Digital Scholarly Editions Beyond Text Tessa Gengnagel,2024-02-07 Scholarly editions contextualize our cultural heritage. Traditionally, methodologies from the field of scholarly editing are applied to works of literature, e.g. in order to trace their genesis or present their varied history of transmission. What do we make of the variance in other types of cultural heritage? How can we describe, record, and reproduce it systematically? From medieval to modern times, from image to audiovisual media, the book traces discourses across different disciplines in order to develop a conceptual model for scholarly editions on a broader scale. By doing so, it also delves into the theory and philosophy of the (digital) humanities as such.

Strategic Intelligence for the Future 1 Henri Dou, Alain Juillet, Philippe Clerc, 2019-04-10 Information in all its forms is at the heart of the economic intelligence process. It is also a powerful vector of innovation and, more than ever, a balance between economic and societal forces. Strategic Intelligence for the Future 1 analyzes the need for the French economic intelligence to mutate in order to develop the economy, strengthen social cohesion and protect vital interests. This mutation requires a change of attitudes and a new way of thinking, widely open to global change and new technologies. The focus of the French economic intelligence on conventional objectives such as business and the economy does not allow for the integration of its multiple possible fields and thus its global nature. The strategy, foresight and temporal dynamics necessary to the understanding of the world, and the new balance of power and control of complex situations, have thus increased the time needed to put this in place. Both theoretical

and practical, this book provides a basis from which to develop enhanced economic intelligence leading to the implementation of global security.

The Art of War ... A New Edition, with Appendices and Maps. Translated from the French, by Capt. G. H. Mendell ... and Capt. W. P. Craighill, Etc Antoine Henri de Baron JOMINI,1868

Twilight of the Elites Christophe Guilluy,2019-01-08 A passionate account of how the gulf between France's metropolitan elites and its working classes are tearing the country apart Christophe Guilluy, a French geographer, makes the case that France has become an "American society"—one that is both increasingly multicultural and increasingly unequal. The divide between the global economy's winners and losers in today's France has replaced the old left-right split, leaving many on "the periphery." As Guilluy shows, there is no unified French economy, and those cut off from the country's new economic citadels suffer disproportionately on both economic and social fronts. In Guilluy's analysis, the lip service paid to the idea of an "open society" in France is a smoke screen meant to hide the emergence of a closed society, walled off for the benefit of the upper classes. The ruling classes in France are reaching a dangerous stage, he argues; without the stability of a growing economy, the hope for those excluded from growth is extinguished, undermining the legitimacy of a multicultural nation.
