Deus Est Caritas: The Voice of Gabriele Biondo on Personal Justification and Church Reform Vito Guida,2023-08-04 The book examines the life and the writings of Gabriele Biondo, a secular priest who lived in the little town of Modigliana between the second half of the fifteenth century and the first decades of the sixteenth century. Through a careful examination of his writings and the sources he used, this book allows the reader to obtain a more precise understanding of Biondo, his background, his life, his movements, the difficulties that he encountered (mainly with the ecclesiastical authorities and the other members of the clergy, but also with civic leaders), and the main events of his life. Additionally, Biondo was the leader of a minor following formed by nuns, secular women, and laymen. Therefore, this book illustrates Biondo’s pastoral activity, the ideas and principles that supported his actions, and the objectives he was pursuing. Given these various objectives, this book is of interest to those scholars and academics interested in the religious tensions that swept through Europe in the years immediately preceding the Protestant Reformation and who, consequently, seek to investigate Biondo’s personal and complex answer to these tensions.

Novel Aggregated Solutions for Robust Visual Tracking in Traffic Scenarios Tian, Wei,2019-05-21 This work proposes novel approaches for object tracking in challenging scenarios like severe occlusion, deteriorated vision and long range multi-object reidenti?cation. All these solutions are only based on image sequence captured by a monocular camera and do not require additional sensors. Experiments on standard benchmarks demonstrate an improved state-of-the-art performance of these approaches. Since all the presented approaches are smartly designed, they can run at a real-time speed.

The Life and Times of St. Anselm Martin Rule,2016-07-08 This is the first volume of a two-volume set.

The Ethics of Ectopic pregnancy Fr. Timothy L. Bouscaren,2016-01-26 Ost people can easily see why abortion is wrong. But the issue of abortion on medical grounds is more complex for many when doctors say that, if the baby is not destroyed, both mother and child will inevitably die. It is argued that between two evils, the lesser should be chosen. Father Bouscaren's classic work is devoted to the only case in which this conflict is at all likely: the case of ectopic pregnancy. With the skill of a gifted moralist who is also a persuasive debater, the author shows that, although the death of one person is evidently a lesser evil than the death of two, nonetheless the death of one person intended and produced directly by a violation of the moral law is not a lesser evil than the death of two from natural causes without any sin on the part of anyone. But he also opposes the simplistic view that would require every ectopic pregnancy to be left to its fatal conclusion. He explains which procedures are morally acceptable and medically useful.

The thesis in its present form is offered to priests and to the administrative heads of Catholic hospitals in the hope tha tthey may find it in some practical aid toward the solutopn of a difficult and disputed moral question. It is also respectfully offered to the members of the medical profession generally, including those who are not of the Catholic faith, with the hope that they will give careful consideration to this solution of one of the ethical problems ocuring in their professional practice, in the light of unchangeable moral principles.
