The Demonstration Society Claude Rosental, 2021-10-12 Today, as in the past, public demonstrations are not only tools to prove, persuade, and promote, but also fundamental forms of social interaction and exchange. YouTube demos of makeup products by famous influencers, demonstrations of strength during street protests, demonstrations of military might in North Korea: public demonstrations are omnipresent in social life. Yet they are often perceived as isolated events, unworthy of systematic examination. In *The Demonstration Society*, Claude Rosental explores the underlying dynamics of what he calls a "demonstration society." He shows how, both in today's world and historically, public demonstrations constitute not only tools to prove, persuade, and promote, but fundamental forms of interaction and exchange, and, in some cases, attempts to lead the world. Rosental compares demos with other forms of public demonstrations, drawing out both their peculiarities and common features. He analyzes the processes through which demonstrations are conceived and carried out, as well as the skills of their producers. He also compares contemporary demos with historical demonstrations including theaters of machines in the Renaissance, public demonstrations of natural philosophy in the seventeenth century, and demonstrations of the magic lantern in the nineteenth century. Above and beyond the entertainment they sometimes provide, demonstrations are experienced as intense moments that broadly involve alliances, material and symbolic goods, and, more generally, the future of individuals and collectives. Rosental elucidates the many ways in which we live today, as in the past, in a society of demonstration.

Dockside: Kim and Eric Embrace Crowdfunding to Realize Dreams Kenneth Walsh, 2015-07-25 Learn about crowdfunding in this vivid story about how troprock musician Eric Stone and his wife, a multi-talented yoga instructor, Kim Hess-Stone used crowdfunding to realize their dreams of opening a troprock music venue in the Florida Keys call Dockside Tropical Cafe. The book is unique in that it combines the rockumentary narrative of how Eric and Kim developed their business with the how to details that allow the reader to set up a crowdfund platform to realize their own dreams.

The Red Truck Rudy Wilson, 2009 This is the first Ravenna Press edition of Wilson's novel, a cult favorite originally published in 1987 by Knopf, with a new Introduction by Marc Kipniss. Published alongside his short story collection, *Sonja's Blue*, these books are interesting evidence in the controversy over the influence of former Knopf editor Gordon Lish (who edited *The Red Truck* but not the short stories.) Lish edited Wilson as he edited Raymond Carver, with dazzling results that may be compared to the author's original and unedited writing in *Sonja's Blue*.

The Kingdom of Man Rémi Brague, 2018-10-30 Was humanity created, or do humans create themselves? In this eagerly awaited English translation of *Le Règne de l'homme*, the last volume of Rémi Brague's trilogy on the philosophical development of anthropology in the West, Brague argues that, with the dawn of the Enlightenment, Western societies rejected the transcendence of the past and looked instead to the progress fostered by the early modern present and the future. As scientific advances drained the cosmos of literal mystery, humanity increasingly devalued the theophosophical mystery of being in favor of omniscience over one's own existence. Brague narrates the intellectual disappearance of the natural order, replaced by a universal chaos upon which only humanity can impose order; he cites the vivid histories of the nation-state, economic evolution into capitalism, and technology as the tools of this new dominion, taken up voluntarily by humans for their own ends rather than accepted from the deity for a divine purpose. Brague's tour de force begins with the ancient and

medieval confidence in humanity as the superior creation of Nature or of God, epitomized in the biblical wish of the Creator for humans to exert stewardship over the earth. He sees the Enlightenment as a transition period, taking as a given that humankind should be masters of the world but rejecting the imposition of that duty by a deity. Before the Enlightenment, who the creator was and whom the creator dominated were clear. With the advance of modernity and banishment of the Creator, who was to be dominated? Today, Brague argues, "our humanism . . . is an anti-antihumanism, rather than a direct affirmation of the goodness of the human." He ends with a sobering question: does humankind still have the will to survive in an era of intellectual self-destruction? The Kingdom of Man will appeal to all readers interested in the history of ideas, but will be especially important to political philosophers, historical anthropologists, and theologians.

Breve storia dell'Ucraina Massimo Vassallo, 2022-03-25T00:00:00+01:00 Una breve ed essenziale storia dell'Ucraina, da sempre crogiolo di popoli, mischiati tra loro da millenni e le cui vicende in Italia restano poco conosciute o note solo attraverso il filtro delle esperienze storiche dei vicini. Breve per la sua formulazione sintetica, essenziale perché vengono messi a fuoco gli avvenimenti cruciali del XX e XXI secolo, fino all'invasione russa a opera di Putin. L'analisi storica e geopolitica di Massimo Vassallo consente al lettore di addentrarsi nella spesso trascurata storia dell'Europa orientale da un'angolazione differente rispetto a quelle tradizionalmente offerte da Mosca e Varsavia, tenendo in debito conto il punto di vista di Kyïv, e di comprendere l'instabilità di questa regione. Un'instabilità legata alla stratificazione etnica avvenuta nel corso dei secoli, che ha radici antiche e ha creato spaccature e conflitti difficili da sanare.

"Smart Technologies" for Society, State and Economy Elena G. Popkova, Bruno S. Sergi, 2020-10-15 This proceedings book presents a comprehensive view of "smart" technologies and perspectives of their application in various areas of economic activity. The authors of the book combined the results of the cutting-edge research on the topic of "smart" technologies in the digital economy and Industry 4.0 and developed a unified scientific concept. The current experience has been considered, and the prospects for the application of "smart" technologies in society to promote social advance have been identified. "Smart" technologies in public administration and law, as well as the experience in development of e-government, have been examined. "Smart" technologies in business activity have been studied, and the transition from digital business to business 4.0 has been justified. The book contains the

collection of the best works following the results of the 13th International Research-to-Practice Conference “Smart Technologies” for society, state and economy which was run by the Institute of Scientific Communications (ISC) and was held on July 2-3, 2020. The target audience of this book includes researchers investigating fundamental and applied problems of development of “smart” technologies, as well as concerned parties outside the academic community, in particular, representatives of the digital society, high-tech business entities and officials regulating the digital economy and Industry 4.0.
