Echoes from the Valley Vinay Capila,2014-04 Three friends, fresh out of school in Srinagar, decide to go for a trek into the mountains. On their journey they hear whispers about armed strangers sneaking through the mountain passes into the Kashmir valley. Little do they know that the whispers will soon convert into roars that will engulf their lives: for these are the strands of the elaborate web of intrigue being woven across the border. All too soon tremours are felt in their homes and it becomes clear that a plot is afoot for the ethnic cleansing of the valley by the invading terrorists and their local supporters. the ultimate exodus of the minority communities leaves a bitter taste of guilt and impotence among those of the majority community who have watched it all happen helplessly. ...till one family decides that they will not watch with apathy while their lives are dictated by alien forces. They begin a campaign to try and convert the silent majority into a dynamic force that will restore the intrinsic culture that has been the unique feature of their valley. Will they succeed? ...

The Good Glow Jon Dean,2020-05-28 We praise those people who do things for others. But the symbolic power of giving means individuals can take advantage of the glow of 'goodness' that charity provides. This book analyses the reality of how charity operates in the social world; how the personal benefits of giving and volunteering are vital for getting charitable acts to happen; how the altruism associated with gifts isn't always what it seems; how charity misbehaviour or bad management gets overlooked; and how charity symbols are weaponised against those who don't participate. Drawing on original data and a novel application of the sociology of Bourdieu, this book examines a wide range of examples from culture, politics and society to provide an entertaining critique of how contemporary charity works.
