Early Literacy Skills Builder ,2010-09-01 Apply the science of reading to students with moderate-to-severe developmental disabilities, including autism The Early Literacy Skills Builder program incorporates systematic instruction to teach both print and phonemic awareness. ELSB is a multi-year program with seven distinct levels and ongoing assessments so students progress at their own pace. Five years of solid research have been completed through the University of North Carolina at Charlotte, proving ELSB to be a highly effective literacy program and more effective than a sight-word only program. ELSB is based upon the principles of systematic and direct instruction. It incorporates scripted lessons, least-prompt strategies, teachable objectives, built-in lesson repetition, and ongoing assessments. The seven ELSB levels contain five structured lessons each. All students begin at Level 1. If a student struggles here, go back and administer Level A. Instruction is one-on-one or in small groups. Teach scripted lessons daily in two 30-minute sessions. On the completion of each level, formal assessments are given. ELSB includes everything you need to implement a multi-year literacy curriculum.

Remedial Education at Degree-granting Postsecondary Institutions in Fall 2000 Basmat Parsad,2003 Provides national estimates on the prevalence and characteristics of remedial courses and enrollments in degree-granting postsecondary institutions in fall 2000 and changes from fall 1995.

Evidence-Based Interventions for Students with Learning and Behavioral Challenges Richard J. Morris,Nancy Mather,2008-01-14 This book assembles into one volume summaries of school-based intervention research that relates to those who deal on a regular basis with the growing body of students having high-incidence learning disabilities and/or behavior disorders: special educators, school psychologists, and clinical child psychologists. Chapter authors begin with an overview of their topic followed by a brief section on historical perspectives before moving on to the main section - a critical discussion of empirically based intervention procedures. In those instances where evidence-based prescriptions can legitimately be made, authors discuss best practices and the conditions (e.g., classroom environment, teacher expertise) under which these practices are most effective. A final section deals with policy issues.

Shaping Literacy Achievement Michael Pressley, Alison K. Billman, Kristen H. Perry, Kelly E. Reffitt, Julia Moorhead Reynolds, 2015-09-08 In the era of No Child Left Behind, what literacy research is still needed? How should it be conducted? And what role does research play in determining the kinds of literacy experiences that actually take place in classrooms? This forward-thinking book brings together leading authorities to address these vital and hotly debated questions. Contributors analyze the existing knowledge on core aspects of literacy education, describe how science is currently informing practice, and identify important methodological challenges and research directions. A highlight of the book is a chapter in which Michael Pressley offers an insightful critique of Reading First as well as practical recommendations for improving future policies.

Firefighter Frank Monica Wellington, 2011-03-17 Bright pictures of a firefighter and his big red truck make this board book perfect for the very youngest.
