Voyages Nelson Madore,Barry H. Rodrigue,2007 Dozens of voices celebrate--in essays, stories, plays, poetry, songs, and art--the Franco-American and Acadian experience in Maine.

A Castle in the Clouds Barry H. Rodrigue,2014 The story of Tom Plant (1859-1941) gives us a gritty, real-life view of the American dream. Born into a poor French-Canadian family in Bath, Maine on the eve of the Civil War, he began his career as a boy laborer, cutting ice on the Kennebec River. Tom then became a union shoe maker in the shoe capital of the world, in Massachusetts, financing his first workshop with a baseball wager. He went on to pioneer new trends in American business and to build the world's largest shoe factory. An inventor, his name became front-page news in the New York Times during a fight with the most notorious monopoly in the United States. A celebrated outdoorsman, he laid out a vast estate on the shores of Lake Winnepesaukee, as well as a retirement home for workers in his hometown. An advocate of the progressive movement, Tom Plant spoke for a new, pragmatic America, one based on fairness in the workplace, conservation of nature, plural heritage, and global harmony. His denouement was as surprising as his triumph. -- Publisher's description.

El Conservador: Conservative Opinions George H. Rodriguez,2018-09-12 George H. Rodriguez has dedicated his life to sharing conservative values with fellow Hispanics and all-Americans. As a Ronald Reagan and George H. Bush appointee, he worked with the Department of Justice in community relations and immigration outreach, going on to work with the White House and on President Bush’s 1988 presidential campaign. In recent years, Rodriguez has served with the GOP and was one of the first Hispanics to be president of a major Tea Party group. Now in El Conservador: Conservative Opinions, George H. Rodriguez shares a hard-hitting collection of his political essays and commentaries. As a nationally known blogger and political commenter, George Rodriguez is a constitutional conservative Texan of Mexican descent, also known as a Tejano. His essays reflect his belief in personal freedom, and they support the idea that all Texans and Americans should live life as they wish, as long as it does not harm others or infringe on another person’s rights. With a commitment to conservative values—and, in some cases, with a little bit of a chile picoso attitude—Rodriguez focuses on critical political topics that all Americans should be informed about: from the basics of constitutional government, personal property ownership, and states’ rights to contemporary issues, like debt, immigration, and the so-called diversity. Because liberal misinformation and a growing government can be dangerous to the freedom and liberty of citizens, Rodriguez believes it is important to remember why America is the greatest nation on earth and protect its God-given destiny.

Evolution: A Big History Perspective Leonid E. Grinin,Andrey V. Korotayev,Barry H. Rodrigue,2011-09-29 This issue of the almanac aims at filling the gap in the mega-evolutionary research. The Editors believe that the present Almanac, which brings together scientists working in different areas of the vast evolutionary field, will hopefully make a contribution to this process.The contributions to this volume are subdivided into three sections:‘Universal Evolution’, ‘Biological and Social Forms of Evolution: Connections and Comparisons’, and ‘Aspects of Social Evolution’. Subjects and issues of the contributions to all three sections have a great deal in common and significantly supplement each other.

Cellulose Nanoparticles Vijay Kumar Thakur,Elisabete Frollini,Janet Scott,2021-07-01 Cellulose nanoparticles (CNP) are a class of bio-based nanoscale materials, which are of interest due to their unique structural features and properties such as biocompatibility, biodegradability, and renewability. They are promising candidates for applications including in biomedicine, pharmaceuticals, electronics, barrier films, nanocomposites, membranes, and supercapacitors. New resources, extraction procedures and treatments are currently under development to satisfy increasing demands for cost-effective and sustainable methods of manufacturing new types of cellulose nanoparticle-based materials on an industrial scale. Cellulose Nanoparticles: Chemistry and Fundamentals covers the synthesis, characterization and processing of cellulose nanomaterials. It aims to address the recent progress in the production methodologies for cellulose nanoparticles, covering principal cellulose resources and the main processes used for isolation. Chapters cover the preparation and characterisation of cellulose nanocrystals and nanofibrils. Together with Volume 2, these books form a useful reference work for graduate students and researchers in chemistry, materials science, nanoscience and green nanotechnology.

A Jewish Voice from Ottoman Salonica Aron Rodrigue,Sarah Abrevaya Stein,2012-01-11 This book presents for the first time the complete text of the earliest known Ladino-language memoir, transliterated from the original script, translated into English, and introduced and explicated by the editors. The memoirist, Sa'adi Besalel a-Levi (1820–1903), wrote about Ottoman Jews' daily life at a time when the finely wrought fabric of Ottoman society was just beginning to unravel. His vivid portrayal of life in Salonica, a major port in the Ottoman Levant with a majority Jewish population, thus provides a unique window into a way of life before it disappeared as a result of profound political and social changes and the World Wars. Sa'adi was a prominent journalist and publisher, one of the most significant creators of modern Sephardic print culture. He was also a rebel who accused the Jewish leadership of Salonica of being corrupt, abusive, and fanatical; that leadership, in turn, excommunicated him from the Jewish community. The experience of excommunication pervades Sa'adi's memoir, which documents a world that its author was himself actively involved in changing.

Louisiana: A History Joe Gray Taylor,1984-05-17 From the earliest colonists through the latest Mardi Gras, Louisiana has had a history as exotic as that of any state. Even its political corruption--extending from French governors for whom office was exploitable property through the Louisiana Hayride following the death of Huey Long--seems to have had a glamorous side. Handing the colony of Louisiana back and forth between their empires, the French and Spanish left a legacy that lives in such forms as the architecture of the Vieux Carre and a civil law deriving from the Napoleonic Code. Acadian refugees, German farmers, black slaves and free blacks, along with Italians, Irish, and the Kaintucks who helped Andrew Jackson win the Battle of New Orleans added to the state's distinctiveness. Made rich by sugar cane, cotton, and Mississippi River commerce before the Civil War, Louisiana faced poverty afterward. Battles between Bourbon Democrats and Reconstruction Republicans followed, ultimately involving the Custom House Ring and the Knights of the

White Camelia. By methods that remain controversial, Huey Long ended government by gentlemen with economic transformations other had sought. Gas, oil, and industrialization have additionally Americanized the state. Something of Louisiana's historic joie de vivre remains, however, to the gratification of residents and visitors alike; both will enjoy Joe Gray Taylor's telling of the story.
