She's a Jolly Good Fellow Sajita Nair,2012-08-07 Second Lieutenants Deepa Shekhar and Anjali Sharma have an important task at hand: convince their male counterparts that they too are assets to the Indian Army – rather than merely those with assets. When the 23-year-olds are transferred to a remote army unit, several hilarious situations follow, thanks to the stark novelty of a feminine presence in the traditionally male army. However, with each passing day, the differences in their personalities begin to emerge. Deepa is more 'officer': she insists on being called 'Sahab' and even takes to swearing like the troops. Anju is more 'lady': she can't give up her make-up and Mills & Boon romances. Or resist the charms of a certain dashing young officer, despite her friend's warnings to stay away. The girls frequently fall out and get back together, but face the same dilemma: is any man worth more than their uniform?

Stoned, Shamed, Depressed Jyotsna Mohan Bhargava,2020-09-03 In *Stoned, Shamed, Depressed*, journalist Jyotsna Mohan Bhargava investigates the secret lives of India's urban teens and comes up with an eye-opening account -- of struggles with addiction to substances, social media and gaming, dealing with intense peer pressure, bullying and body shaming, and the resultant physical and mental health issues. This book chronicles the confused journey of Indian teens to adulthood -- along a road that is full of temptation, where boundaries are easily blurred, and where the lure of easy adventure, often in the virtual world, can unleash events that have repercussions for years to come. The narrative interweaves accounts of teens, parents, teachers and child psychologists to reveal a deeply disturbing picture of modern-day school life in urban India.

Strategic Marketing and Innovation for Indian MSMEs R. Srinivasan,C.P. Lohith,2017-03-21 This book investigates how strategic marketing is influencing organizations' innovation performance. It presents a structured study conducted on micro, small and medium enterprises (MSMEs) to identify the correlation between innovation and strategic marketing in both Indian manufacturing and service organizations. Strategic marketing, which achieves excellence in organizations, is at the heart of improving productivity, profitability and market sustainability, while also supplying organizations a much sought-after competitive advantage. It has been observed that strategic marketing can significantly help any manufacturing firm to attain the required level of growth, and can specifically be used by Indian firms as a means of deriving differential advantages. Indian organizations that pursue more traditional approaches to strategy are now feeling the intense market pressure to modify their policy with respect to quality. The result has been a shift to 'Strategy with Innovation'. As market competition has again increased, providing quality products and services alone is no longer sufficient; companies are additionally expected to provide products with a touch of innovation to attract customers. This calls for innovation in terms of products, processes, technologies, systems and practically every other area of an organization, which can only be achieved by combining strategies and innovation. This book identifies the variables of strategic marketing that can help companies significantly boost their innovation performance, making it a valuable resource for students, researchers, professionals and policymakers alike.

Student Writing Tutors in Their Own Words Max Orsini,Loren Kleinman,2022-06-24 Student Writing Tutors in Their Own Words collects personal narratives from writing tutors around the world, providing tutors, faculty, and writing center professionals with a diverse and experience-based understanding of the writing support process. Filling a major gap in the research on writing center theory, first-year writing pedagogy, and higher education academic support resources, this book provides narrative evidence of students' own experiences with learning assistance discourse communities. It features a variety of voices that address how academic support resources such as writing centers have served as the nucleus for students' (i.e., both tutors and their clients) sense of community and self, ultimately providing a space for freedom of discourse and expression. It includes narratives from writing tutors supporting students in unconventional spaces such as prisons, tutors offering support in war-torn countries, and students in international centers facing challenges of distance learning, access, and language barriers. The essays in this collection reveal pedagogical takeaways and insights about both student and tutor collaborative experiences in writing center spaces. These essays are a valuable resource for student writing tutors and anyone involved with them, including composition instructors and scholars, writing center professionals, and any faculty or administrators involved with academic support programs.

Digital Destiny Shawn DuBravac, 2015-01-12 Our world is about to change. In *Digital Destiny: How the New Age of Data Will Change the Way We Live, Work, and Communicate*, Shawn DuBravac, chief economist and senior director of research at the Consumer Electronics Association (CEA), argues that the groundswell of digital ownership unfolding in our lives signals the beginning of a new era for humanity. Beyond just hardware acquisition, the next decade will be defined by an all-digital lifestyle and the "Internet of Everything"—where everything, from the dishwasher to the wristwatch, is not only online, but acquiring, analyzing, and utilizing the data that surrounds us. But what does this mean in practice? It means that some of mankind's most pressing problems, such as hunger, disease, and security, will finally have a solution. It means that the rise of driverless cars could save thousands of American lives each year, and perhaps hundreds of thousands more around the planet. It means a departure from millennia-old practices, such as the need for urban centers. It means that massive inefficiencies, such as the supply chains in Africa allowing food to rot before it can be fed to the hungry, can be overcome. It means that individuals will have more freedom in action, work, health, and pursuits than ever before.

No Guns at my Son's Funeral Paro Anand, 2012-12-27 A compelling story of a child born into unrest. Aftab, a young Kashmiri boy, leads a double life. By day, he is a normal, bubbly teenager whose prime concerns are cricket, family and friends. The night holds the secrets of the life of a child, one who sneaks away to confabulate with Akram and his fledgling group of tearaway terrorists. Akram, so handsome, so exciting. But what Aftab doesn't realize, so dangerous. Aftab is in complete awe of Akram and is willing to follow him to the ends of the earth. And Akram is more than willing to send him there. Though set against the militancy in Kashmir, this novel could belong anywhere in today's world where violence is just a breath away. A brave story, never told in so raw a form, this is 'reality fiction' at its most real. A book for teenagers - and for adults of all ages - who live in a world where 'cops and robbers' is not fun any more, but a deadly game.

Ravan and Eddie Kiran Nagarkar, 2012-12-11 Ravan and Eddie are the unlikeliest of companions. For one thing, Ravan is Hindu, while Eddie is Catholic. For another, when Ravan was a baby and fell from a balcony, that fall had a dramatic, and very literal, impact on Eddie's family. But Ravan and Eddie both live in Central Works Department Chawl No. 17—and if you grow up in the crowded Mumbai chawls, you get to participate in your neighbors' lives, whether you like it or not. As we watch the two unlikely heroes of Kiran Nagarkar's acclaimed novel rocket out of the starting blocks of their lives, leaving earth-mothers and absentee fathers, cataclysms and rock 'n' roll in their wake, we're compelled to sit up and take notice. Recently selected by *The Guardian* as one of the ten best novels about Mumbai, *Ravan and Eddie* is a comic masterpiece about two larger- and truer-than-life characters and their bawdy, Rabelaisian adventures in postcolonial India. It is also a timeless journey of self-discovery, a quest for the meaning of guilt and responsibility, sin and sex, crime and punishment.

Mysteries of the Sacred Universe Richard L. Thompson, 2000-02-04 From the flat earth to the sun's chariot - traditional spiritual texts seem wedded to outmoded cosmologies that show, at best, the scientific limitations of their authors. The Bhagavata Purana, one of the classical scriptures of Hinduism, seems, at first glance, to be no exception. However, a closer examination of this text reveals unexpected depths of knowledge in ancient cosmology. *Mysteries of the Sacred Universe* shows that the cosmology of the Bhagavata Purana is a sophisticated system, with multiple levels of meaning that encode at least four different astronomical, geographical, and spiritual world models. By viewing the text in the light of modern astronomy, Richard Thompson shows how ancient scientists expressed exact knowledge in apparently mythological terms. Comparison with the ancient traditions of Egypt and the Near East shows early cultural connections between India and these regions - including a surprisingly advanced science. However, quantitative science is only part of the picture. *Mysteries of the Sacred Universe* also offers a clear understanding of how the spiritual dimension was integrated into ancient Indian cosmology.
