Cyber Security in India Sandeep Kumar Shukla,Manindra Agrawal,2020-03-17 This book of 'directions' focuses on cyber security research, education and training in India, and work in this domain within the Indian Institute of Technology Kanpur. IIT Kanpur's Computer Science and Engineering Department established an 'Interdisciplinary Center for Cyber Security and Cyber Defense of Critical Infrastructures (C3I Center)' in 2016 with funding from the Science and Engineering Research Board (SERB), and other funding agencies. The work at the center focuses on smart grid security, manufacturing and other industrial control system security; network, web and data security; cryptography, and penetration techniques. The founders are involved with various Indian government agencies including the Reserve Bank of India, National Critical Information Infrastructure Protection Center, UIDAI, CCTNS under home ministry, Ministry of IT and Electronics, and Department of Science & Technology. The center also testifies to the parliamentary standing committee on cyber security, and has been working with the National Cyber Security Coordinator's office in India. Providing glimpses of the work done at IIT Kanpur, and including perspectives from other Indian institutes where work on cyber security is starting to take shape, the book is a valuable resource for researchers and professionals, as well as educationists and policymakers.

Business Method Patents Gregory A. Stobbs,2011-10-25 In a landmark decision, the Federal Circuit Court of Appeals in Signature Financial v. State Street Bank held that business methods may be patented. Recently, the US Supreme Court in Bilski v. Kappos left the door open for the availability of patents for business methods. These holdings, together with the explosive growth of electronic commerce and technology, make the business method patent an important growth area of intellectual property. Now in a revised Looseleaf format, this completely updated Second Edition of Business Method Patents is your guide to the unique opportunities and risks in this emerging area of intellectual property law. Business Method Patents, Second Edition is your authoritative source for expert guidance on: The landmark Supreme Court decision in Bilski v. Kappos USPTO view on business method patents, including an overview of BPAI rulings Mechanics of the patent application Prior art searches Drafting claims for business method or model and e-commerce inventions Drafting the complete specification Drawings required for business method patents Building a strategic patent portfolio Litigating business method patents International protection for business methods
