Proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018) Sebastiano Bagnara, Riccardo Tartaglia, Sara Albolino, Thomas Alexander, Yushi Fujita, 2018-08-04 This book presents the proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018), held on August 26-30, 2018, in Florence, Italy. By highlighting the latest theories and models, as well as cutting-edge technologies and applications, and by combining findings from a range of disciplines including engineering, design, robotics, healthcare, management, computer science, human biology and behavioral science, it provides researchers and practitioners alike with a comprehensive, timely guide on human factors and ergonomics. It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize system performance, while at the same time promoting the health, safety and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains and productive sectors. This volume includes papers addressing the following topics: Transport Ergonomics and Human Factors (TEHF), and Aerospace Human Factors and Ergonomics.

**The Defence of Tradition in Brazilian Popular Music** Sean Stroud, 2016-03-23 Sean Stroud examines how and why Música Popular Brasileira (MPB) has come to have such a high status, and why the musical tradition (including MPB) within Brazil has been defended with such vigour for so long. He emphasizes the importance of musical nationalism as an underlying ideology to discussions about Brazilian popular music since the 1920s, and the key debate on so-called 'cultural invasion' in Brazil. The roles of those responsible for the construction of the idea of MPB are examined in detail. Stroud analyses the increasingly close relationship that has developed between television and popular music in Brazil with particular reference to the post-1972 televised song festivals. He goes on to consider the impact of the Brazilian record industry in the light of theories of cultural imperialism and globalization and also evaluates governmental intervention relating to popular music in the 1970s. The importance of folklore and tradition in popular music that is present in both Mário de Andrade and Marcus Pereira's efforts to 'musically map' Brazil is clearly emphasized. Stroud contrasts these two projects with Hermano Vianna and Itaú Cultural's similar ventures at the end of the twentieth century that took a totally different view of musical 'authenticity' and tradition. Stroud concludes that the defence of musical traditions in Brazil is inextricably bound up with nationalistic sentiments and a desire to protect and preserve. MPB is the musical expression of the Brazilian middle class and has traditionally acted as a cultural icon because it is associated with notions of 'quality' by certain sectors of the media.

Thick Space Dorothee Brantz, Sasha Disko, Georg Wagner-Kyora, 2014-03-31 Could the concepts of »metropolitanism« and »thick space« aid our understanding of historical and contemporary urban change? Essays by scholars from both sides of the Atlantic provide interdisciplinary approaches to the complex dynamics of large-scale urbanization. The book opens with conceptual questions regarding the development of metropolises and metropolitan studies. The following sections provide analyses of the social, environmental, and cultural dimensions of metropolitan spaces from both a theoretical and an empirical perspective, such as the role of planning and urban parks, the impact of ethnic diversity and segregation, the place of cinematic visions or the centrality of infrastructures and architecture.
