Crewel Creatures H. Blomkamp,2018 Beautiful bird and animal designs, inspired by the African world, in crewel and Jacobean embroidery. Following the success of Crewel Intentions and Crewel Twists, which introduced embroiderers to using needle-lace and loom-weaving techniques, comes Crewel Creatures, the third title in this series by renowned embroiderer Hazel Blomkamp. Animals and birds are popular subjects in crewel embroidery, and here Hazel introduces needleworkers to the beautiful, exotic creatures found in the African wild. Following the Jacobean embroidery style for which Hazel is well known, and incorporating the subtle influence of the fractal designs found in zentangle art, Hazel brings beads and other three-dimensional elements into her designs, capturing the stunning and colourful art that is traditionally associated with Africa. Those new to Hazel's work will find a useful guide to the essential crewel stitches, needle-lace and needle-weaving techniques in an easy-to-follow how-to section and stitch gallery, and all embroiderers will be impressed by the wealth of design ideas and inspiration this book has to offer. With every project, step-by-step instructions and gorgeous photographs are included, along with a template of the design. All the projects are stitched and embellished on natural coloured linen, making them not only perfect for framing for display but also wonderfully economical for embroiderers to work on.

Fried Potatoes, Mustard Greens, Fat Back, Soup Beans, and Cornbread. . . Louis E. Adams,2004-01-05 ". . . Retracing the Vanishing Footprints of Our Appalachian Ancestors" represents a genealogical history of thirteen major pioneer families who settled in eastern Kentucky during the 18th and 19th Centuries. The surnames include Adams, Berry, Brooks, Brown, Burton, Castle, Chaffin, Daniel, Large, Thompson, Ward, Wellman, and Young. To fully appreciate their social and economic hardships and challenges requires the reader to visualize what life was like on the early frontier. After the American Revolution and the Civil War, many of these early pioneers traveled from North Carolina and Virginia into the sheltering hills of eastern Kentucky via Cumberland Gap and Pound Gap. Others came from Pennsylvania. They settled in early Floyd and Lawrence Counties, which were later divided into present day Boyd, Elliott, Floyd, Johnson, Lawrence, and Martin Counties. They were mostly of English, Irish, Scotch-Irish or Anglo-Saxon extraction and made their living by farming the hilly terrain or working in the coalmines. Some supplemented their income by trapping and hunting. They may have been poor by economic standards, but they remained a proud and independent people with strong character traits. Many of their descendants have gone on to become physicians, lawyers, teachers, scientists, military leaders and public servants.

Killer Pack Roger P. Myers,Albert E. Herbert, Jr.,2000-12-01 Fall had arrived on Long Island and the resort Town of Montague was relaxing after the flow of tourists that poured in each year. Its beaches were empty of the hordes of sunbathers and you could actually get a parking spot in Town! Everyone breathed a sigh of relief that Summer was over and things were back to a sense of normalcy. Then, late one night, a group of teenagers, having a weiner roast by the ocean, discovered that they were being watched by someone, or something. Upon investigation they realized that a pack of vicious dogs were stalking them. They attacked and one big Doberman mauled and maimed one of the boys while his friends watched in hopeless horror. This was only the beginning. Montague was in the process of choosing a new Town Supervisor. Diana Wentworth, who was born in Montague, was the current Supervisor and had been for the last four years. But she was being challenged by Ken Murdock, a local real estate broker. The issue of imposing a leash law in the Town was at the center of this election. Diana was against it and Murdock was for it. When another of Montague's residents had succumbed to the brutality of the killer pack of dogs, the event fueled the flames of the leash law issue. Before October was over, the Town of Montague would be swept by fear and drenched in blood!

Thou Shalt Kill Tom P. Brown,2015-08-14 In 2019, America is bordering on financial collapse after engaging in a third conflict in Iraq. On the home front, the president has provided funding for stem cell research, but medical success is overshadowed after corporate greed intervenes. The intention to benefit those with the greatest need quickly disappears as the replication process is used to clone all major organs. With the advent of cloning, the inevitable occurs when Americas population reaches the saturation point. A chip is now implanted into all citizens, which signals when someone reaches the mandatory age of death. Years left on a chip are for sale, and the hunt for new chips is on. Meanwhile, overseas, the war rages, where people die irrespective of age. Lieutenant Roger DeMarco must put an end to the murder of entire innocent Iraqi villages by those who would harvest the enemy and civilians alike. Doctors are caught on opposing sides of science, and even a reality TV star becomes of national interest when he sells his chip and plans to slowly kill himself in a parade of hedonism. Progress, profit, and morality collide with stunning ferocity as America must evolve or die.

Love Between Women Bernadette J. Brooten,2009-02-15 Love Between Women examines female homoeroticism and the role of women in the ancient Roman world. Employing an unparalleled range of cultural sources, Brooten finds evidence of marriages between women and establishes that condemnations of female homoerotic practices were based on widespread awareness of love between women. An extraordinary accomplishment. . . .

A definitive source for all future discussion of homoeroticism and the Bible.—Mary Rose D'Angelo, Harvard Gay & Lesbian Review [Brooten's] convincing analysis . . . not only profoundly reshapes our understanding of the past, but it should also shape the way in which that past, particularly the early Christian texts with their immense normative weight, will be used for the future.—Anne L. Clark, Journal of Lesbian Studies Love Between Women gives contemporary debates on sexuality a carefully delineated past. It boldly insists upon a different future, one informed by history but not tyrannized by it.—Susan Ackerman, Lambda Book Report Fascinating, provocative and lucid. . . . Brooten has made a fundamental contribution to women's and gender studies, gay and lesbian studies, and classics.—Elizabeth A. Castelli, Women's Review of Books Winner of the Lambda Literary Award for Best Lesbian Studies Book, 1997

Foxhunters Speak Mary Motley Kalergis,2017-04-15 This oral history of foxhunting examines the mentors and influences of fifty people who have dedicated their lives to the sport of horse and hound. These oral histories are accompanied by beautiful black and white portraits taken by photographer Mary Kalergis.The recollected sights, sounds and scents of foxhunting shared within these pages are a feast for the senses and nourish the soul.

Principles of Package Development Roger C. Griffin,2012-12-06 Since the first edition of Principles of Packaging Development was published, the packaging industry has undergone many profound changes. These have included the virtual elimination of cellophane and its replacement with oriented polypropylene as a carton overwrap, fluid milk in blow-molded HDPE bottles, PET beverage bottles, cookie bags and cartons lined with polyolefin coextrusions instead of waxed glassine, and bread in reclosable polyolefin and coextruded film bags. New phrases have also worked their way into the lexicon of the practicing packaging technologist, such as child resistance and tamper evident. This most popular text on packaging demanded updating. How these phrases and ideas have affected the industry in the 1980s and how they will probably alter its course in the future are treated. New concepts of packaging system planning and forecasting techniques are intruding into package management, and new chapters will introduce them to the reader. The years have added a certain degree of maturity to the packaging industry. Not only have the original authors broadened their perspectives and changed professional responsibilities, we have also included a third co-author, Dr. Aaron L. Brody, whose experience in the industry, academic background, and erudite insights into the very nature of packaging have added an unparalleled degree of depth to this book. We would like to thank David L.
