Developer's Digital Media Reference Curtis Poole,Janette Bradley,2013-04-26

Designed for media professionals working across a broad range of formats, Developer's Digital Media Reference is an excellent reference guide for those keeping pace with this dynamic industry. As convergence between the World Wide Web, multimedia, and television production communities continues, there is an increased demand for professionals to familiarize themselves with the many new delivery contexts, including hybrid DVD (where digital video content and computer data live on the same disc), interactive TV, and streaming media. Developer's Digital Media Reference covers essential technologies such as SVG (scalable vector graphics), SMIL (Synchronized Multimedia Integration Language, a markup language for creating animations on the web), MPEG-4 (compression standard for streaming audio/video), and Dynamic Web Applications. In addition to serving as a quick-look-up guide, this text is organized to explain today's major media: server-based architectures, disc-based architectures, distribution architectures, and merging/shared architectures. Each topic is discussed in terms of the technological background-evolution, current tools, and production tips and techniques.

Pandemic Crossings Guobin Yang,Bingchun Meng,Elaine J. Yuan,2024-01-01

Throughout the COVID-19 crisis, nation states found new ways to assert power under the guise of public health, from closing or tightening borders to expanding the boundaries of acceptable citizen surveillance. As these controls increased in intensity, citizens' passions to cross borders seemed to grow in proportion. Pandemic Crossings explores how these processes of boundary making and crossing, often mediated by digital technology despite

inequity of access, had profound and often contradictory consequences on individual lives, national politics, and U.S.-China relations. This rich and geographically diverse collection of studies informed by everyday, individual experiences contribute new insights to the interplay between digital technologies and state governance during the covid-19 pandemic. It opens up new avenues of research not only on the covid-19 pandemic but also on global health crises more broadly.

Sheet Music of the Confederacy Robert I. Curtis, 2024-03-28 The creation of the Confederate States of America and the subsequent Civil War inspired composers, lyricists, and music publishers in Southern and border states, and even in foreign countries, to support the new nation. Confederate-imprint sheet music articulated and encouraged Confederate nationalism, honored soldiers and military leaders, comforted family and friends, and provided diversion from the hardships of war. This is the first comprehensive history of the sheet music of the Confederacy. It covers works published before the war in Southern states that seceded from the Union, and those published during the war in Union occupied capitals, border and Northern states, and foreign countries. It is also the first work to examine the contribution of postwar Confederate-themed sheet music to the South's response to its defeat, to the creation and fostering of Lost Cause themes, and to the promotion of national reunion and reconciliation.

Dictionaries. An International Encyclopedia of Lexicography Rufus Gouws, Ulrich Heid, Wolfgang Schweickard, Herbert Ernst Wiegand, 2013-12-18 The basis for this additional volume are the three volumes of the handbooks Dictionaries. An International Encyclopedia of Lexicography (HSK 5.1–5.3), published between 1989 and 1991. An updating has been perceived as an important desideratum for a considerable time. In the present Supplementary Volume the premises and subjects of HSK 5.1–5.3 are complemented by new articles that take account of the practice-internal and theoretical developments of the last 15 years. Special attention has been given to the following topics: the status and function of lexicographic reference works, the history of lexicography, the theory of lexicography, lexicographic processes, lexicographic training and lexicographic institutions, new metalexicographic methods, electronic and, especially, computer-assisted lexicography.

Sterbehilfe und Sterbebegleitung. Zum Text "Tanner geht" von Wolfgang Prosinger Philip Neuß, 2015-02-02 Essay aus dem Jahr 2011 im Fachbereich Soziologie - Individuum, Gruppe, Gesellschaft, Note: 12, Justus-Liebig-Universität Gießen, Sprache: Deutsch, Abstract: Im Jahr 2000 lebten in Deutschland bereits 114.000 Menschen, die 90 Jahre oder älter waren und auch aktuelle Studien zeigen einen anhaltenden demographischen Wandel zu einer Gesellschaft der Alten, die in vielen Industrienationen zu beobachten ist. Die durchschnittliche Lebenserwartung der Bundesbürger steigen dabei auf 84,5 Jahre für Frauen und 80,5 Jahre für Männer, die Achtzig und Neunzigjährigen sind mittlerweile nicht nur in der Bundesrepublik die am schnellsten wachsende Bevölkerungsgruppe, während die Unsicherheit und die Zukunftsängste wachsen. Fortschritte der Medizin verdrängen den Tod und die Auseinandersetzung mit dem Sterben immer weiter aus der Gesellschaft. Demgegenüber steht eine große Debatte um die Möglichkeit den eigenen Tod in Krankheits- und Pflegefall einzuleiten, die sich vielfach unter dem Begriff Sterbehilfe in den Medien findet.

My Body Given for You Helmut Hoping, 2019-10-23 The Eucharist goes back to the Last Supper of Jesus with his disciples. It is based on the prayer of thanksgiving that Jesus pronounced over the bread and wine at that meal. Eucharist means thanksgiving, praise and blessing. The Church celebrates the Eucharist as a memorial of the death and

Resurrection of Jesus Christ. The memorial of the Eucharist is more than a remembrance of the Last Supper of Jesus with his disciples. In the Eucharist the sacrifice of our redemption becomes present sacramentally. In the past, dogmatic theology has treated the meaning of the Eucharist while disregarding the form of its liturgical celebration, whereas liturgical studies have been content with the latter. Yet the two cannot be separated, however, any more than liturgy and dogma or pastoral practice and doctrine can. For the Church's liturgy is not about something external to Christian revelation, but rather about revelation accepted in faith and prayer (Joseph Ratzinger). In this work Helmut Hoping combines the approaches of dogmatic theology and liturgy while examining the Eucharist from an historical and systematic perspective. The second German edition of this major work, which this new English translation is taken from, was revised and expanded, adding a comparative analysis of the Second Eucharistic Prayer and a chapter on the theology of the words of institution.

Mit anderen Augen Prof. Dr. Carl-Ludwig Schönfeld, Birgit Prosinger, 2022-12-15 Ich glaube, ich wurde für die Augen geboren. Die Ophthalmologie sollte die große Passion des Münchner Professors Carl-Ludwig Schönfeld werden, Beruf und Berufung gleichermaßen, eine Leidenschaft, der er seit rund vier Jahrzehnten unvermindert nachgeht. Doch nicht nur Patienten im wohlhabenden westlichen Europa sollten von seiner Expertise

profitieren. Sein Wunsch war und ist es, den weniger Privilegierten in einkommens- und strukturschwachen Regionen der Erde dieses Wissen zugutekommen zu lassen. Seine Teachings führten Prof. Schönfeld um den halben Erdball und ermöglichten es seinen augenärztlichen Kollegen, sich weiter- und zu absoluten Experten auf ihrem Gebiet ausbilden zu lassen -- zum Wohle der Patienten.

Working Through Colonial Collections Margareta von Oswald, 2022-11-14
Reckoning with colonial legacies in Western museum collections What are the possibilities and limits of engaging with colonialism in ethnological museums? This book addresses this question from within the Africa department of the Ethnological Museum in Berlin. It captures the Museum at a moment of substantial transformation, as it prepared the move of its exhibition to the Humboldt Forum, a newly built and contested cultural centre on Berlin's Museum Island. The book discusses almost a decade of debate in which German colonialism was negotiated, and further recognised, through conflicts over colonial museum collections. Based on two years of ethnographic fieldwork examining the Museum's various work practices, this book highlights the Museum's embeddedness in colonial logics and shows how these unfold in the Museum's everyday activity. It addresses the diverse areas of expertise in the Ethnological Museum – the preservation, storage, curation, and research of collections – and also draws on archival research and oral history interviews with current and former employees. Working through Colonial Collections unravels the ongoing and laborious processes of reckoning with colonialism in the Ethnological Museum's present – processes from which other ethnological museums, as well as Western museums more generally, can learn.

Music of the Civil War Era Steven H. Cornelius, 2004-08-30 As divisive and destructive as the Civil War was, the era nevertheless demonstrated the power that music could play in American culture. Popular songs roused passion on both sides of the Mason-Dixon line, and military bands played music to entertain infantry units-and to rally them on to war. The institution of slavery was debated in songs of the day, ranging from abolitionist anthems to racist minstrel shows. Across the larger cultural backdrop, the growth of music publishing led to a flourishing of urban concert music, while folk music became indelibly linked with American populism. This volume, one of the first in the American History through Music series, presents narrative chapters that recount the many vibrant roles of music during this troubled period of American history. A chapter of biographical entries, a dictionary of Civil War era music, and a subject index offer useful reference tools. The American History through Music series examines the many different styles of music that have played a significant part in our nation's history. While volumes in this series show the multifaceted roles of music in culture, they also use music as a lens through which readers may study American social history. The authors present in-depth analysis of American musical genres, significant musicians, technological innovations, and the many connections between music and the realms of art, politics, and daily life. Chapters present accessible narratives on music and its cultural resonations, music theory and technique is broken down for the lay reader, and each volume presents a chapter of alphabetically arranged entries on significant people and terms.

Tell It to the World David Savran, 2024 What happens when Broadway goes abroad? *Tell It to the World: The Broadway Musical Abroad* offers a look at how the Broadway

musical travels the world, influencing and even transforming local practices and traditions. It also shows how some of the most innovative, beautiful, and exciting musical theatre is being made outside the United States.

Doing Diversity in Museums and Heritage Sharon Macdonald, 2022-12-31 The museum and heritage sector has been shaken by debates over how to address colonialism, migration, Islamophobia, LGBTI+ and multiple other forms of difference. This major multi-researcher ethnography of museums and heritage in Berlin provides new insight into how ›diversity‹ is understood and put into action in museums and heritage. Exploring new initiatives and approaches, the book shows how these work - or do not - in practice. By doing so, it highlights ways forward - for research and action - for the future. The fieldwork locations on which this book is based include the Humboldt Forum, the Museum of Islamic Art, the Museum für Naturkunde, and the Memorial to the Murdered Jews of Europe, as well as Berlin streets and protests.
