Transform Tomorrow Stig Nybo,2013-01-17 A campaign to prepare Americans for their futures Transform Tomorrow investigates why so many Americans are at risk of out-living their savings. Author Stig Nybo draws inspiration from successful behavior change campaigns to identify the drivers of change—context and beliefs—and how they can be successfully employed to boost retirement savings rates. While the retirement savings industry increasingly embraces the contextual drivers of behavior, very little is being done to shape our beliefs to start saving smarter and sooner. Nybo suggests a retirement readiness campaign to inspire and enlist the support of individuals, employers, industry, government, and the media. Explains how society can transition from treating 401(k) as a voluntary benefit to the basis upon which each individual who wants to or needs to can retire comfortably. Details a national, coordinated retirement readiness campaign, along the lines of successful Public Service Advertisements—like The Crying Indian and Rosie the Riveter—that will help change behavior and re-shape the culture of our nation Makes a call to action for such a campaign Retirement in America is endangered, but Transform Tomorrow shows a path back from the brink.

The New Rules of Retirement Saving Neil Wilding,Becky Swansburg,Martin H Ruby,2020-06-18 For any saver who's ever wondered Am I doing this right?, this book will give you the guidance and confidence to answer Yes. Too many savers are operating under an old set of rules - rules that were created and tested decades ago for market conditions that no longer exist today. And while most of us would never call someone on a rotary phone, or drive a car without airbags, we still save with outdated strategies. The New Rules of Retirement Saving is your guidebook to the risks you face as a saver today ... and the new rules you can use to overcome them. Martin H. Ruby, FSA, has made his career helping people like you save smarter. As founder and CEO of Stonewood Financial Solutions, he helps savers achieve both greater financial wealth and greater financial security. What makes his approach so successful? Martin is an actuary, a mathematics specialist focused on identifying, evaluating and eliminating risk. In founding Stonewood Financial Solutions, Martin realized his vision of delivering actuarial expertise to clients rather than financial institutions. He uses his insider knowledge of how insurance and financial products work to structure strategies that maximize benefits for savers. Now, Martin has used his insights and expertise to develop The New Rules of Retirement Saving. Reading this book will give you the knowledge of today's biggest savings risks, and teach you to overcome them as you save for your future.

Supercharge Your Money Graham Swain,2016-09-29 Have you recently received a letter from your bank telling you they're dropping your savings rate yet again? Are you searching for ways to grow your savings without having to resort to risky investments or trading? Returns on cash accounts have fallen a staggering 75% since 2012. And it's likely to get worse with some commentators speculating that banks may even start charging savers to look after their money! Supercharge Your Money is a guide to low risk ways for British savers to outperform the banks. Rather than settling for the dismal savings rates offered by your bank, you should be making your money work for you. This book will show you: 1) How spending a few hours could make you 1,000s a year 2) How most of you can make 25% a year on your savings with no risk 3) How to assess an investment opportunity 4) How to make money even when the value of your investments goes down 5) How as a homeowner you can invest, even if you have no money to invest 6) How safely lending money directly to businesses and other people is a win-win solution 7) The low risk investments the author has personally made This isn't a get rich quick system and strictly avoids trading, speculating, gambling or any other risky ventures. These are all simple, low risk strategies that rely on steady growth to achieve long-term wealth. Supercharge Your Money is focused on investments and strategies available to British savers (some of which are unique to the UK) avoiding the need to wade through irrelevant information. If you have money languishing in a savings account at the moment, you need to read this book. If you have a mortgage, or are about to take out a mortgage, you need to read this book.

Welcome to the Elite Savers of America Joshua King,2023-08-31 Can you save \$10,000 in a high-yield savings account (HYSA)? It is no easy task, but I believe in you. The first step is understanding why saving money is vital to our future. We cannot pause our lives with every emergency that arises. Next, we must understand that our emergency fund should not be used frequently or randomly. In fact, we should aim never to use these funds. Finally, we must create additional income streams to increase our savings rate and cash flow. If we can do all these things, we will become members of the Elite Savers of America. Welcome!

Savings Groups at the Frontier Candace Nelson,2012-10 Maximum transparency, a profitable structure for saving, access to small loans and an annual lump sum of capital are the hallmarks of the Savings Group methodology. The outcome: empowered groups, made up mostly of women, who manage themselves as tiny financial institutions.Today there are Savings Groups in 60 countries with over 6 million members

Series I Bonds Vs. Index Funds Joshua King,2023-02-13 The act of saving money is difficult for most human beings. Becoming an investor takes a level of confidence and foresight that most will never possess. How do you go from a saver to an investor? In short, slowly. That's right; you gradually build your trust in the markets. Congratulations if you have bought at least one Series I Bond. You have done more toward your financial well-being than most. But, you will reach an annual limit with Series I Bonds and some heavy taxes. To continue growing our wealth, we must leap to index funds. I appreciate that it will be a terrifying transition, but it's time. Don't worry, new investing apps make it simple to invest \$5/week into green index funds. You can do this! Good Luck!
