Interactivity, Game Creation, Design, Learning, and Innovation Anthony L. Brooks, Eva Brooks, 2017-03-17 This book constitutes the proceedings of two conferences: The 5th International Conference on ArtsIT, Interactivity and Game Creation (ArtsIT 2016) and the First International Conference on Design, Learning and Innovation (DLI 2016). ArtsIT is reflecting trends in the expanding field of digital art, interactive art, and how game creation is considered an art form. The decision was made to augment the title of ArtsIT to be in future known as "The International Conference on Interactivity, Game Creation, Design, Learning, and Innovation". The event was hosted in Esbjerg, Denmark in May 2016 and attracted 76 submissions from which 34 full papers were selected for publication in this book. The papers represent a forum for the dissemination of cutting-edge research results in the area of arts, design and technology.

Theory and Practice of Digital Libraries Panayiotis Zaphiris, George Buchanan, Edie Rasmussen, Fernando Loizides, 2012-09-20 This book constitutes the refereed proceedings of the Second International Conference on Theory and Practice of Digital Libraries, TPDL 2012 - the successor of the ECDL (European Conference on Research and Advanced Technology for Digital Libraries) - held in Paphos, Cyprus, in September 2012. The 23 full papers, 19 short papers, 15 posters and 8 demonstrations presented in this volume were carefully reviewed and selected from 139 submissions. The papers are organized in topical sections on user behavior, mobiles and place, heritage and sustainability, preservation, linked data, analysing and enriching documents, content and metadata quality, folksonomy and ontology, information retrieval, organising collections, as well as extracting and indexing.

Social Inclusion: Societal and Organizational Implications for Information Systems Eileen Trauth, Debra Howcroft, Tom Butler, Brian Fitzgerald, Janice DeGross, 2006-09-13 This book presents the proceedings of the Working Conference on the societal and organizational implications for information systems of social inclusion. The contributed papers explore technology design and use in organizations, and consider the processes that engender social exclusion along with the issues that derive from it. The conference, sponsored by the International Federation for Information Processing Working Group 8.2, was held in Limerick, Ireland, in July, 2006.

Entrepreneurship Marc J. Dollinger, 1999 New to Prentice Hall, this upper-level Entrepreneurship text is perfect for the MBA or Executive MBA market. Brief, paperback, the text frames the theories and applications of entrepreneurship within a resource-based theory focus. The new edition is designed to be more user-friendly, with increased pedagogy, (such as the Street Stories mini-cases.)

Toward a Quantum-Safe Communication Infrastructure R. Steinwandt, A. Xuereb, 2024-03-05 The accelerating pace at which quantum computing is developing makes it almost inevitable that some of the major cryptographic algorithms and protocols we rely on daily, for everything from internet shopping to running our critical infrastructure, may be compromised in the coming years. This book presents 11 papers from the NATO Advanced Research

Workshop (ARW) on Quantum and Post-Quantum Cryptography, hosted in Malta in November 2021. The workshop set out to understand and reconcile two seemingly divergent points of view on post-quantum cryptography and secure communication: would it be better to deploy post-quantum cryptographic (PQC) algorithms or quantum key distribution (QKD)? The workshop brought these two communities together to work towards a future in which the two technologies are seen as complementary solutions to secure communication systems at both a hardware (QKD) and software (PQC) level, rather than being in competition with each other. Subjects include the education of an adequate workforce and the challenges of adjusting university curricula for the quantum age; whether PQC and QKD are both required to enable a quantum-safe future and the case for hybrid approaches; and technical aspects of implementing quantum-secure communication systems. The efforts of two NATO nations to address the possible emergence of cryptanalytically-relevant quantum computers are explored, as are two cryptographic applications which go beyond the basic goal of securing two-party communication in a post-quantum world. The book includes economic and broader societal perspectives as well as the strictly technical, and adds a helpful, new contribution to this conversation.

The Untold History of Japanese Game Developers John Szczepaniak, 2015-11-04

Detailed contents listing here:

<http://www.hardcoregaming101.net/books/the-untold-history-of-japanese-game-developers-volume-2/> Nearly 400 pages and over 30 interviews, with exclusive content on the history of Japanese games. The origins of Hudson, Masaya's epic robot sagas, Nintendo's funding of a PlayStation RTS, detailed history of Westone Entertainment, and a diverse range of unreleased games. Includes exclusive office layout maps, design documents, and archive photos. In a world first - something no other journalist has dared examine - there's candid discussion on the involvement of Japan's yakuza in the industry. Forewords by Retro Gamer founding editor Martyn Carroll and game history professor Martin Picard.

A Carver Policy Governance Guide, The Policy Governance Model and the Role of the Board Member John Carver, Miriam Carver, 2009-04-13 The Carver Policy Governance Guide series includes six booklets that offer board members a description of John Carver's Policy Governance model of board leadership. Policy Governance enables a board to fulfill its accountability to its organization's owners, whether the owners are association members, city residents, company shareholders, or a community of interest. Policy Governance addresses the board's engagement in financial, programmatic, and personnel matters; roles of officers and committees; reporting and evaluation; agendas; and other aspects of the board job. The Policy Governance Model and the Role of the Board Member sets out a clear vision for excellence in board leadership. It gives board members an understanding of the concepts and principles that are at the very heart of John Carver's innovative Policy Governance model. This guide details members' main tasks and presents the guidelines needed to transform a board into an effective group that consistently leads powerfully. The Policy Governance model is based on the functions rather than the structure of a governing board. It outlines commonsense principles about governing that fit together into an entire system. The practices of the Policy Governance board, which are consistent with the principles, allow it to control without meddling, focus

on long-term organizational outputs, powerfully delegate to a CEO and staff, and discharge its fiduciary responsibility in a visionary, strategic manner. Because the model is a total system, the Carver Policy Governance Guide series offers boards a complete set of principles for fulfilling their various obligations.

The Routledge International Handbook of the Crimes of the Powerful Gregg Barak, 2015-06-05 Across the world, most people are well aware of ordinary criminal harms to person and property. Often committed by the powerless and poor, these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations. In contrast, the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals, groups, and national states are neither calculated by governmental agencies nor annually reported by the mass media. As a result, most citizens of the world are unaware of the routinized crimes of the powerful, even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless. Research on the crimes of the powerful brings together several areas of criminological focus, involving organizational and institutional networks of powerful people that commit crimes against workers, marketplaces, taxpayers and political systems, as well as acts of torture, terrorism, and genocide. This international handbook offers a comprehensive, authoritative and structural synthesis of these interrelated topics of criminological concern. It also explains why the crimes of the powerful are so difficult to control. Edited by internationally acclaimed criminologist Gregg Barak, this book reflects the state of the art of scholarly research, covering all the key areas including corporate, global, environmental, and state crimes. The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful, domestically and internationally.

Modern Stream Ciphers Thomas Johansson, Willi Meier, 2014-06-15 An increased interest in stream ciphers has recently been reflected in a number of applications. These are most useful for securing environments with constrained resources in computing power and energy as well as areas where very high speed is required in software implementations. This book covers the field of symmetric cryptography and provides a basic understanding of stream ciphers and pseudo-random sequences for system design and implementation purposes. The authors discuss key stream ciphers, e-stream competition, applications of stream ciphers, cryptanalysis, and various types of attacks.

Love Circles Charles Lee Robinson, Jr., 2015-06-10 Love Circles is a riveting account of sexual revenge and betrayal played out over twenty-five years in the lives of three men, friends who have managed to stay friends, and are now happily married. They meet at a newly built jazz club to reminisce on all the bad relationships they have had over the years, times when they were living in a vicious love circle of life. Yet they still remained loyal to each other, despite all the other friends who betrayed them over the decades. The three have triumphed over all obstacles by learning that God is the only one who really gets revenge. The story follows Lenny, Richard, and Nathan as they learn things the hard way when their lives were put in danger. Will they prevail?

Design, Learning, and Innovation Eva Irene Brooks, Anthony Brooks, Cristina Sylla, Anders Kalsgaard Møller, 2021-06-27 This book constitutes the refereed post-conference proceedings the 5th EAI International Conference on DLI 2020, Design, Learning and Innovation, which took place in December 2020. Due to COVID-19 pandemic the conference was held virtually. The 14 revised full papers presented were carefully selected from 40 submissions and are organized in four thematic sessions on: digital technologies and learning; designing for innovation; digital games, gamification and robots; designs for innovative learning.
