The Hadith Volume 1 Muhammad al-Bukhari,2016-01-18 The entire collection (volume 1 of 5) of the Hadith by Sahih Al-Bukhari. The Hadith are sayings of the Prophet Muhammad; this is one of the six major collections. Sunni Muslims view this as one of the three most trusted collections of hadith along with Sahih Muslim and Muwatta Imam Malik. In some circles, it is considered the most authentic book after the Quran. The book was compiled around 200 years after the death of Muhammad.

Islamic Psychology G. Hussein Rassool,2021-03-31 Islamic Psychology or ilm an-nafs (science of the soul) is an important introductory textbook drawing on the latest evidence in the sub-disciplines of psychology to provide a balanced and comprehensive view of human nature, behaviour and experience. Its foundation to develop theories about human nature is based upon the writings of the Qur'an, Sunna, Muslim scholars and contemporary research findings. Synthesising contemporary empirical psychology and Islamic psychology, this book is holistic in both nature and process and includes the physical, psychological, social and spiritual dimensions of human behaviour and experience. Through a broad and comprehensive scope, the book addresses three main areas: Context, perspectives and the clinical applications of applied psychology from an Islamic approach. This book is a core text on Islamic psychology for undergraduate and postgraduate students and those undertaking continuing professional development in Islamic psychology, psychotherapy and counselling. Beyond this, it is also a good supporting resource for teachers and lecturers in this field.

Sahih Al-Bukhari Imam Al Bukhari,2020-05-10 The Sahih Bukhari collection of Hadiths is considered to be the most authentic collection of the teachings and sayings of the Prophet (ﷺ). These Prophetic traditions, or hadith, were collected by the Uzbek Muslim scholar Muhammad al-Bukhari, after being transmitted orally for generations.

Sacred Aid Michael Barnett,Janice Stein,2012-08-16 How and why did this happen, and what does it mean for humanitarianism writ large?.

Sahih Bukhari Muhammad Muhsin Khan,197? Sahih Bukhari is a collection of sayings and deeds of Prophet Muhammad (pbuh), also known as the Sunnah. The reports of the Prophet's (saw) sayings and deeds are called ahadeeth. Imam Bukhari lived a couple of centuries after the Prophet's (saw) death and worked extremely hard to collect his ahadeeth. Each report in his collection was checked for compatibility with the Qur'an, and the veracity of the chain of reporters had to be painstakingly established. Bukhari's collection is recognized by the overwhelming majority of the Muslim world to be one of the most authentic collections of the Sunnah of the Prophet(pbuh).

Doctrine of Terror Mahboob Illahi,2018-10-02 The book highlights the fact that Islam does not encourage or incite intolerance of other faiths, and that it values sanctity of human life, regardless of religious affiliation, and abhors violence and extremism, as being perpetrated by the misguided muslim jihadists of al-Qaeda, ISIS, and their associated terrorist groups that have been wreaking atrocities on defenseless civilian populations of Muslim majority countries, including women and children.The book describes the inception, support, and unlimited funding of these groups by the Sunni Arab countries, and implores the Funders to discontinue their support, forthwith, to restore peace and stability to the marginalized communities, particularly the Shia Muslims of the world who have been subjected to persecution for centuries, ever since the advent of Islam in the seventh century, following the death of the Prophet of Islam in 623.The book also implores theWorld powers to end their tacit support of terrorism by seriously confronting the supporters of terrorist groups, without which the terrorism will not end.

A History of Orthodox, Islamic, and Western Christian Political Values Dennis J. Dunn,2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones. Both Putin's Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt, in a largely languishing effort, to frustrate this series of values. The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War, Russia's aggression against Ukraine, and acts of terrorism such as 9/11 and the ISIS-inspired massacres in Paris. It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history.

Methodology of Islamic Economics Necmettin Kizilkaya,2019-11-05 In its pursuit to equip the reader with a basic knowledge of Islamic economics, this book divulges the micro-foundations of the discipline, and highlights the predominant schools of thought that exist in the field. It explains, in simple terms, what Islamic economics entails and how it can be studied as a science in relation to the Holy Quran, the Sunnah and the Islamic intellectual tradition based on these two sources. The book familiarizes the reader with knowledge of the basic maxims of the discipline. It then establishes the arguments that are presented by the proponents of religion-based economics, specifically Islam, and apprises readers about the aforementioned schools as they exist. A number of chapters consider the dimension of the dilemmas the discipline is facing, and the chronological progress of the field is reviewed, hence providing a comprehensive overview of the topic. The book deals with the issues about the origins of Islamic economics, the basic methodological questions, the use of the opportunities offered by fiqh in the methodological discussions and the main problems arising from the encounter with other cultures and civilizations. It offers practical solutions, despite the differing schools of thought, not unlike the development of conventional Economics where radical differences between Keynesian, Classical and Monetarist approaches existed. It concludes by incorporating some of the finest works that explain to the reader how Islamic economics may progress as a discipline. This guide will provide both students and researchers in Comparative Economic Studies, Islamic Economics and Islamic Finance with an essential overview of the field.

Handbook of Faith and Spirituality in the Workplace Judi Neal,2012-12-09 While the field of management has developed as a research discipline over the last century, until the early 1990s there was essentially no acknowledgement that the human spirit plays an important role in the workplace. Over the past twenty years, the

tide has begun to turn, as evidenced by the growing number of courses in academia and in corporate training, and an exponential increase in the publications emerging through creative interaction of scholars and practitioners in organizational behaviour, workplace diversity, sustainability, innovation, corporate governance, leadership, and corporate wellness, as well as contributions by psychotherapists, theologians, anthropologists, educators, philosophers, and artists. This Handbook is the most comprehensive collection to date of essays by the preeminent researchers and practitioners in faith and spirituality in the workplace, featuring not only the most current research and case examples, but visions of what will be, or should be, emerging over the horizon. It includes essays by the people who helped to pioneer the field as well as essays by up and coming young scholars. Among the questions and issues addressed: · What does it mean to be a “spiritual” organization? How does this perspective challenge traditional approaches to the firm as a purely rational, profit-maximizing enterprise? · Is faith and spirituality in the workplace a passing fad, or is there a substantial shift occurring in the business paradigm? · How does this field inform emerging management disciplines such as sustainability, diversity, and social responsibility? · In what ways are faith and spirituality in the workplace similar to progressive and innovative human resource practices. Does faith and spirituality in the workplace bring something additional to the conversation, and if so, what? The aim of The Handbook of Faith and Spirituality in the Workplace is to provide researchers, faculty, students, and practitioners with a broad overview of the field from a research perspective, while keeping an eye on building a bridge between scholarship and practice.

An Introduction to the Science of the Ḥadīth ‘Uthmān ibn ‘Abd al-Raḥmān Ibn al-Ṣalāḥ al-Shahrazūrī, 2006 A complete overview of the science devoted to the study of the words and actions of the Prophet Muhammad.

Measures of Spirituality/Religiosity (2018) Arndt Büssing, 2019-04-30 The interest in the topic of spirituality as a more or less independent dimension of quality of life is continuously growing, and research questions are beginning to change as the field of religiosity changes, becoming more diverse and pluralistic. Addressing new topics in health research also relies on standardized questionnaires. The number of instruments intended to measure specific aspects of spirituality is growing, and it is particularly difficult to evaluate the new instruments. This Special Issue will focus on some of the established instruments (updating them to different languages and cultures), but will also describe the features and intentions of newly-developed instruments, which may potentially be used in larger studies to develop knowledge relevant to spiritual care and practice. This Special Issue will serve as a resource on the instruments used to study the wide range of organized religiosity, the individual experience of the divine, and an open approach in the search for meaning and purpose in life.

Islamic Finance David Eisenberg, 2012-03-22 This work is a practical and commercial guide to the fundamental principles of Islamic finance and their application to Islamic finance transactions. Islamic finance is a rapidly expanding, global industry and this book is designed to provide a practical treatment of the subject. It includes discussion and analysis of the negotiation and structure involved in Islamic finance transactions, with relevant case studies, structure diagrams and precedent material supporting the commentary throughout. An introductory section describes the theoretical background and explains the principles (and their sources) of Islamic law which underpin Islamic finance practices, providing an important backdrop to the work as a whole. The work also considers the role of Shariah supervisory boards, Islamic financial institutions and the relevance of accounting approaches. The work adopts an international perspective to reflect the pan-global nature of the industry and accepted practices, with the aim to bring together different schools of thought applied in international Islamic finance transactions. It also highlights any regional differences in accepted practice by reviewing the position in the Gulf states, Asia, the UK and Europe and the USA. The second part of the book concentrates on Islamic financial law in practice and begins with a section on financial techniques. This section explains the basic requirements for Islamic finance contracts both in terms of the underlying asset types and also both the applicability and acceptability of the underlying asset. There is a full discussion of the various types of contractual models such as Mudaraba (trustee finance), Musharaka (partnership or joint venture), Murabaha (sale of goods), and Sukuk (participation securities: coupons etc). The nascent area of Takaful (insurance) is also covered as are matters specific to the important field of project and asset finance.

Sufism in the Secret History of Persia Milad Milani, 2014-10-14 Sufism formed one of the cultures of resistance which has existed in the social fabric of Persia since antiquity. Such resistance continues to manifest itself today with many looking to Sufism as a model of cooperation between East and West, between traditional and modern. 'Sufism in the Secret History of Persia' explores the place of Sufi mysticism in Iran's intellectual and spiritual consciousness through traditional and contemporary Sufi thinkers and writers. Sufism in the Secret History of Persia examines the current of spirituality which extends from the old Iranian worship of Mithra to modern Islam. This current always contains elements of gnosis and inner knowing, but has often provided impetus for socio-political resistance. The study describes how these persisting pre-Islamic cultural and socio-religious elements have secretly challenged Muslim orthodoxies and continue to shape the nature and orientation of contemporary Sufism.

Education and Curricular Perspectives in the Qur'an Sarah Risha, 2014-12-11 Education and Curricular Perspectives in the Qur'an focuses on different perspectives of curriculum as presented in the central text of Islam. Relying heavily on the Qur'an itself, and sayings of the Prophet Mohammed when necessary, Risha addresses five aspects in particular to examine how the Qur'an connects to current academic curriculum studies.
