Problems and Cases on Secured Transactions James A. Brook, Keith A.

Rowley, 2023-09-15 Brook & Rowley's *Problems and Cases on Secured Transactions* provides an updated problem-based approach to teaching and learning Article 9 of the Uniform Commercial Code. Using a problem-based approach, Brook & Rowley's *Problems and Cases on Secured Transactions* 4th Edition engages students with imaginative scenarios while providing an accessible and manageable approach to personal property secured transactions, without avoiding the intricacies of UCC Article 9 or de-emphasizing its interplay with other UCC articles, selected state non-UCC law, or federal bankruptcy law. Designed for a standalone Secured Transactions course, but adaptable to other configurations, the book presents UCC Article 9 as completely comprehensible, even enjoyable, rather than as arcana that only an insider can be expected to understand. Cases have been thoughtfully selected and edited, and the authors' textual discussion helps connect the cases to the problems and explores the materials' practical (and practice-oriented) relevance. A good mix of shorter and longer problems gives each chapter a focused flow while frequently recurring characters and basic fact patterns help to reinforce how the lessons of each chapter build onto the more comprehensive whole mapped out in prior and upcoming chapters. Earlier problems lean more heavily, though not exclusively, on the individual and consumer-borrower situations. As the lessons advance, the mix of materials progressively includes more small-business and large-business transactions. New to the Fourth Edition: New co-author Keith A. Rowley brings a quarter century of experience teaching Secured Transactions, augmented by insights

gained over nearly two decades of active involvement in the ABA Business Law Section and during his tenures as a Uniform Law Commissioner and as an elected member of the American Law Institute, in which capacity he actively consulted on the 2010 Amendments to UCC Article 9 and made several contributions to the 2022 UCC Amendments, which span the entire Code. New cases that replace statutorily obsolete or judicially superseded ones included in the prior edition or that augment cases carried over from the prior edition. Extensively edited and judiciously augmented textual materials. Extensively edited and judiciously augmented chapter problems. Corrected, replaced, and supplemented end-of-part multiple-choice review questions. Brief discussion of the 2022 UCC Amendments (which have only been adopted in a handful of states), as they relate to pre-amendment UCC Article 9. Professors and students will benefit from: Simple, straightforward organization of chapters and of material within each chapter that makes it easy to tailor assignments according to differing class credits and to the individual instructor's coverage preferences. Textual introductions, direction to particular statutory sections and comments, and thoughtfully edited cases designed to focus student attention on the issues at hand. Interesting and engaging problems that encourage the students to prepare answers before class discussion, allowing the student to continually monitor their understanding of the topic being covered. Recurring characters and basic fact patterns help students to more readily bridge from one topic to the next and see the bigger picture of UCC Article 9 and how each chapter contributes to better appreciating that picture. Review Questions (with answers) at the end of each Part of the book that helps students gauge their comprehension of and facility with the material discussed over several

chapters and help professors meet new ABA formative assessment requirements.

Studies in the Roman and Medieval Archaeology of Exeter Stephen Rippon, Neil Holbrook, 2021-04-28 This second volume presenting the research carried out through the Exeter: A Place in Time project presents a series of specialist contributions that underpin the general overview published in the first volume. Chapter 4 presents the medieval documentary evidence relating to the excavations at three sites in central Exeter (High Street, Trichay Street and Goldsmith Street), with the excavation reports being in Chapter 5-7. Chapter 8 reports on the excavations and documentary research at Rack Street in the south-east quarter of the city. There follows a series of papers covering recent research into the archaeometallurgical debris, dendrochronology, Roman pottery, Roman ceramic building material, Roman querns and millstones, Claudian coins, an overview of the Roman coins from Exeter and Devon, medieval pottery, and the human remains found in a series of medieval cemeteries.

Valuation for M&A Chris M. Mellen, Frank C. Evans, 2018-04-16 Determine a company's value, what drives it, and how to enhance value during a M&A Valuation for M&A lays out the steps for measuring and managing value creation in non-publicly traded entities, and helps investors, executives, and their advisors determine the optimum strategy to enhance both market value and strategic value and maximize return on investment. As a starting point in planning for a transaction, it is helpful to compute fair market value, which represents a “floor” value for the seller since it by definition represents a value agreed upon by any hypothetical willing and able buyer and seller. But for M&A, it is more important to compute investment value, which is the value of the target company to a strategic buyer (and which can vary with each prospective buyer). Prepare for the sale and acquisition of a firm Identify, quantify, and qualify the synergies that increase value to strategic buyers Get access to new chapters on fairness opinions and professional service firms Find a discussion of Roger Grabowski's writings on cost of capital, cross-border M&A, private cost of capital, intangible capital, and asset vs. stock transactions Inside, all the necessary tools you need to build and measure private company value is just a page away!

At War with Corruption Michael J. Hightower,2021-07-13 At War with Corruption began as a biography of Bill Price, the U.S. attorney and Republican candidate for high office who spearheaded prosecutions in the most pervasive public corruption spectacle in American history: the Oklahoma county commissioner scandal. Price's determination to root out the rascals and restore faith in governance branded him as the biggest corruption buster in the state's history. Price's career in law and politics serves as a portal into

corruption in Oklahoma. Episodes in that narrative include land swindles (soonerism) at the dawn of Oklahoma history; theft of Native Americans' property and steamrolling of their cultures that reached a nadir in the Osage murders; the Supreme Court scandal of 1964-65; Leo Winters' alleged misuse of state taxes (what was the treasurer doing with the people's money?); Governor David Hall's trial and conviction on charges of extortion; prosecutions of drug syndicates, Penn Square Bank insiders, and Oklahoma Corporation Commissioners on the take; and the systemic bribery in county governance that inspired this book. Price shatters the myth that Oklahomans have been uniquely tolerant of, and susceptible to, corruption. He blames structural flaws and inadequate legislation for tempting law-abiding citizens to heed the call of their darker angels. Although Price failed in his gubernatorial and congressional campaigns, he has influenced policy through philanthropies that set a high bar for civic engagement. *At War with Corruption* reveals the sinister side of human nature. Yet its intention is not to depress, but rather to uplift and to show what is possible when public servants work together to frame effective laws and promote justice.
