exhaust gases. This book is the first to critically investigate all the accessible evidence about this topic. The anomalies exposed by this study raise doubts about the historical reality of these infamous gas vans.

*Why Did Yahweh and His Son Yahshuah Say What They Said?* Dr. Justin G. Prock, 2020-05-07 YAHWEH (The LORD God) and His Son YAHSHUAH (Jesus Christ) made statements with regard to Eschatology that have been "Spiritualized" for over a Millennium, which has led to the belief in Universalism, the belief

that YAHSHUAH died for EVERYONE. Well, after one studies the original languages of the Hebrew, Aramaic, and Greek, the message of the Kingdom of God was preached to and accepted by a certain House in the Bible. The other House rejected this message, and YAHSHUAH punished that House by taking the Kingdom away from them and giving It to another nation bringing forth fruit. There are only the House of Israel, the House of Judah, and the House of David, mentioned in the Bible. All three existed then, as they do today. However, most of today's Babylonian Priesthood/Churchianity refuses to accept the secular historical position with regard to the House of Israel, and who they are today. The people groups, which YAHWEH and YAHSHUAH addressed, still exist today. However, these people are all mixed-up, and known by different names, but they DO exist. This book goes back to the origin of these people groups in the Bible, and brings them forward to the present using their old names, in order to understand Eschatology. This brings us to the major question of, "Is the Bible only about Israel?" And, if so, how does it affect our Eschatology today? This book answers these hard questions...

*The Discoveries and Artistic Talents of Édouard Chatton and André Lwoff, Famous Biologists* Marie-Odile Soyer-Gobillard, Joseph Schrevel, 2020-06-29 This book explores the life, work and careers of two lovers of marine biology and protists, Edouard Chatton (1883-1947) and his exceptional pupil André Lwoff (1902-1994), later a Nobel Prize winner. Offering descriptions of their discoveries and explanations of their artistic talents, it also presents (annotated in numbers for the first time) the beautiful educational course boards made by Chatton for his students and collaborators. This book will appeal to scientists, biologists, parasitologists, researchers, teachers, and students, and is a tribute to these two great scientists.

*EU Law for UK Lawyers* Aidan O'Neill, 2011-07-27 This is the second edition of this wide-ranging survey of EU law. The new edition has been significantly enlarged. Unlike many other EU law books it takes full account not only of the Lisbon Treaty changes to the EU treaties, but also of the fact that the EU Charter of Fundamental Rights now has the same legal value as the EU Treaties. It therefore not only covers the relevant case law of the Court of Justice of the European Union, but also ties that case law into the decisions of the European Court of Human Rights, because it is clear that EU law can only now properly be understood and applied against this background of European fundamental rights jurisprudence. The book sets out very clearly the broad shape of the European Union's legal systems, while also giving the reader a good feel for the policy motivations in the Court of Justice of the European Union and the scope of EU legislative activity. Written in a lively and accessible style, it is an ideal guide for practitioners, whether those coming to the subject for the first time or those already with a background in EU law. Among the additions and changes in this expanded edition the book includes new chapters on the EU and fundamental rights, on commercial agency, on criminal law and on private international law in the EU. It also contains a full treatment of EU equality law. The first edition 'EC Law for UK Lawyers' by Aidan O'Neill and Jason Coppel (ISBN: 9780406024596) was published by Butterworths in 1994.

**Law and Memory** Uladzislau Belavusau,Aleksandra Gliszczynska-Grabias,2017-10-19 The volume revisits memory laws as a phenomenon of global law, transitional justice, historical narratives and claims for historical truth. It will appeal to those interested in the conflict between legal governance of memory with values of democratic citizenship, political pluralism, and fundamental rights.

**Biblical Eschatology:** Dr. Justin G. Prock,2021-06-20 In recent history, men from a variety of backgrounds have come to the same conclusion: that the Bible is about Israel only. For example: In 1861, John Mason Neale translated an ancient twelfth century Latin hymn and its title was O Come, O Come Emmanuel. Ever since 1861, Christians have sung that hymn at Christmas time, especially at Advent. Do you know what the words really mean that you are singing? In 1878, Edward Hine wrote an article titled, Seven-Eighths of the Bible Misunderstood, wherein he explains that seven-eighths of the Bible is about national salvation, i.e. the national salvation of True Israel; whereas, only one-eighth of the Bible is about personal salvation. Did you know that? In the 1960's, Pastor Sheldon Emry wrote an article title, An Open Letter to Any Minister Who Teaches the Jews Are Israel, wherein he is of the opinion that the Israel that exists today since 1948 is not the True Israel of the Bible. In 1998, Arnold E. Kennedy wrote a book titled, The Exclusiveness of Israel, wherein he legally proves using the King James Version of the Bible that the Bible in general is only about True Israel. So, here we are in the Twenty-First Century, and the Gospel that is preached today is totally convoluted from that which was preached in the First Century A.D. by Yahshuah and His disciples, i.e. the Gospel of the Kingdom. So, where did the so-called churches and pastors go wrong? By the way, is there really a hierarchy in the Bible? In order to find out what the truth really is, we have to look at the original languages in which the Bible was written and then translated. For example, the Old Testament was written in Hebrew and Aramaic, then translated into Greek. The New Testament was written in Hebrew and Greek. Both Testaments were put together and translated into Latin, then German, and finally into English, from which the entire world received their own translation of the Bible. So, what was the original meaning of the words used in the original languages, i.e. the etymology of the words. Once that is determined, then we can go onto the next phase and discuss types in the Bible. From there, what is the Law of First Mention? How should Bible prophecy be Interpreted? Who are the keys to Bible prophecy? Where are we in the Bible prophecy timeline? During these discussions, we will find out who Yahweh chose of all the families of the earth to make His own. The churches teach universalism. The question then becomes, Who was Yahweh's Law given to? What are the Laws of Yahweh? And then the even bigger question becomes, Who was Yahshuah sent to? All of these questions and more will be answered as you read this book...

**The London Gazette ,1917**

**Memory and Punishment** Emanuela Fronza,2018-02-27 This book examines the criminalisation of denials of genocide and of other mass atrocities in Europe and discusses the implications of protecting institutional historical memory

through criminal law. The analysis highlights the tensions with free speech, investigating the relationship between criminal law and historical memory. The book paves the way for a broader discussion about fake news, 'post-truth' scenarios, and free expression in a digital world. The author underscores the need to protect well-founded factual records from the dangers of misinformation. Historical denialism and the related jurisprudence represent a key step in exploring this complex field. The book combines an interdisciplinary approach with criminal law methodology. It is primarily aimed at academics, practitioners and others who wish to deepen their understanding of historical denialism, remembrance laws, 'speech crimes' and freedom of expression. Emanuela Fronza is Senior Research Fellow in Criminal Law and Lecturer in International and European Criminal Law at the School of Law, University of Bologna. She is a Principal Investigator within the EU research consortium Memory Laws in European and Comparative Perspectives funded by HERA (Humanities in the European Research Area).
