Counseling Latinos and la Familia Azara L Santiago-Rivera, Patricia Arredondo, Maritza Gallardo-Cooper, 2002 Counseling Latinos and la familia provides an integrated approach to understanding Latino families and increasing competency for counselors and other mental health professionals who work with Latinos and their families. It provides essential background information about the Latino population and the family unit, which is so central to Latino culture, including the diversity of various Spanish-speaking groups, socio-political issues, and changing family forms. The book also includes practical counseling strategies, focusing on the multicultural competencies approach.

Strengths and Challenges of New Immigrant Families Rochelle L. Dalla, 2009 Immigration to America is an issue that often sparks intense emotional reactions—from passion and compassion to anger and even rage. Often missing from the dialogue, however, is discussion of the strengths of immigrant newcomers—the abilities and positive characteristics they bring as individuals and families to our country, and how these contribute to the agency, growth, and vitality of America. This book was intended to move the discussion of immigration, generally speaking, and of immigrant families specifically, to include how and in what ways new immigrants to America (those arriving within the past thirty years) have changed the social and geocultural landscape of this country in positive, beneficial, and valuable ways. The book is comprised of nineteen chapters written by scholars with expertise on immigrant families representing every corner of the globe—from Africa and India to Europe and Central America. In each chapter, the unique factors, processes, and worldviews which help shape and mold the immigrant experience are articulated, as are the strengths immigrant newcomers bring to America. In addition, beyond explicating the strengths of immigrant families, each of the nineteen contributing chapters focuses on the implications of these strengths for families, communities, and the culture. Thus, the book provides a springboard from which to answer the application and 'what now' questions for those who work with immigrant families in a variety of capacities—from academicians and researchers to educators and human-service providers.

Color behind Bars Scott W. Bowman,2014-08-11 A diverse, critical analysis of racial and ethnic disparities within the American criminal justice system that encourages critical thinking by providing various sides to the issues. Low-income African Americans, Latin Americans, and American Indians bear the statistical brunt of policing, death penalty verdicts, and sentencing disparities in the United States. Why does this long-standing inequity exist in a country where schoolchildren are taught to expect justice for all? The original essays in this two-volume set not only examine the deep-rooted issues and lay out theories as to why racism remains a problem in our prison system, but they also provide potential solutions to the problem. The work gives a broad, multicultural overview of the history of overrepresentation of ethnic minorities in our prison system, examining

white/black disparities as well as racism and issues of ethnic-based discrimination concerning other ethnic minorities. This up-to-date resource is ideally suited for undergraduate students who are enrolled in criminal justice or racial/ethnic studies classes and general readers interested in the U.S. criminal justice system.

Introduction to Language Development Shelia M. Kennison, 2013-07-18 There are between 4,000 and 6,000 languages remaining in the world and the characteristics of these languages vary widely. How could an infant born today master any language in the world, regardless of the language's characteristics? Shelia M. Kennison answers this question through a comprehensive introduction to language development, taking a unique perspective that spans the period before birth through old age. *Introduction to Language Development* offers in-depth discussions on key topics, including: the biological basis of language, perceptual development, grammatical development, development of lexical knowledge, social aspects of language, bilingualism, the effect of language on thought, cognitive processing in language production and comprehension, language-related delays and disorders, and language late in life.

Latina/o American Health and Mental Health Leticia Arellano-Morales Ph.D., Erica T. Sosa, 2018-02-16 Essential reading for health and mental health administrators, community agencies, and policy makers as well as students and general interest readers, this book details the state of the physical and mental health of many Latina/o American groups. While Latina/o Americans originate from more than 25 countries, most health or mental health texts

largely focus on Mexican Americans and often fail to address other Latina/o groups, such as South Americans, Central Americans, Puerto Ricans, and others. Moreover, most works address either health or mental health, but not both together. In contrast, *Latina/o American Health and Mental Health* addresses both the health and mental health of diverse Latina/o heritage groups. An interdisciplinary approach enables readers to identify both similar and divergent areas that affect the health and mental health of Latina/o Americans. Strengths-based and social justice perspectives, rather than a deficit perspective, guide the work in its assessment of disparities among treatment for different groups. This text is ideal for graduate students, practitioners, researchers, and policy makers in public health, community health, family studies, psychology, counseling, social work, and Latina/o studies who are interested in understanding Latina/o health and mental health in the United States and providing culturally responsive services.
