Entrepreneur Chef Niraj (Niru) Karthik is in charge of catering for his best friend's wedding. He isn't looking forward to meeting his childhood crush-the one that got away-but he finds himself drawn to her again. As both try to come to terms with their true feelings, they realize that a lot more than friendship is at stake. And then, there's Shweta's family, mixed up in a dilemma: an overbearing father, an over-anxious mother, and three very disparate yet close siblings. The Horse at Gettysburg Chris Bagley, 2021-08-03 Horses are one of the many unsung heroes of the American Civil War. These majestic animals were impressed into service, trained, prepared for battle, and turned into expendable implements of war. There is more to this story, however. When an army's means and survival is predicated upon an animal whose instincts are to flee rather than fight, a bond of mutual trust and respect between handler and horse must be forged. Ultimately, the Battle of Gettysburg resulted in thousands of horses killed and wounded. Their story deserves telling, from a time not so far removed.

The Red Gate Richard Sutton, 2012-04-04 An unexplained drowning...a muddy fall. A chain of unexpected events, a discovery and an ancient secret threaten the future. The story begins with a rainy funeral in Dublin in 1912. It tells how a very traditional, Western Irish sheep raising family learn of a secret holding them to their land and to an ancient promise. In the process

of unexpected discovery they must put aside personal insecurities and failings and open up their lives to defend themselves. A devious plan hatched by a greedy academic attempts to reveal their secret to the world for his own gain. This they must prevent at all cost. Their good humored manner of removing obstacles, both figurative and solid, reminds the reader that not all sources of strength are apparent. Despite loss and fear, they learn that help can come from sources seen and unseen, as they discover their place in the greater world. Listed as an Awesome Indie title, and recipient of the 2013 Book Reader's Appreciation Medallion. Be sure to follow the O'Deirg family's adventures in *The Gatekeepers*, the sequel, published 2010

Foodborne Pathogens Clive de W Blackburn, Peter J McClure, 2009-06-30 Effective control of pathogens continues to be of great importance to the food industry. The first edition of Foodborne pathogens quickly established itself as an essential guide for all those involved in the management of microbiological hazards at any stage in the food production chain. This major edition strengthens that reputation, with extensively revised and expanded coverage, including more than ten new chapters. Part one focuses on risk assessment and management in the food chain. Opening chapters review the important topics of pathogen detection, microbial modelling and the risk

assessment procedure. Four new chapters on pathogen control in primary production follow, reflecting the increased interest in safety management early in the food chain. The fundamental issues of hygienic design and sanitation are also covered in more depth in two extra chapters. Contributions on safe process design and operation, HACCP and good food handling practice complete the section. Parts two and three then review the management of key bacterial and non-bacterial foodborne pathogens. A new article on preservation principles and technologies provides the context for following chapters, which discuss pathogen characteristics, detection methods and control procedures, maintaining a practical focus. There is expanded coverage of non-bacterial agents, with dedicated chapters on gastroenteritis viruses, hepatitis viruses and emerging viruses and foodborne helminth infections among others. The second edition of Foodborne pathogens: hazards, risk analysis and control is an essential and authoritative guide to successful pathogen control in the food industry. Strengthens the highly successful first edition of Foodborne pathogens with extensively revised and expanded coverage Discusses risk assessment and management in the food chain.
