**Beyond What Is Written** Jan Krans,2006-09-01 This ground-breaking historical study examines the many conjectures on the Greek text made by Erasmus and Beza in their multiple editions of the New Testament. In the process, the author critically assesses their views and methods of New Testament textual criticism.

Morality After Calvin Kirk M. Summers,2017 *Morality after Calvin* examines the development of ethical thought in the Reformed tradition immediately following the death of Calvin. The book explores a previously unstudied work of Theodore Beza, the *Cato Censorius Christianus* (1591). When read in conjunction with the works and correspondence of Beza and his colleagues (Simon Goulart, Lambert Daneau, Peter Martyr Vermigli, among others), the poems of the *Cato* reveal the theoretical underpinnings of the disciplinary activity during the period. Kirk M. Summers shows how the moral fervor of the latter half of the sixteenth century had its genesis in a well-formulated theology that viewed a Christian's sanctification as a process of restoration to an original order created by God. 00.

**Conversations with Angels** J. Raymond,2011-08-09 Based on refractions of earlier beliefs, modern angels - at once terrible and comforting, frighteningly other and reassuringly beneficent - have acquired a powerful symbolic value. This interdisciplinary study looks at how humans conversed with angels in medieval and early modern Europe, and how they explained and represented these conversations.
