Mohan Rakesh Aur Unke Natak Girish Rastogi,2008-09-01

Another Life Mohana Rākeśa,2018-03-08 Mohan Rakesh was a towering figure in Hindi fiction and drama. More than a decade in the making, and put together in collaboration with the author, this volume makes a broad range of his work available to English readers. The stories here range from humorous, satirical studies of human foibles, to profound, painful commentaries on the complexities of the human condition. A translation of Adhe Adhure, the play that thrust Indian drama into modernity and one of the finest ever written in Hindi, is included as well. Rounding out the book, as part of the 'P.S. Section', are a self-portrait and interview - rare, first-person statements by the author, and among the most important critical sources for his work. This is an essential volume for anyone interested in the changing landscape of post-Independence Hindi literature.

Truth Prevails Rakesh Kiron,2017-07-13 'Successful entrepreneur Ashok Raj commits suicide', read the headlines of newspaper articles. He was found hanging from a ceiling fan. James Antony, a retired police officer remembers solving the case in the 1980s. It turned out be one of the most interesting days of his life when he received a phone call reporting the suicide. But things change within minutes of him reaching the crime scene-evidence revealed it was not a suicide but a cold blooded murder. Who was responsible for it? Umpteen clues and a trail of mystery shroud the truth. But will James find out who the killers really are before time runs out and innocent lives are sacrificed?

Let Me Say it Now Rakesh Maria,2020

The Stranger in the Mirror Rakeysh Omprakash Mehra,2021-08-05 The Stranger in the Mirror is the memoir of the legendary producer-director, Rakeysh Omprakash Mehra. Co-written by noted marketer-author, Reeta Ramamurthy Gupta, this book chronicles the richly experiential, multi-faceted life of one of India's most celebrated and feted directors who has made critically acclaimed films like Rang De Basanti, Delhi-6 and Bhaag Milkha Bhaag. Though it may seem natural for an autobiography to have a primary narrator, what makes this book truly unique is its many narrators. It is this multi-dimensional, multi-character narration that will enable readers to delve deep and truly understand what it means to be as unselfish as Mehra, a man who gleefully steps back and lets the experts do their job. Peppered with anecdotes from Mehra's life-from the chai-biscuit college days to the popping of the proverbial champagne-it implores readers to pay attention to understand who is narrating, because the plot may have just shifted a little bit, just like his movies. At the end, what really stands out is how effortless the journey has actually been. And herein lies the greatest paradox because there is no lack of perseverance in this journey. The miraculous manner in which things fall into place naturally, like pieces of a pre-ordained puzzle with the universe acting as the 'sutradhar', is the fulcrum around which the joy of this remarkable journey is built.

Plant Growth Promoting Microorganisms of Arid Region Ritu Mawar,R Z Sayyed,Sushil K Sharma,Krishna Sundari Sattiraju,2023-03-01 This edited book aims to focus on microbial diversity in arid lands and deserts versus specific microbial assemblages associated with plants. The book explains ecological drivers that shape this diversity, how plant-associated microbiomes are selected, and their biotechnological potential are discussed. Diversity and functional redundancy of these associated PGPM make them very active in supporting plant improvement, health and resistance to drought, salt and other stresses, and these dimensions will be explored in this book. Implementing proper biotechnological applications of the arid and desert-adapted PGPM constitutes a sizeable challenge, and the book attempts to take up that challenge and help researchers in this field to gain a detailed understanding of PGPM from arid ecosystems. This book serves as a handbook for research workers, teachers, postgraduate students and extension personnel, other development workers, and policy planners engaged in arid zone development.

Ramleela Rakesh,

Mud and Water Bassui Tokusho,2013-02-08 The fourteenth-century Zen master Bassui was recognized as one of the most important Zen teachers of his time. Accessible and eloquent, these teachings cut to the heart of the great matter of Zen, pointing directly to the importance of seeing our own original nature and recognizing it as Buddhahood itself. Bassui is taking familiar concepts in Buddhism and recasting them in an essential Zen light. Though he lived centuries ago in a culture vastly different from our own, Zen Master Bassui speaks with a voice that spans time and space to address our own modern challenges - in our lives and spiritual practice. Like the revered Master Dogen several generations before him, Bassui was dissatisfied with what passed for Zen training, and taught a radically reenergized form of Zen, emphasizing deep and direct penetration into one's own true nature. And also like Dogen, Bassui uses powerful and often poetic language to take familiar Buddhist concepts recast them in a radically non-dual Zen light, making ancient doctrines vividly relevant. This edition of Mud and Water contains several teachings never before translated.

Clusterbean: Physiology, Genetics and Cultivation Rakesh Pathak,2015-10-29 This book provides in-depth information on clusterbean, its cultivation, genetic improvement, plant protection measures, management of abiotic stresses, molecular aspects etc. It is divided into seven chapters including an introduction to the crop, prospects, constraints, genetic improvement, variability, application of clusterbean gum and its byproducts, cultivation, plant protection, physiological and abiotic stress aspects, along with related genetic markers and biotechnological advances. Clusterbean (*Cyamopsis tetragonoloba* (L.) Taub.), commonly known as ‘guar,’ is an important leguminous crop grown for seed, green fodder, vegetable and green manuring in arid and semi-arid regions and has a special commercial role due to the gum content in its seeds. India’s arid environment provides ideal agro-climatic conditions for the successful cultivation of clusterbean, as the plant needs little surface water, long-duration sunshine and low relative humidity during the cropping season. India accounts for nearly 82 percent of global clusterbean seed production, making it an important export product. Based on essential industry and market data, the book offers a comprehensive overview of this unique crop, and will be of interest to researchers active in the field of clusterbean breeding.
