You're definitely witnessing the soaring popularity of both Resell Rights and Private Label products in the online marketing scene today. And the reason they're popular is because of one very important benefit among many others: they're HUGE time-savers. By this, it often means you get to skip the long, arduous product development process. Many sophisticated marketers often offer their products as turnkey as possible today - and this can include providing graphics, sales letters, mini sites, thank you pages, etc. And in some marketing circles, some product authors even go as far as to provide a crash course guide to setting up your re-seller site for sale. All in all, the idea behind providing Resell Rights or Private Label Rights to Info Products is so that the re-seller (that's you) can conveniently skip the product development process, short cutting one gigantic step toward your profits. Right??? Now, It's Time For Me To Reveal To You The Biggest Lie... Look, if you believe that buying these products with Resell Rights and Private Label Rights are going to make you rich without doing a lick of work, then you've been outright suckered or blatantly lied to. Whoever sold you those products possibly could have lied to you on that fact... or it could be that due to your 'plain old just wanting to be rich so desperately' self-deception that you've created for yourself. I honestly don't know. But I do know one thing for sure: those products can't make money for you unless you know how to make them do so! I know this is not all music to your ears, but here's something else you need to know for real if you're serious enough about making room for improvement in your online marketing career... There Are Actually More Lousy Marketers Than Lousy Products! But if I ever have the time to rant, I'd often say: there are more lousy marketers than lousy products in the marketplace! Why? Simple. If you're a lousy marketer, you cannot turn the products you have in your hard drive into profits, no matter how good or high quality they are. And the result: those products become nothing more than accumulated digital dust in your hard drive. Likewise, this would be a piece of cake to a professional marketer regardless of how good or bad the products he or she has. Resale Rights - The Alternative Max Editorial, 2023-02-14 LIGHTNING PROMOTION "The Internet has emerged as one of the major ways in which one can make money easily. Though one must always beware of all the spurious sites that crop up from time to time, the Internet if used in a wise manner for earning money can actually prove to be quite an effective tool. This also involves the resale rights of product. This is nothing but a license over the product that you have bought. This license allows you to modify and improvise the product in any way you want to. Ordinarily, if you want to sell a product you will have to place the description and picture of your product and create a good and impressive sale page for it. However with products that have resale rights, you need not do this. You merely have to buy the product with its resale rights and then place it on your website. You can do this in either of the two ways mentioned below: 1. Purchasing the products as well as the resale rights completely so that you can get total portion of your profit share to yourself 2. Selling the rights that you have just purchased to someone else who in turn can resell that product

Pedagogies of With-ness Linda Hogg, Kevin Stockbridge, Charlotte Achieng-Evensen, Suzanne SooHoo, 2020-10-13 Across the globe, students are speaking up, walking out, and marching for social and ecological justice. Despite deficit discourses about students, youth are using their voice and agency to call forth a better world. Will educators respond to this call to stand with students in relational solidarity as co-constructors of a new tomorrow? What is possible when teachers and students engage together in new ways? Pedagogies of With-ness: Students, Teachers, Voice and Agency offers insight into the transformative possibilities of education when enacted as the art of being with. Driven by student voices and their experiences of marginalization, this text takes a clear ethical stance. It asserts that students are both capable and competent. Taking a narrative approach, this book honors academic work that is rooted in educational practice. Expanding beyond traditional conceptions of student voice, chapters engage in meditations on three themes: identity, pedagogy, and partnership. This book is an exploration of with-ness, a way of knowing, being, and acting. By centralizing the all-too-often suppressed wisdom of youth, teachers and researchers engage in new forms of critique and possibility-making with students. Editors reflect on this central theme, exploring the dimensions of such pedagogies of with-ness. Through this book, teachers are invited to imagine pedagogy under this new framework, actively committed to students, their voice, and mutual engagement.
