Singapore Arbitration Legislation Robert Merkin,Johanna Hjalmarsson,2016-01-29 The book provides a comprehensive and in depth guide to the regulatory framework in Singapore, the first of its kind for the foremost jurisdiction for international arbitration in the Asia-Pacific geographic zone. It is designed with practitioners in mind and provides terse and specific but detailed and well-informed commentary to each of the sections in the applicable arbitration acts. The book sets out and annotates the two legislative acts applicable to arbitration in Singapore, as well as the Singapore International Arbitration Centre Rules. It also contains a few international documents including the Uncitral Model Law and the New York Convention.

Arbitration Act 1996 Robert Merkin,Louis Flannery,2014-03-14 This book is an essential resource for any legal practitioner involved in any aspect of English arbitration law. It provides a thorough annotation of the Arbitration Act 1996, and contains comprehensive explanations of developments in the relevant case law to each section of the Act. Since the fourth edition of this book, the English courts have decided many important new cases on virtually every aspect of arbitration law. The most important developments relate to: The growth of anti-arbitration injunctions; The use of freezing injunctions against third party assets and the availability of anti-suit injunctions in EU proceedings; The definition of seat, the appointment of arbitrators, choice of applicable law, jurisdiction, the form of the award and the slip rule; Enforcement of foreign awards, and challenges to domestic awards by way of jurisdictional attacks, serious irregularity or error of law In this 5th edition, the notes to each section contain helpful sub-headings and a new Appendix will contain a fully annotated version of CPR Part 62 and the Practice Direction. The book will also be useful for academics and university students of law at all levels seeking an understanding of the 1996 Act, including those on the Legal Practice Course.

Cross-Border Insolvency Neil Hannan,2017-08-21 This book examines the effect of the adoption of the United Nations Committee on International Trade Law (UNCITRAL) Model Law on Cross-Border Insolvency in five common law jurisdictions, namely Australia, Canada, New Zealand, the United Kingdom, and the United States of America. It examines how each of those states has adopted, interpreted and applied the provisions of the Model Law, and highlights the effects of inconsistencies by examining jurisprudence in each of these countries, specifically how the Model Law affects existing principles of recognition of insolvency proceedings. The book examines how the UNCITRAL Guide to enactment of the Model Law has affected the interpretation of each of its articles and, in turn, the courts' ability to interpret and hence give effect to the purposes of the Model Law. It also considers the ability of courts to refer to amendments made to the Guide after enactment of the Model Law in a state, thereby questioning whether the current inconsistencies in interpretation can be overcome by UNCITRAL amending the Guide.
