My Magical Elf Preston Martelly,2014-11-14 Christmas is fast approaching and guess who is coming to visit your family: that's right, it's the mischievous little magical elf that everyone in the family loves. Little elves have been visiting households for centuries and making notes for Santa to keep track of who is on the naughty or nice list. This year why not start a new tradition and build your own elf with the kids. Get the kids together and get ready to be crafty. Once your elf or elves are custom made and ready, they can be sent to the North Pole to get their magic from Santa and return the next day with a certificate indicating that they have received their elf magic and have been named.

Humanitarian Aftershocks in Haiti Mark

Schuller,2016-01-12 The 2010 earthquake in Haiti was one of the deadliest disasters in modern history, sparking an international aid response—with pledges and donations of \$16 billion—that was exceedingly generous. But now, five years later, that generous aid has clearly failed. In *Humanitarian Aftershocks in Haiti*, anthropologist Mark Schuller captures the voices of those involved in the earthquake aid response, and they paint a sharp, unflattering view of the humanitarian enterprise. Schuller led an independent study of eight displaced-persons camps in Haiti, compiling more than 150 interviews ranging from Haitian front-line workers and camp directors to foreign humanitarians and many displaced Haitian people. The result is an insightful account of why the multi-billion-dollar aid response not only did little to help but also did much harm, triggering a range of unintended consequences, rupturing Haitian social and cultural institutions, and actually increasing violence, especially against women. The book shows how Haitian people were removed from any real decision-making, replaced by a top-down, NGO-dominated system of humanitarian aid, led by an army of often young, inexperienced foreign workers. Ignorant of Haitian culture, these aid workers unwittingly enacted policies that triggered a range of negative results. Haitian interviewees also note that the NGOs “planted the flag,” and often tended to “just do something,” always with an eye to the “photo op” (in no small part due to the competition over funding). Worse yet, they blindly

supported the eviction of displaced people from the camps, forcing earthquake victims to relocate in vast shantytowns that were hotbeds of violence. Humanitarian Aftershocks in Haiti concludes with suggestions to help improve humanitarian aid in the future, perhaps most notably, that aid workers listen to—and respect the culture of—the victims of catastrophe.
