Twilight of Press Freedom John C. Merrill, Peter J. Gade, Frederick R. Blevens, 2001-04 This volume offers a historical, philosophical, and practical critique of public and civic journalism--a movement that gained momentum in the final decade of the 20th century. During that period, proponents of the movement have published nearly a dozen books expanding upon and expounding the virtues of journalism, seeking to repair what is thought to be the torn social, political, and moral fabric in America. Although previous works have established a strong practical underpinning for public and civic journalism, none has examined its philosophical roots or challenged its methodology and grounding in neoliberal constructs. This volume does just that, tracing its origins in early philosophy to the current newsroom policies and practices that conflict with traditional constructs in libertarian press theory. Twilight of Press Freedom postulates that institutionalized journalism is fading away and world journalism--prompted by the people--is veering toward more order and social harmony, and away from the traditional idea of the great value of press freedom. The volume provides a critical examination of the trend toward public journalism and considers how press freedom will be impacted by this trend in coming years. Scholars and students in journalism, public opinion, and media studies will find this book insightful and invaluable.

Talk Radio, the Mainstream Press, and Public Opinion in Hong Kong Francis L. F. Lee, 2014-07-01 Phone-in programs on public and commercial radio channels have been a staple of popular Hong Kong politics since the 1990s. In the absence of a fully democratic system, they have played an influential role in channeling and mediating public opinion. This work examines the phenomenon of talk radio in Hong Kong, using as its analytical framework the idea of remediation. It argues that the circulation and re-circulation of talk radio content through the mainstream media is crucial in explaining the medium's social prominence and influence. The process has not only widened the dissemination of talk radio content, but also established talk radio as a channel as well as a symbol for free political expression, giving it a role in shaping serious debate not seen in many other societies. Drawing on interviews with radio personnel, analysis of radio and newspaper content, and audience surveys, Talk Radio explores the vital and influential world of Hong Kong's phone-in programs. The book will be of interest to scholars of politics, media studies, and cultural studies both in Hong Kong and overseas. "This is the first comprehensive study on political radio phone-in talk shows that integrates analyses of the historical transformations of the genre, the conversational dynamics and the remediations of citizens' voices. Exceptionally rich in data, rigorous, and written in an accessible style, it contributes significantly to the fields of media studies, discourse analyses, public opinion and political communication." –Mats Ekström, Professor, Department of Journalism, Media and Communication, University of Gothenburg, Sweden "One of the most exciting developments in Hong Kong is the rise of talk radio as an interface between the political and public spheres. As this new volume demonstrates, no one is more qualified to discuss this process than Francis L. F. Lee, one of the most original analysts of modern Hong Kong and its media landscape." –Gary Rawnsley, author of Political Communications and Democracy and editor of Routledge Handbook of Chinese Media "A fascinating and extensively researched study of political opinion, the general public, and the mass media in Hong Kong." –Jan Servaes, editor of Sustainable Development and Green Communication: African and Asian Perspectives and author of Communication for Development: One World, Multiple Cultures

Visions of the Press in Britain, 1850-1950 Mark Hampton, 2004 Historians recognize the cultural centrality of the newspaper press in Britain, yet very little has been published regarding competing conceptions of the press and its proper role in British society. In Visions of the Press in Britain, 1850-1950, Mark Hampton surveys a diversity of sources--Parliamentary speeches and commissions, books, pamphlets, periodicals and select private correspondence--in order to identify how governmental elites, the educated public, professional journalists, and industry moguls characterized the political and cultural function of the press. Hampton demonstrates that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries.

Political Censorship of the Arts and the Press in Nineteenth-Century Europe Robert Justin Goldstein, 1989-08-14 Political Censorship of the Arts and the Press in Nineteenth-Century Europe presents a comprehensive account of the attempts by authorities throughout Europe to stifle the growth of political opposition during the nineteenth-century by censoring newspapers, books, caricatures, plays, operas and film. Appeals for democracy and social reform were especially suspect to the authorities, so in Russia cookbooks which referred to 'free air' in ovens were censored as subversive, while in England in 1829 the censor struck from a play the remark that 'honest men at court don't take up much room'. While nineteenth-century European political censorship blocked the open circulation of much opposition writing and art, it never succeeded entirely in its aim since writers, artists and 'consumers' often evaded the censors by clandestine circulation of forbidden material and by the widely practised skill of 'reading between the lines'.

Communications and Power Milton Israel,1994-04-14 At the end of the First World War, Government of India officials and Indian nationalist politicians began to recognise the need for an organized communications network that could reach out to a large and diverse Indian population. The challenge for Government and nationalists alike was to create an effective propaganda machine that could both disseminate news and, at the same time, elicit the desired political response. Milton Israel's 1994 book describes the role of the press, news services and propaganda agencies in the last stage of the nationalist struggle in India before the departure of the British, emphasizing the media's participation in the development of a 'national' perspective. Within this context, the author examines the significance of the encounter between imperialism and nationalism and the influence one had upon the other in achieving often conflicting objectives.

Higher Education in Post-Mao China Michael Agelasto,Bob Adamson,1998-06-01 Since the death of Chairman Mao in 1976, China has embarked upon the Four Modernizations reform programme that has transformed the social, economic and political landscape of the world's most populous nation. Higher education has been ascribed a key supporting role and has itself undergone major reforms. This book looks beyond the articulated goals and accomplishments of the modernization of higher education in China. It delves into the grass roots reality and identifies the true achievements, the unintended outcomes and the major obstacles that still have to be overcome. Incorporating twenty chapters from the new generation of scholars from inside and outside China, *Higher Education in Post-Mao China* presents in-depth analyses of the impact of educational reforms on tertiary educators, the curriculum, the economic structure, women, and students' values and aspirations. In conveying the Chinese experience of higher education reform over the past two decades, this book makes a major contribution to contemporary sinology and comparative education.

The Party's Over Keith Sutherland,2013-12-09 Consider the following paradox: As the leaders of both of the main British political parties subscribed to the neoconservative doctrine on Iraq, everybody else in the birthplace of parliamentary democracy was effectively disenfranchised. Yet one of the rationales supporting the deployment of UK forces in Iraq was the wish to export democracy to the Middle East. The Emperor would appear to have mislaid his clothes (see Gordon Graham's Case Against the Democratic State). Judging from the lack of ministerial resignations in the wake of the Butler enquiry, Britain is no longer a parliamentary democracy. The classical doctrine of joint and several ministerial responsibility is revealed to be a fiction, and Lord Hailsham's verdict of 'elective dictatorship' is a better assessment of the British constitution. By contrast unelected bodies like the BBC are now far more accountable for their actions. The reason of this paradox is the monopoly power of the ruling party, controlled by the Prime Minister. The UK political party started off as a loose association of like-minded MPs. However, in recent years the tail has been wagging the dog - politicians now have no alternative but to choose and then fall in line behind a strong leader with the charisma to win elections. This book examines the historical forces that gave rise to the modern political party and questions its role in the post-ideological age. If we all now share the liberal market consensus, then what is the function of the party? Parties in America are a lot weaker, so the book considers Graham Allen's argument to emulate the US system of checks and balances, but concludes that we would be better off reinterpreting our own constitution more literally. When the Chancellor really was a minister of the crown, every line of the budget was meticulously scrutinized. The key to the changes advocated in the book is the replacement of the Victorian ballot-box with a modern system of representation, based on the jury-selection principle.

Dreams Beyond Time Lee Irwin,2022-05-04 *Dreams Beyond Time* describes a variety of dream types related to non-ordinary and exceptional dreams, including mythic, paranormal, and transpersonal dreaming. The book describes a metaphysics of discovery as intrinsic to dreaming in a pan-sentience cosmos, where dreams reveal human potential for personal spiritual development.

Media/Democracy Alec Charles,2013-07-16 It is a view commonly acknowledged that the mass media have a crucial role to play in the development and maintenance of

democracy. It is a matter of greater controversy as to whether the media's influence upon democracy is as constructive as it might be. This collection explores the various impacts upon democratic structures and processes of different media forms in different parts of the world. It examines the very different influences of the press in democratic Nigeria and post-Leveson Britain; it looks at how social media are used by politicians, voters and revolutionaries in the UK, Poland and the Arab Region; it investigates the political impact of media ownership in Britain, Italy and Argentina; and it asks whether we can ever hope to develop from being passive consumers of the mass media to active participants in modes of democratic citizenship underpinned by those media.
