Virtuous Women In Mythology and Holy Books Dr.

Mona Borhan Ghazal (AlRefai),2013-03-29 I willingly present this book to every person capable of understanding the divine words sent to people, especially the groups of grown up men and women who are eager for gaining deeply-rooted knowledge. Those targeted people are the ones who have reached the age of twenty-five and more. Those are the people who seek the bases of knowledge that through its flashlights leads to enlightening the value of freeing the soul of humanity through validity and sincerity of worship. This is to promote the value of humanity by its creator in the three holy books which are Koran, Torah and the Bible. They also highlight the value of woman by what is mentioned about her in the holy verses of God, the glory, in the Koran, and the other holy books including the Bible, and the Torah. I present this with hard evidences that witness God's veneration for women so that we will succeed in facing the tyranny of the cultural slavery and in freeing women from the materialistic human slavery.

Sufis and Salafis in the Contemporary Age Lloyd Ridgeon,2015-04-23 Sufis and Salafis in the Contemporary Age explores the dynamics at play between what are usually understood as two very different forms of Islam, namely Sufism and Salafism. Sufism is commonly understood as the peaceful and mystical dimension of Islam whereas Salafism is perceived as strictly pietistic and moralist, and for some it conjures up images of violent manifestations of Islam. Of course these generalisations require more nuanced investigation, and this book provides a number of case studies from around the Islamic world to unpack the intricate relationship between the two. The diversity of the case studies that focus on Islamic groups in India, Iraq, Egypt, Morocco, Turkey and South East Europe

reflect the multiplicity of relationships that exist between the Salafis and Sufis. The specific case studies are framed by an introduction that provides essential historical background and definitions of the terms, and also by general studies of the Sufi-Salafi relationship which enable the reader to focus on the large picture. This will be the first book to investigate the relationship between Sufism and Salafism in such a wide fashion, and includes chapters on traditional Sufis, as well as from those who consider that Sufism and Salafism are not necessarily contradictory.

Rida Said Sabah Kabbani, 2021-06-05 Like many founding fathers, Rida Saïd (1876-1946) lived a cosmopolitan life before taking on his monumental contribution to building the modern nation of Syria. Born in Damascus in 1876, Said trained as a medical doctor in Istanbul and Paris. As a young man, he served as a field doctor with the Ottoman Empire's army in the Balkan Wars, but he soon became disillusioned about his homeland's foreign rulers. Like other Syrians, he was opposed to the aggressive Turkish nationalism that alienated Arabs and dreamed of a more inclusive system for his people. After his medical work in Damascus during World War I, and following the collapse of the Ottoman Empire, Said took on a critical role in establishing an independent Syria: he became a pioneering educator, advocating for the importance of providing institutions to educate the Arab people. He went on to become the first head of Damascus University, and then Minister of Education. He died in 1945, a few months before Syria finally achieved independence in 1946. Now available for the first time in English, *Rida Saïd: A Man for All Seasons* tells the story of this remarkable life at the heart of a nation in deep conflict. Indeed, Saïd's story resonates profoundly today as the Syrian people struggle for a future

of opportunity and respect.

Modernity in Islamic Tradition Florian

Zemmin, 2018-07-23 What does it mean to be modern? This study regards the concept of 'society' as foundational to modern self-understanding. Identifying Arabic conceptualizations of society in the journal al-Manar, the mouthpiece of Islamic reformism, the author shows how modernity was articulated from within an Islamic discursive tradition. The fact that the classical term umma was a principal term used to conceptualize modern society suggests the convergence of discursive traditions in modernity, rather than a mere diffusion of European concepts.

The Islamists M. Nafi, 2017-08-09

Today's Islamists are not a reproduction of an ancient legacy, but are modern political actors defined by modern discourses, argues Basheer Nafi in *The Islamists*. He examines the emergence and development of political Islam in the twentieth century and the beginning of the twenty-first century, discussing the historical context within which political Islam arose, and relating it to the social movements and political parties that lead the phenomenon today. On questions concerning the state, economics and law, the differences among Islamists are no less than their agreements. Nafi eases out some of these agreements and differences relating to governance, citizenship, pluralism, unity, revivalism, and truth. This very accessible work, intended for both an academic and general audience, highlights these matters by examining the groups and individuals that constitute the broad category of political Islam, considering how they have developed over time, and how they have impacted on the countries in which they operate.

Islamic Reform David Dean Commins,1990-04-12

Religious community and nation have long been the chief poles of political and cultural identity for peoples of the modern Middle East. This work explores how men in turn-of-the-century Damascus dealt, in word and deed, with the dilemmas of identity that arose from the Ottoman Empire's 19th-century reforms. Muslim religious scholars (ulama) who advocated a return to scripture as the basis of social and political order were the pivotal group. The reformers clashed with their fellow ulama who defended the integrity of prevailing religious practices and beliefs. In addition to two conflicting interpretations of Islam, Arabism comprised a new strand of thought represented by young men with secular educations advancing Arab interests in the Ottoman Empire. Religious reformers and Arabists shared a political agenda that shifted focus from constitutionalism before 1908 to administrative decentralization shortly thereafter. Using unpublished manuscripts and correspondence, inheritance documents, and Ottoman-era periodicals, this work weaves together social, political, and intellectual aspects of a local history that represents an instance of a fundamental issue in modern history.

Intellectuals in the Modern Islamic World

Stéphane A. Dudoignon, Hisao Komatsu, Yasushi Kosugi, 2006 Consisting of two parts the volume focuses first on al-Manar, the influential journal published between 1898 and 1935 and which inspired much imagination and arguments among local intelligentsias all over the Islamic world. The second part discusses the formation, transmission and transformation of learning and authority, from the Middle East to Central and Southeast Asia.

The Origins of Syrian Nationhood Adel

Beshara, 2012-04-27 The 'Syria idea' emerged in the nineteenth century as a concept of national awakening

superseding both Arab nationalism and separatist currents. Looking at nationalist movements, ideas and individuals, this book traces the origin and development of the idea of Syrian nationhood from the perspective of some of its leading pioneers. Providing a highly original comparative insight into the struggle for independence and sovereignty in post-1850 Syria, it addresses some of the most persistent questions about the development of this nationalism. Chapters by eminent scholars from within and outside of the region offer a comprehensive study of individual Syrian writers and activists caught in a whirlwind of uncertainty, competing ideologies, foreign interference, and political suppression. A valuable addition to the present scholarship on nationalism in the Middle East, this book will be of interest to many professionals as well as to scholars of history, Middle East studies and political science.

Rethinking Islamic Legal Modernism Ron Shaham, 2018-07-10 In *Rethinking Islamic Legal Modernism* Ron Shaham presents Yusuf al-Qaradawi (b. 1926) as a genuine student of Rashid Rida (d. 1935) and offers an extensive analysis of Qaradawi's Wasati theory of ijtiḥād and its application in his legal opinions (fatwas).

Islamic Exceptionalism Shadi Hamid, 2016-06-07 Subtitle in pre-publication: *How the struggle over Islam is* *Longing for the Lost Caliphate* Mona Hassan, 2018-08-14 In the United States and Europe, the word caliphate has conjured historically romantic and increasingly pernicious associations. Yet the caliphate's significance in Islamic history and Muslim culture remains poorly understood. This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries. Through extensive

primary-source research, Mona Hassan explores the rich constellation of interpretations created by religious scholars, historians, musicians, statesmen, poets, and intellectuals. Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate. She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory, revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage. Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture, law, and politics, similar to the losses and repercussions experienced by other religious communities, including the destruction of the Second Temple for Jews and the fall of Rome for Christians. A global history, *Longing for the Lost Caliphate* delves into why the caliphate has been so important to Muslims in vastly different eras and places.

The Shi'is of Jabal 'Amil and the New Lebanon T. Chalabi, 2006-02-06 Tamara Chalabi highlights the development of a 'politics of demand' and the increased political activism of this community in a time of great change. It also explores how Arab nationalism was transformed from an ideology of opposition and empowerment of marginal communities, into a tool for the assertion of political domination.

Peaceful Jihad Peter Enz-Harlass, 2022-10-06 Human rights abuses and violations in Saudi Arabia attract international condemnation. But within the country, an Islamic civil rights movement, 'HASM', has called for

change. While its members have received international human rights awards, the Saudi authorities have persecuted and imprisoned them. This book is the first to study human rights in the kingdom from the perspective of these prominent Saudi civil rights activists, uncovering the actual ideas that motivate their activism. Based on analysis of the group's texts, the book highlights that HASM neither supports an overthrow of the government, of which they are accused, nor are they "liberal" advocates of universal human rights. Their complex thought is a contribution to contemporary Islamic discourse because they make a case for 'peaceful civil jihad' through the protection of citizens' basic rights, but within a rigid, Salafist interpretation of social affairs that imposes heavy limits on politics, human rights and democracy. Furthermore, HASM's texts use war rhetoric and anti-Semitic language, with different arguments and words for domestic or international audiences. The most comprehensive text on this Islamic civil rights movement, the book employs detailed discourse analysis and includes sources from HASM texts in both Arabic and English.

Quar'anic Exegeses Gholamali Haddad

Adel, Mohammad Jafar Elmi, Hassan Taromi-Rad, 2012-08-31
Throughout Islamic history, Muslim exegetes of all ideological orientations have delved into the depths of the Qur'anic text to better understand the divine revelation. The present work describes the exegetical work of a variety of scholars from the Shi'i, Sunni, and Sufi traditions, spanning from the second Islamic century until the modern era. In addition to discussing well-known exegetes, such as Tabari, it also provides lesser-known details on early Shi'a exegetes, such as 'Ayyashi and 'Ali ibn Ibrahim al-Qummi. The exegesis attributed to Imam Ja'far al-Sadiq is also discussed. This book is part of a

series of translations from the Encyclopaedia of the World of Islam (EWI) which was originally compiled in Persian. Other entries from this encyclopaedia which are available in English include Hadith, Hawza-yi 'Ilmiyya, History and Historiography, Muslim Organisations, Political Parties, Sufism, and Education in the Islamic Civilisation.

The Muslim Brotherhood Circumstances Surrounding its Establishment Trends Research & Advisory, 2020-01-01

The Muslim Brotherhood is a phenomenon worthy of investigation given its geographical reach and the depth of its social and political influence, not only in the Arab and Muslim regions, but throughout the whole world. An analytical view of the historical circumstances surrounding the Group's emergence in Egypt is key to understanding the factors that have shaped its followers, its ideological vision and its tools of change. An examination of the social, economic and cultural environment which witnessed the inception of the Muslim Brotherhood is of special importance, as it allows us to envision the overall conditions that prevailed in Egypt at the time of the Group's founding. Such a study is an attempt not only to understand the events and developments that accompanied the emergence of the Muslim Brotherhood, but to identify the ways in which these developments have colored events of the recent past. The study highlights the intellectual origins of the Muslim Brotherhood as embodied in Sunni Orthodoxy, the ideology of the Khawarij, and pioneers of the Arab-Islamic Renaissance (Nahda), such as Jamal al-Din al-Afghani, Muhammad Abduh, Muhammad Rashid Rida, and Abul A'la Maududi, whose thought deeply impacted the formulation of the Brotherhood's ideas. The study also addresses the role played by figures such as Hasan al-Banna and Sayyid Qutb, who entrenched violence within the Group's rhetoric, worldview and actions. No less

importantly, the study addresses the theoretical foundations of the Brotherhood's thought and approach, which are highly generalized and ambiguous despite the Brotherhood's claim that they are authentic and deeply rooted in the Islamic legal and juristic tradition.

Sacred Landscape in Medieval Afghanistan Arezou Azad,2013-11 Afghanistan has played a crucial role in shaping the history of Islam. This book provides the first in-depth study of the sacred sites and landscape of medieval Balkh, in today's northern Afghanistan, in the five centuries from the Islamic conquests of the eighth century to the arrival of the Mongols in the thirteenth century.

Pan-arabism And Arab Nationalism Tawfic E Farah,2019-06-04 Now that the oil era has come to a very unceremonious end in the Arab Mashreq, it is time for a sober and somber assessment-a selfcriticism- of the Arab body politic. Indeed, this effort at self-criticism is already underway, led by the many symposiums sponsored by the Center for Arab Unity Studies and the Arab Intellectual Forum.
