The Purple Book Robert Philpot,2011-09-23 The Labour Party is at a crossroads. Following its ejection from government, the reasons behind Labour's defeat have been hotly debated - but where to go from here? On the benches of opposition, with ample opportunity to consider how best to travel the path back to power, leading Labour figures are delving into the party's revisionist tradition to find an answer. The challenge now is how to return to the party's core principles, and it is to this challenge that The Purple Book offers a first contribution. With a foreword by Ed Miliband and contributors including both shadow and former ministers, new MPs and senior councillors, the book presents fresh policies for Labour's revival. Calling for a progressive agenda with, at its heart, a redistribution of power to individuals and local communities, The Purple Book draws on lessons from Labour's past and looks firmly to the future. Exploring the issues that the party must tackle in order to reshape the political debate, it seeks to reframe New Labour for the twenty-first century.

Deeper Shades of Purple Stacey M. Floyd-Thomas,2006-08 Womanist approaches to the study of religion and society have contributed much to our understanding of Black religious life, activism, and women's liberation. Deeper Shades of Purple explores the achievements of this movement over the past two decades and evaluates some of the leading voices and different perspectives within this burgeoning field. Deeper Shades of Purple brings together a who's who of scholars in the study of Black women and religion who view their scholarship through a womanist critical lens. The contributors revisit Alice Walker's definition of womanism for its viability for the approaches to discourses in religion of Black women scholars. Whereas Walker has defined what it means to be womanist, these contributors define what it means to practice womanism, and illuminate how womanism has been used as a vantage point for the theoretical orientations and methodological approaches of Black women scholar-activists. Contributors: Karen Baker-Fletcher, Katie G. Cannon, M. Shawn Copeland, Kelly Brown Douglas, Carol B. Duncan, Stacey M. Floyd-Thomas, Rachel Elizabeth Harding, Rosemarie Freeney Harding, Melanie L. Linguistic Meaning (RLE Linguistics A: General Linguistics) Keith Allan,2014-02-03 Dr Keith Allan presents a coherent, consistent and comprehensive account of linguistic meaning, centred around an informally presented theory of meaning. It is intended for graduate and undergraduate students of linguistics, or any linguist curious about what a theory of meaning should seek to accomplish and the way to achieve that aim. The work assumes that the primary task of a theory of linguistic meaning is to describe the meaning of speech acts. This in turn presupposes a theory of semantics and a theory of prosodic meaning, as well as a proper treatment of the co-operative principle, context and background information. These matters are dealt with in detail. The second task of a theory of linguistic meaning is to identify what meaning is, to explain the relationships between sense and denotation, and to explicate the nature of meaningful properties and meaning relations. These matters are fully covered, and the work concludes with a summary of the principle arguments presented.

The Action Plan for Australian Birds 2020 Stephen T. Garnett,G Barry Baker,2021-12-01 The Action Plan for Australian Birds 2020 is the most comprehensive review of the status of Australia's avifauna ever attempted. The latest in a series of action plans for Australian birds that have been produced every decade since 1992, it is also the largest. The accounts in this plan have been

authored by more than 300 of the most knowledgeable bird experts in the country, and feature far more detail than any of the earlier plans. This volume also includes accounts of over 60 taxa that are no longer considered threatened, mainly thanks to sustained conservation action over many decades. This extensive book covers key themes that have emerged in the last decade, including the increasing impact of climate change as a threatening process, most obviously in Queensland's tropical rainforests where many birds are being pushed up the mountains. However, the effects are also indirect, as happened in the catastrophic fires of 2019/20. Many of the newly listed birds are subspecies confined to Kangaroo Island, where fire destroyed over half the population. But there are good news stories too, especially on islands where there have been spectacular successes with predator control. Such uplifting results demonstrate that when action plans are followed by action on the ground, threatened species can indeed be recovered and threats alleviated.

Lotus Blossoms and Purple Clouds Brian J. Nichols, 2022-08-31 Southeast China is a traditional stronghold of Buddhism, but little scholarly attention has been paid to this fact. Brian Nichols's pioneering book, *Lotus Blossoms and Purple Clouds*, centers on a large Buddhist monastery in Quanzhou and combines ethnographic detail with stimulating analysis to examine religion in post-Mao China. Nichols conducted more than twenty-six months of field research over a fourteen-year period (2005–2019) to develop a re-description of Chinese monastic Buddhism that reaches beyond canonical sources and master narratives to local texts, material culture, oral history, and living traditions. His work decenters normative accounts and sheds light on how Buddhism is lived and practiced. It introduces readers to Quanzhou Kaiyuan Monastery and its community of clergy striving to revive traditions after the turmoil of the Maoist era; the lay Buddhists worshipping in the monastery's courtyards and halls; the busloads of tourists marveling at the site's buildings and artifacts, some dating as far back as the Tang Dynasty (ninth century); and the local officials dedicated to supporting—and restricting—the return of religion. Using gazetteers, epigraphy, and other archival sources, Nichols begins by tracing the history of Quanzhou Kaiyuan Monastery from the Tang Dynasty to the present, noting the continued relevance of preternatural events like the lotus-blooming mulberry trees and auspicious purple clouds associated with the founding of the monastery. The contemporary monastery is then explored through ethnographic participation/observation and interviews. Nichols uncovers a number of unexpected features of Buddhist religious life, making a case for the fundamentally liturgical nature of Buddhist monastic practice—one marked by a program of daily dharani (sacred text) recitation, esoteric traditions, and ancestor veneration. Finally, he presents an innovative spatial analysis of the Quanzhou Kaiyuan Monastery temple that reveals how different groups engage with the site to create a place of religious practice, a tourist attraction, and a community park.

Pigments in Fruits and Vegetables Chunxian Chen, 2015-04-08 This comprehensive treatise provides a systemic and insightful overview of current advances in the biosynthetic genomics/genetics and preventive dietetics of carotenoids, flavonoids and betalains, from a general perspective, and in specific fruits and vegetables as well. Genomics/genetics focuses on what and how enzymatic and regulatory genes are involved in pigment biosynthesis. Dietetics emphasizes how these pigments contribute nutritional/medical benefits to health, prevent diseases, and act as potential nutraceuticals in the diet.
