The Rodale Herb Book: how to Use, Grow, and Buy Nature's Miracle Plants William H. Hylton, Nelson Coon, 1974 Explains how to grow, buy, and use herbs for medicinal use, cooking, scents, dyeing, landscaping, and other purposes.

Our Roots Grow Deep Daniel Gross, 2008 *Our Roots Grow Deep- The Story of Rodale* by Rodale, Inc. Hailed by some as a visionary and others as a quack, Jerome Irving Rodale and his wife, Anna, moved from New York City to the rural community of Emmaus, Pennsylvania, where they bought a farm and lived the life they had only dreamed about. J. I.'s interest in chemical free food and his own health led to the creation of Organic Farming and Gardening magazine in 1942, and in 1950, to Prevention magazine. After J. I. suffered a fatal heart attack on the Dick Cavett Show in 1971, his son, Robert, took over and incorporated organic gardening and farming and preventive health care into more far-reaching areas of organic living, active lifestyles, and regenerative agriculture. After Bob died tragically in 1990, Ardie, Bob's widow, and their family carried on the tradition. The company, still privately owned and run, brought the concepts of organic food, healthy active living, and environmental responsibility to the mainstream, and now reaches some 25 million customers through Prevention, Organic Gardening, Men's Health, Women's Health, Best Life, Bicycling, Mountain Bike, Runner's World, and Running Times magazines; best-selling books such as *An Inconvenient Truth*, *The South Beach Diet*, *The Doctors Book of Home Remedies*, and *Eat This, Not That!*; multimedia Web sites; and numerous philanthropic activities. In this gorgeous, full-color volume loaded with photos and memorabilia, the story of the modest beginnings of this fascinating family and their sixty-plus years of tireless work that now helps millions of people worldwide live a more whole life is now available for the first time.

The Complete Book of Composting Jerome Irving Rodale, 1960 Compost is the heart of the organic concept of gardening. This

book is a compilation of material, facts, features, experiences, research, letters, questions and answers about compost that have appeared in Organic Gardening and Farming magazine for eighteen years.

Organic Manifesto Maria Rodale, 2010-03-16 Rodale was founded on the belief that organic gardening is the key to better health both for us and for the planet, and never has this message been more urgent. Now, with Organic Manifesto, Maria Rodale, chairman of Rodale, sheds new light on the state of 21st century farming. She examines the unholy alliances that have formed between the chemical companies that produce fertilizer and genetically altered seeds, the agricultural educational system that is virtually subsidized by those same companies, and the government agencies in thrall to powerful lobbyists, all of which perpetuate dangerous farming practices and deliberate misconceptions about organic farming and foods. Interviews with government officials, doctors, scientists, and farmers from coast to coast bolster her position that chemical-free farming may be the single most effective tool we have to protect our environment and, even more important, our health.

The Purification Plan, 2005-01-01 The Purification Plan offer an exclusive 7-day program that is your passport to a less toxic lifestyle. The fact is, toxins are everywhere around you--in the air you breathe, the foods you eat, the personal-care products you use, even the mattress you sleep on. Though you may not be able to avoid all toxins, you can protect yourself from their harmful effects.

Rodale's Book of Hints, Tips & Everyday Wisdom Carol Hupping, Cheryl Winters Tetreau, Roger B. Yepsen, 1993

Organic Manifesto Maria Rodale, 2011-03-01 Drawing on findings from leading health researchers as well as conversations with both chemical and organic farmers from coast to coast, Maria Rodale's Organic Manifesto irrefutably outlines the unacceptably high cost of chemical farming on our health and our environment.

She traces the genesis of chemical farming and the rise of the immense companies that profit from it, bringing to light the government's role in allowing such practices to flourish. She further explains that modern organic farming would not only help reverse climate change by reducing harmful carbon emissions and soil depletion, but would also improve the quality of the food we eat, reduce diseases from asthma to cancer, and ensure a better quality of life in farming communities nationwide. For every parent wondering how best to safeguard the health and safety of her children; for every environmentalist in search of a solution to the worsening crisis that afflicts our land, air, and waters; for every shopper who questions whether it is worth it to pay more for organic, Maria Rodale offers straightforward answers and a single, definitive course of action: We must demand organic now.

Gifts of the Spirit, 1997-09-15 The Chairman of Rodale Press shares her simple yet perceptive observations on love and humanity, in a group of essays organized by theme and written to help women re-connect with their inner spirituality. 30,000 first printing.

The Soil and Health Albert Howard, 2020-03-22 This is a newly edited revision of Albert Howard's important text on organic farming and gardening, and the central role of humus in maintaining soil health and fertility. No single generation has the right to exhaust the soil from which humanity must draw its sustenance. Modern agricultural practices, with their emphasis on chemicals, poisons, and toxins, lead to the impoverishment and death of the soil. *THE SOIL AND HEALTH* is a detailed analysis of the vital role of humus and compost in soil health — and the importance of soil health to the health of crops and the humans who eat them. The author is keenly aware of the dead end which awaits humanity if we insist on growing our food using artificial fertilisers and poisons. Albert Howard (1873-1947) was one of the leaders of the British organics movement in the mid-twentieth century. He was the first westerner to document and publish

research on traditional techniques of agriculture, including Indian and Chinese farming and management of the soil. Agriculture is the fundamental industry of the world and must be allowed to occupy the primary position in the economies of all countries. — Albert Howard

Scratch Maria Rodale, 2016-10-11 Maria Rodale was raised on real food. She doesn't think of eating homemade, from-scratch meals as part of a trend or movement; it has always been her life. Raised in a family of farmers, bakers, chefs, gardeners, and publishers, Maria is used to growing, cooking, reading and writing about, and eating organic, delicious food. And now, for the first time ever, she's sharing her tried-and-true family recipes. *Scratch* is full of comfort food recipes that aren't focused on any one healthy trend, but are instead innately healthy, because Maria inspires you to return to your kitchen and cook with real, organic

food. Recipes like Pasta Fagirole, Maria's Fried Chicken, and Lamb & Barley Soup will be crowd pleasers for sure, but Maria throws in some unique-to-the-family recipes that are going to delight as well, such as her Pennsylvania Dutch Dandelion Salad with Bacon Dressing, Ardie's Pasties, and Homemade Hoppin' John (a black-eyed pea stew made with smoked turkey or ham). Besides sharing her family's favorite recipes, Maria's book also gives you a peek into her life as a Rodale, with personal family portraits and stories. With this cookbook, you can eat like the Rodale family every night of the week with delicious food to make at home, from scratch. Naturally healthy, bacon included.
