Wireless Internet Applications and Architecture Mark Beaulieu, 2002 This guide for developers and architects presents a technical overview of wireless Internet technology, applications, and content issues. The text begins with a discussion of basic wireless concepts and technological trends. Next, the construction of messaging, browsing, and interactive and conversational voice portal applications is described. The final section is devoted to the architecture of the wireless Internet. Coverage extends to a discussion of mCommerce servers. Annotation copyrighted by Book News Inc., Portland, OR.

I-mode Developer's Guide Paul Wallace, Andrea Hoffmann, 2002 Users of this book will be able to quickly and efficiently build I-Mode pages using any desired text editor. Following examples and instructions based on the authors' successful experiences, developers will create or convert images from other platforms, create animations and sound files, and develop dynamic database driven I-Mode applications and Web sites using common scripting languages such as Perl, PHP, and Java. They will also understand the relationship between I-Mode and other wireless technologies, and the unique business model of I-Mode. An overview of several killer applications that have fueled I-Mode's success will further prepare the reader to create applications that take full advantage of the features of small-screen devices.

Wireless Internet & Mobile Business Harvey M. Deitel, 2002 This text is designed for wireless internet/web courses and advanced internet/web programming courses focusing on the wireless internet found in computer science, CIS, MIS, business, and engineering departments. While the rapid expansion of wireless technologies such as cell phones and palm pilots offers many new opportunities for businesses and programmers, it also presents numerous challenges related to issues such as security and standardization.

Great Global Grid Robert Marcus, 2002 Emerging Technology Strategies and the Great Global Grid The next generation of the Internet will produce dramatic economic and social changes exceeding even the World Wide Web. Several emerging technologies are converging to create a Great Global Grid infrastructure where universal connectivity to large computing resources will be available for consumers and enterprises. The goal of this book is to provide a systematic survey of the full spectrum of Great Global Grid technologies from an enterprise viewpoint. The Great Global Grid - The range of technologies comprising the Great Global Grid is very wide. One of the main contributions of the book is to categorize these technologies in detail and to explain the dependencies among them. The technologies include: Application Servers and Portals Enterprise Application Integration and B2B Middleware Web Services and XML Messaging Peer-to-Peer Collaboration Pervasive Computing: Middleware and Software Platforms Distributed Resource Managers, Clusters and Grids Global Grid Middleware Conclusions for the Future Emerging Technology Strategies - The book does not hype these technologies or their benefits. Section 1 of the book describes examples of past emerging technologies that failed to realize their initial vision. Based on the lessons learned from these experiences, a pragmatic technology evaluation template is created that includes: Overview of the technology Relationships to other technologies Important technical and business trends Specific applications Industry and official standards Vendor overview by application area Leading implementation approaches Advice on deployment Future technical and business directions Recommendations Audience - The information collected in this book is not available from any other single source. The broad range of technologies, standards and vendors covered is necessary to understand the future enterprise applications of the Internet. The following groups should find the contents of this book especially valuable. Decision makers for the evaluation strategy and discussions of

current products, standards and open issues Developers and architects for the overview of many advanced software technologies and their relationships Consultants for the industry analysis of vendors and business applications Futurists for the trends and research that are the basis of the next generation Internet Students for the industrial applications and open source projects

El misteri de l'amor Joan Miquel Oliver, 2023-05-24 L'any 2008 Joan Miquel Oliver s'estrenava com a novel·lista amb l'espectacular i en certa manera escandalosa *El misteri de l'amor*, una novel·la molt loca plena de referents musicals i divertides digressions filosòfiques i travessada de cap a cap per l'humor particular i inconfusible de l'autor. Ara, quinze anys més tard i amb un pròleg nou de trinca, *El misteri de l'amor* torna a les llibreries en una edició revisada a fons i amb una coberta diferent. Per a tots els qui no la vau llegir aleshores i tingueu ganes de fer-ho ara, aquí va una petita sinopsi: Toni Amengual, alter ego de l'autor, ens guia pels meandres mentals d'una trama plena de sorpreses, que es va relligant amb soliloquis surreals i episodis hilarants, com ara un filòsof que va per les cases i pensa a domicili, un escultor que desafia l'ordre de la Creació esculpint una vulva gegant, una parella que viatja al futur per conquerir el seu destí o una palmera escapçada en un oasi amb una piscina en forma de ronyó. La incorrecció i l'alegria, l'erotisme i la tendresa, la crueltat i el cinisme es combinen en aquesta novel·la emocionant que desemboca, gràcies a un zoom final vertiginós, en un desenllaç alliberador i sorprenent.

Capítulos de história intelectual Alberto Luiz Schneider, 2020-12-03 O texto que o leitor tem em mãos é um livro sobre livros, seus autores, seus tempos e suas circunstâncias, atento às historicidades e às durações. Composto por três unidades, o que há em comum é a natureza das fontes: textos impressos voltados ao público e, por isso mesmo, intervenções políticas no mundo dos vivos. Em comum ainda (ao autor e às suas fontes), a permanente reflexão sobre a formação brasileira sob diferentes ângulos, problemáticas e regiões. A primeira unidade destes Capítulos de História Intelectual ocupa-se do Brasil de fins do século XIX princípio do XX, tempos de racismo científico, imigração e abolição, cujos dramas, tensões e diversidades saltam das páginas de Machado de Assis,

Sílvio Romero e Euclides da Cunha. Já a segunda unidade investe na compreensão das lutas pela memória de São Paulo, quer na historiografia quer nas artes, de fins do século XIX, até os anos 1940, permeados por múltiplos bandeirantes que emanam da historiografia de Afonso de Taunay ou compõem o discurso visual do Museu Paulista. Aqui aparecem ainda os sertanistas narrados pelos cronistas paulistas do século XVIII, Pedro Taques e Frei Gaspar da Madre de Deus, não por coincidência resgatados na primeira metade do século XX, quando São Paulo assumiu um protagonismo nacional que reinventou o passado colonial. Por fim, a terceira e maior unidade do livro gira em torno de dois importantes intelectuais: o sociólogo pernambucano Gilberto Freyre e o historiador britânico Charles Boxer. Em comum, ambos gastaram parte de suas vidas para pensar e narrar o passado colonial do Brasil e do Império português. Como não é possível olhar ao passado sem afetar-se do presente, ambos ofereceram respostas muito diferentes para a questão da raça e do racismo, nas décadas de 1950 e 1960, quando a politização do tema ocupou um lugar central no pensamento ocidental. Como que a refletir os novos tempos – de descolonização da África, dos movimentos civis protagonizados pelos negros norte-americanos, de novas intervenções intelectuais –, Freyre e Boxer, marcados pelas suas escolhas e circunstâncias, deram respostas distintas a um velho tema: a mestiçagem e o racismo. Temas que, a sua maneira, já apareciam em Sílvio Romero e Euclides da Cunha (ou obliquamente em Machado de Assis), ou ainda em Afonso de Taunay e nos discursos bandeirantes. Como questão de fundo, sempre ele, o passado colonial, revisitado por cada novo presente.

Dossiê Estudos Culturais Amanda Basilio Santos, Juliana Porto Machado, 2018-07-05 É com imensa satisfação que disponibilizamos o primeiro Dossiê Estudos Culturais, do Congresso Internacional de Pesquisa em Cultura e Sociedade. Pretendemos tornar esta uma tradição no desdobramento das próximas edições do evento, sempre reunindo os artigos que foram considerados como os destaques pelo Comitê Científico no decorrer das apresentações de trabalhos nos simpósios temáticos. Esta seleção, de trabalhos de variadas naturezas, muito agrega a nossa visão de fenômenos culturais na contemporaneidade: são temas pertinentes e condizentes com as discussões atuais em torno da cultura, de políticas identitárias e de fenômenos urbanos e patrimoniais. Desta forma, esta publicação é um produto que dialoga diretamente com as demandas sociais que encontram voz nas pesquisas desenvolvidas no ambiente acadêmico, mas que não são delimitadas pelos muros universitários. Assim como o graffiti do artista de rua Christian Guémy (C215), capa desta nossa primeira edição, a cultura é multifacetada, colorida, dinâmica, complexa e um fenômeno sempre estimulante. Por conta destas plurais apresentações no circuito social, nunca teremos uma única área do saber como capaz de compreender a totalidade das ocorrências culturais, sejam de longa ou curta duração. Deste modo, os estudos da cultura se colocam como um esforço inter, multi e pluridisciplinar. Nas páginas a seguir, poderemos ler trabalhos de pesquisas das mais variadas áreas do conhecimento, todos dedicados a acrescentar na compreensão daquilo que consideramos cultura. Gostaria de encerrar esta apresentação, agradecendo a todos que de algum modo participaram da primeira edição do CIPCS. Seja contribuindo com suas pesquisas, participando e fomentando os debates, assim como a toda a equipe que tornou possível a realização do evento. Agradecemos especialmente a FAPERGS, pelo financiamento que permitiu a qualidade de nossa proposta. Em nome de toda a Equipe CIPCS, desejamos uma ótima e proveitosa leitura, e esperamos que possamos continuar as discussões iniciadas em 2018 em nossa próxima edição.

Juventude e estilo de vida Flávia Cristina Soares, 2020-01-06 O presente livro Juventude e estilo de vida: um

estudo sobre torcida organizada foi criado a partir da tese de doutorado da socióloga e psicanalista Flávia Cristina Soares intitulado Cultura desviante e juventude: a torcida organizada como instrumento de domínio territorial, com o foco na juventude e seus agrupamentos na formação de uma torcida organizada e de sua territorialização. Como assinalado no prefácio do livro, seja no momento que antecede os jogos, seja na dimensão mais abrangente do cotidiano local, o trabalho revela os rituais de entrada e de pertencimento aos 'Tatus07', desde seu lema 'juntos somos mais': sua organização e hierarquia internas, suas regras e princípios éticos, suas práticas e ações, os signos e símbolos que, pode-se dizer, reafirmam e reatualizam a identidade coletiva. O texto desvela o papel das artes marciais e do corpo, os confrontos, embates e rivalidades, bem como as estratégias de domínio territorial. Mas mais além, ilumina uma dimensão – algo inusitada – da gramática relacional dos 'Tatus07', que aponta para o estabelecimento de laços de sociabilidade com a comunidade no território, das festas às ações sociais e filantrópicas.

Novo Typo Color Book Mark van Wageningen, 2017 Kleur zal in de nabije toekomst een prominente rol gaan spelen binnen het moderne letterontwerpen en de typografie. Het **Novo Typo Color Book** is het resultaat van een onderzoek naar het gebruik hiervan. Voor deze uitgave heeft Van Wageningen een serie meerkleurige lettertypes ontworpen waarmee alle denkbare mogelijkheden en combinaties worden geïllustreerd. Hij toont dat kleur en meerkleurige lettertypes een interessante en waardevolle toevoeging zijn binnen het hedendaagse (typo)grafische ontwerp. Het concept wordt helder toegelicht en gevisualiseerd. Speciaal voor dit project zijn een serie nieuwe matrijzen en loden letters geproduceerd waarmee een gedeelte gedrukt is op een historische drukpers.
