A Breed Apart Johan Raath, 2022-08-17 Over the years, many have signed up for the South African Special Forces selection course but only a select few have ever passed. The gruelling course pushes recruits to their physical and mental limits. Those who make it through selection still have to complete a demanding year-long training cycle before they can join the ranks of this elite

unit. In *A Breed Apart*, former Special Forces operator Johan Raath offers a rare insider's view on the training he and other young soldiers received in the mid-1980s. Drawing on the reminiscences of his fellow Recces, he describes the phases of selection and training, and offers valuable insights into what makes a successful operator. The courses in the training cycle show the range and standard of Special Forces training, including weapons handling, bushcraft/survival, parachuting, demolitions and urban warfare, as well as seaborne and riverine operations. For Raath and his cycle buddies, the training cycle culminated in an operation in southern Angola where the young Recces saw action for the first time. Much of what Raath underwent still forms part of present-day Special Forces training. Comprehensive and revealing, this book shows why these soldiers truly are a breed apart.

The Legacy of Heroes: A Fantasy Role-Playing Game; Game Master's Guide Vincent Venturella,

Coalition Armor vs Iraqi Forces Chris McNab, 2024-01-18
An illustrated study of how coalition armor in Iraq in 2003-06 handled a unique multi-threat environment, from enemy armor to IEDs. On 20 March 2003, Coalition forces launched the invasion of Iraq on a massive scale. Their armored fighting vehicles (AFVs) faced an uncertain level of resistance, and soon had to overcome a wide range of enemy threats. These included tank vs tank clashes during the first days of the invasion (most famously at Basra and Mahmoudiyah), and subsequently the dangers posed by enemy rocket-propelled grenades, cannon fire, antitank guided missiles, and improvised explosive devices. This vital new study covers both the opening clashes between opposing AVFs and the tactics developed by Iraqi insurgents seeking to neutralize Coalition superiority. Featuring full color photos, battle scenes, weaponry, and tactical illustrations, it draws upon first-hand accounts and official post-battle analyses to examine how Coalition forces responded to the change in the nature of the

threats. Among the topics addressed are the coordination between Coalition infantry and air power; how dealing with roadside bombs in Iraq resulted in changes to equipment, tactics, and force structure; and the lessons learned for future warfare.

Arsenal Erik Kjerland, Perpetrated Press, 2002-10 A compendium of magical firearms, explosives, and armor for your d20 campaign.

Beatriz Allende Tanya Harmer, 2020-03-11 This biography of Beatriz Allende (1942-1977)—revolutionary doctor and daughter of Chile's socialist president, Salvador Allende—portrays what it means to live, love, and fight for change. Inspired by the Cuban

Revolution, Beatriz and her generation drove political campaigns, university reform, public health programs, internationalist guerrilla insurgencies, and government strategies. Centering Beatriz's life within the global contours of the Cold War era, Tanya Harmer exposes the promises and paradoxes of the revolutionary wave that swept through Latin America in the long 1960s. Drawing on exclusive access to Beatriz's private papers, as well as firsthand interviews, Harmer connects the private and political as she reveals the human dimensions of radical upheaval. Exiled to Havana after Chile's right-wing military coup, Beatriz worked tirelessly to oppose dictatorship back home. Harmer's interviews make vivid the terrible consequences of the coup for the Chilean Left, the realities of everyday life in Havana, and the unceasing demands of solidarity work that drained Beatriz and her generation of the dreams they once had. Her story demolishes the myth that women were simply extras in the story of Latin America's Left and brings home the immense cost of a revolutionary moment's demise.

Culture Is Not Always Popular Michael Bierut, Jessica Helfand, 2019-01-01 A collection of writing about design from the influential, eclectic, and adventurous Design Observer. Founded in 2003, Design Observer inscribes its mission on its homepage: Writings about Design and Culture. Since its inception, the site has consistently embraced a broader, more interdisciplinary, and circumspect view of design's value in the world—one not limited by materialism, trends, or the slipperiness of style. Dedicated to the pursuit of originality, imagination, and close cultural analysis, Design Observer quickly became a lively forum for readers in the international design community. Fifteen years, 6,700 articles, 900 authors, and nearly 30,000 comments later, this book is a combination primer, celebration, survey, and salute to a certain moment in online culture. This collection includes reassessments that sharpen the lens or dislocate it; investigations into the power of design idioms; off-topic gems; discussions of design ethics; and

experimental writing, new voices, hybrid observations, and other idiosyncratic texts. Since its founding, Design Observer has hosted conferences, launched a publishing imprint, hosted three podcasts, and attracted more than a million followers on social media. All of these enterprises are rooted in the original mission to engage a broader community by sharing ideas on ways that design shapes—and is shaped by—our lives. Contributors include Sean Adams, Allison Arieff, Ashleigh Axios, Eric Baker, Rachel Berger, Andrew Blauvelt, Liz Brown, John Cantwell, Mark Dery, Michael Erard, Stephen Eskilson, Bryan Finoki, Kenneth FitzGerald, John Foster, Steven Heller, Karrie Jacobs, Meena Kadri, Mark Lamster, Alexandra Lange, Francisco Laranjo, Adam Harrison Levy, Mimi Lipson, KT Meaney, Thomas de Monchaux, Randy Nakamura, Phil Patton, Maria Popova, Rick Poynor, Louise Sandhaus, Dmitri Siegel, Martha Scotford, Adrian Shaughnessy, Andrew Shea, John Thackara, Dori Tunstall, Alice Twemlow, Tom Vanderbilt, Véronique Vienne, Alissa Walker, Rob Walker, Lorraine Wild, Timothy Young

Infantry, 1970

The Rocket Propelled Grenade Gordon L. Rottman, 2011-03-15

A comprehensive illustrated study of the RPG The RPG-series of weapons is the most widely used family of lightweight antitank weapons in the world today. RPGs have been used not only against their intended targets, but against personnel, fortifications, buildings, soft-skin vehicles, watercraft, and aircraft. Lightweight, relatively compact, easy to operate and maintain, they meet most of the requirements of any armed group. Like any weapon system, RPGs and their ammunition have their limitations. While these limitations are much touted by proponents of more advanced weapons, they lose sight of many armed groups' requirement for lightweight, compact, inexpensive, easy to operate and maintain weapons. Most sophisticated weapons tend to be just the opposite - heavy, cumbersome, excessively expensive, and requiring extensive training and an advanced support infrastructure. They are also more difficult to obtain due to export controls and restrictions. To be effective, an army actually needs a mix of both sophisticated and uncomplicated weapons. Gordon Rottman provides a detailed analysis, accompanied by photographs and full colour artwork, of perhaps one of the most important weapons to be developed in the 20th century.
