Flicker Theodore Roszak,2005 From the golden age of art movies and underground cinema to X-rated porn, splatter films, and midnight movies, this breathtaking thriller is a tour de force of cinematic fact and fantasy, full of metaphysical mysteries that will haunt the dreams of every moviegoer. Jonathan Gates could not have anticipated that his student studies would lead him to uncover the secret history of the movies--a tale of intrigue, deception, and death that stretches back to the 14th century. But he succumbs to what will be a lifelong obsession with the mysterious Max Castle, a nearly forgotten genius of the silent screen who later became the greatest director of horror films, only to vanish in the 1940s, at the height of his talent. Now, 20 years later, as Jonathan seeks the truth behind Castle's disappearance, the innocent entertainments of his youth--the sexy sirens, the screwball comedies, the high romance--take on a sinister appearance. His tortured quest takes him from Hollywood's Poverty Row into the shadowy lore of ancient religious heresies. He encounters a cast of exotic characters, including Orson Welles and John Huston, who teach him that there's more to film than meets the eye, and journeys through the dark side of nostalgia, where the Three Stooges and Shirley Temple join company with an alien god whose purposes are anything but entertainment.

My Cleaner Maggie Gee,2012-05-28 Ugandan Mary Tendo worked for many years in the white middle-class Henman household in London, cleaning for Vanessa and looking after her only child, Justin. More than ten years after Mary has left, Justin - now twenty-two - is too depressed to get out of bed. To his mother's surprise, he asks for Mary. When Mary responds to Vanessa's cry for help and returns from Uganda to look after Justin, the balance of power in the house shifts dramatically. Both women's lives change irrevocably as tensions build towards a climax on a snowbound motorway. 'Beautifully observed, intelligent and moving ... a carefully wrapped surprise that gets better and better with the unravelling.' The Scotsman 'A moving, funny, engrossing book.' The Observer 'Gee satirises the liberal conscience of the chattering classes with uncomfortable perception in this hugely enjoyable novel ... her portrayal of Britain's new underclass of immigrant workers is presented with her trademark stinging clarity.' Metro 'Maggie Gee is a superb and pitiless analyser of middleclass angst. Elegant, humorous and surprising, this is a classy performance.' The Times 'It's amazing how many details, characters, stories within stories, Maggie Gee's unquenchable exuberance crams into this comparatively short book.' The Spectator An intelligent and satisfying read.' The Sunday Times 'A masterful study in Africa/UK relations which manages to be supremely uncomfortable without being cynical, and clever without being calculating.' Big Issue 'The Flood was chillingly predictive. My Cleaner is a calmer, happier novel. Yet a gnawing tragedy lies in the shadows, all the more poignant for the deftness with which it's brushed aside.' The Independent

The Stone Gods Jeanette Winterson,2009-05-06 The Whitbread Prize-winning author of Oranges Are Not the Only Fruit delivers a novel that “transports us to something like the future of our own planet” (The Washington Post Book World). On the airwaves, all the talk is of the new blue planet—pristine and habitable, like our own was sixty-five million years ago, before we took it to the edge of destruction. Off the air, Billie Crusoe and the renegade Robo sapien Spike are falling in love. Along with Captain Handsome and Pink, they’re assigned to colonize the new blue planet. But when a technical maneuver intended to make it inhabitable backfires, Billie and Spike’s flight to the future becomes a surprising return to the distant past—“Everything is imprinted forever with what it once was.” What will happen when their story combines with the world’s story? Will they—and we—ever find a safe landing place? Playful, passionate, polemical, and frequently very funny, The Stone Gods will change forever the stories we tell about the earth, about love, and about stories themselves. “Scary, beautiful, witty and wistful by turns, dipping into the known past as it explores potential futures.” —The New York Times Book Review “[A book] that you don’t so much read as drink in, refuse to put down, cast inside of like a hunting dog, seeking against all odds the insight that will illuminate everything, a true answer to the fix we’re in.” —Los Angeles Times “A vivid, cautionary tale—or, more precisely, a keen lament for our irremediably incautious species.” —Ursula K. Le Guin, bestselling author of Changing Planes

Maggie Gee: Writing the Condition-of-England Novel Mine Özyurt Kiliç,2013-03-14 The first female Chair of the Royal Society of Literature and translated into thirteen languages, Maggie Gee is writing the Victorian condition-of-England novel for 21st-century Britain. In the first critical study of Gee's work, Mine Özyurt Kiliç identifies the specific social problems her novels address and explains the social consciousness similarities Gee shares with the Victorians. Analyzing how Gee adjusts the condition-of-England novel to reflect contemporary Britain enables Özyurt Kiliç to reveal the accuracy of Gee's rich portraits of Britain. She focuses on Gee's ability to cut across the boundaries of race, class and gender, mix voices from the margin with the majority and challenge and change the idea of the mainstream. As an active, self-conscious and critical participant in the literary world, Gee paints a panoramic view of society. Her critiques of class, race and the world of publishing, allow Özyurt Kiliç to cover a wide range of topics and detail how English fiction shapes and influences, and is shaped and influenced by, the contemporary literary market.

Trading Women, Traded Women Gönül Bakay,Mihaela Mudure,2017 For the scholarly reader it is a truism that trade, in its widest sense (exchange, interchange, deal) is the basis of human society, it is part of the human interaction which is the very texture of society. The French anthropologist Claude Lévi-Strauss demonstrated in his seminal essay «The Elementary Structures of Kinship» that human society relies on the exchange of women by men. But women are not only the passive object of this trade among men. They also try and often succeed in trading goods, ideas, and changing their subject position by getting the upper hand in this crucial exchange. Little attention has been given to genderizing the connection between trade and the British Enlightenment and to its subsequent influence on women's history and/or literary or visual representations of women by women or men. The contributors in this collection focus on women as physical or symbolic traded objects, as subversive women trading in spite of cultural and social stereotypes, and as women empowered in the cultural, political, and social trade.

Britain in the Hanoverian Age, 1714-1837 Gerald Newman,Leslie Ellen Brown,1997 In 1714, king George I ushered in a remarkable 123-year period of energy that changed the face of Britain and ultimately had a profound effect on the modern era. The pioneers of modern capitalism, industry, democracy, literature, and even architecture flourished during this time and their innovations and influence spread throughout the British empire, including the United States. Now this rich cultural period in Britain is effectively surveyed and summarized for quick reference in a first-of-its-kind encyclopedia, which contains entries by British, Canadian, American, and Australian scholars specializing in everything from finance and the fine arts to politics and patent law. More than 380 illustrations, mostly rare engravings, enhance the coverage, which runs the whole gamut of political, economic, literary, intellectual, artistic, commercial, and social life, and spotlights some 600 prominent individuals and families.

Blonde Roots Bernardine Evaristo,2009 In an alternate world in which Africans enslaved Europeans, Doris, an Englishwoman, is captured and taken to the New World, where the hardships she endures as a slave are offset by dreams of escape and home.

Cathars Sean Martin,2012-02-03 Catharism was the most successful heresy of the Middle Ages. Flourishing principally in the Languedoc and Italy, the Cathars taught that the world is evil and must be transcended through a simple life of prayer, work, fasting, and non-violence. They believed themselves to be the heirs of the true heritage of Christianity going back to apostolic times, and completely rejected the Catholic Church and all its trappings, regarding it as the Church of Satan. Cathar services and ceremonies, by contrast, were held in fields, barns, and in people's homes. Finding support from the nobility in the fractious political situation in southern France, the Cathars also found widespread popularity among peasants and artisans. And, unlike the Church, the Cathars respected women; they played a major role in the movement. Alarmed at the success of Catharism, the Church founded the Inquisition and launched the Albigensian Crusade to exterminate the heresy. While previous Crusades had been directed against Muslims in the Middle East, the Albigensian Crusade was the first Crusade to be directed against fellow Christians, and was also the first European genocide. With the fall of the Cathar fortress of Montségur in 1244, Catharism was largely obliterated, although the faith survived into the early fourteenth century. Today, the mystique surrounding the Cathars is as strong as ever, and Sean Martin recounts their story and the myths associated with them in this lively and gripping book.

The Cult of Information Theodore Roszak,1986 When the word 'computer' entered the general vocabulary in the 1950s, the most advanced example filled a reasonable sized room. Three decades of rapid technological revolution have resulted in the acceptance of computers in nearly every office, school and home. A corresponding dramatic rise in the status of 'information' has promoted the people who manipulate it from the status of office clerks to information scientists. Despite the wonderful claims for the abilities of the computer and the hallowed tones of 'computerese', Theodore Roszak dares to suggest that perhaps, like the unfortunate emperor, the computer has been overdressed with false claims made by those with something to gain by it - elements in our society that are making some of the most morally questionable uses of computer power. Roszak challenges the reader to ask: Is our capacity to think creatively being undermined by the very 'information' that is supposed to help us? Is information processing being confused with science or even beginning to replace thought? And are we in danger of blurring the distinction between what machines do when they process information and what minds do when they think? He explains why humankind's primary beliefs, in equality, justice and in God are not computable; why great scientific theories and fundamental 'master ideas' cannot be developed by computers; and why bad ideas cannot even be refuted by them. Roszak is no contemporary Luddite - this book was written on a word processor - but he is deeply concerned that we have all been sold a misleading and potentially harmful vision of the computerised society.

Melville's "Benito Cereno" William Donald Richardson,1987

Montségur and the Mystery of the Cathars Jean Markale,2003-09-02 The history and philosophy of the mysterious Cathar religion and its lost treasure • Demonstrates that Catharism is not simply a heretical Christian cult as it is often portrayed • Examines the evidence for the existence of a lost Cathar treasure and its possible connection to the Holy Grail On March 16, 1244, over 200 Cathars were captured in their fortress stronghold of Montségur and were burned alive by troops of the Inquisition. While some Cathar enclaves survived into the next century, this was the death blow to a religion that had been a powerful symbol of Occitain sovereignty against the designs of the French monarchy and the papacy. History has recorded that four high-ranking Cathar perfecti carried a great treasure out of Montségur the night before its fall, a fact that led rebel Huguenots of the 17th century and members of Hitler's S.S. to believe that an enormous treasure or weapon of awesome spiritual power lay hidden somewhere nearby the ruins of the former Cathar stronghold. Seeking to untangle the true from the false, Celtic and medieval scholar Jean Markale meticulously searches through the obscure history of the Cathars, tracing their roots back to the ancient Zoroastrian religion of Persia. He examines what earned the Cathars--who practiced vegetarianism, non-violence, and tolerance--the ruthless persecution of both the Church and the state. He explores their doctrine, their place in medieval Occitain culture, and their secret pact with the Knights Templar. Most important, he uses all available documentation to reveal the nature of the treasure the Cathars spirited away from their fortress at Montségur the night before its surrender to French troops.
