Drawing and Painting in the Italian Renaissance Workshop Carmen Bambach,1999 In *Drawing and Painting in the Italian Renaissance Workshop*, Carmen Bambach reassesses the role of artists and their assistants in the creation of monumental painting. Analyzing representative wall paintings and the many drawings related to the various stages of their production, Bambach convincingly reconstructs the development of workshop practice and design theory in the early modern period. Her exhaustive analysis of archaeological and textual evidence provides a timely and much-needed reassessment of the

working methods of artists in one of the most vital periods in the history of art.
