The Financial Services Guide to Fintech Devie Mohan, 2020-01-03 Fintech has emerged as one of the fastest growing sectors in the financial services industry and has radically disrupted traditional banking. However, it has become clear that for both to thrive, the culture between fintech and incumbent firms must change from one of competition to collaboration. The Financial Services Guide to Fintech looks at this trend in detail, using case studies of successful partnerships to show how banks and fintech organizations can work together to innovate faster and increase profitability. Written by an experienced fintech advisor and influencer, this book explains the fundamental concepts of this exciting space and the key segments to have emerged, including regtech, robo-advisory, blockchain and personal finance management. It looks at the successes and failures of bank-fintech collaboration, focusing on technologies and start-ups that are highly relevant to banks' product and business areas such as cash management, compliance and tax. With international coverage of key markets, The Financial Services Guide to Fintech offers practical guidance, use cases and business models for banks and financial services firms to use when working with fintech companies.

Canada Among Nations, 2011-2012 Alex Bugailiskis, Andrés Rozental, 2012-02-21 In the decade following the signing of the North American Free Trade Agreement, economic and political relations between Canada and Mexico have expanded significantly. Today, Canada and Mexico are each other's third largest trading partners and, outside of the United States, Mexico is the second largest tourist and business destination for Canadians. In the face of increasing competition from Asia, Canada and Mexico need to strengthen their economic competitiveness by leveraging their comparative advantages more effectively. In a multi-polar world, Canada and Mexico have an opportunity to utilize their North-South partnership to provide leadership on the pressing issues of our time, such as climate change, transnational crime, and global crisis management. In *Canada Among Nations, 2011-2012* a leading group of Canadian, Mexican, and American academics, policy makers, politicians, journalists, and energy and climate change experts offer substantive recommendations for Ottawa and Mexico City to realise the full potential of their strategic relationship. *Canada Among Nations* is the premier source for contemporary insight into pressing Canadian foreign policy issues. This volume continues that tradition by providing students, policy makers, and business people with a timely compendium of expert opinion on Canada-Mexico relations.

Globalization, the IMF, and International Banks in Argentina Christian Hernandez, 2019-08-27 This book examines how the ideas, interests, and biases of international financial institutions, private banks, and the press affect economic and political change during periods of crisis. It suggests that the monetary and financial trials of Argentina then and now serve as a microcosm for the Western world's current backlash against globalization.

For Folk's Sake Erin Morton, 2016-11-01 Folk art emerged in twentieth-century Nova Scotia not as an accident of history, but in tandem with cultural policy developments that shaped art institutions across the province between 1967 and 1997. *For Folk's Sake* charts how woodcarvings and paintings by well-known and obscure self-taught makers - and their connection to handwork, local history, and place - fed the public's nostalgia for a simpler past. The folk artists examined here range from the well-known self-taught painter Maud Lewis to the relatively anonymous woodcarvers Charles Atkinson, Ralph Boutilier, Collins Eisenhauer, and Clarence Mooers. These artists are connected by the ways in which their work fascinated those active in the contemporary Canadian art world at a time when modernism - and the art market that once sustained it - had reached a crisis. As folk art entered the public collection of the Art Gallery of Nova Scotia and the private collections of professors at the Nova Scotia College of Art and Design, it evolved under the direction of collectors and curators who sought it out according to a particular modernist aesthetic language. Morton engages national and transnational developments that helped to shape ideas about folk art to show how a conceptual category took material form. Generously illustrated, *For Folk's Sake* interrogates the emotive pull of folk art and reconstructs the relationships that emerged between relatively impoverished self-taught artists, a new brand of middle-class collector, and academically trained professors and curators in Nova Scotia's most important art institutions.

Cemeterians Jack W. Plunkett, 2008 Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Bearers of Risk Neta Gordon, 2022-04-15 The short story and the short story cycle have long been considered a marginal genre, free to make room for fresh or risk-taking voices. But in thematizing masculinity in crisis, the genre uses the premise of the marginal to elevate recuperative masculinity politics and nostalgia for traditional patriarchy. Despite the scholarly tendency to link marginal genres and marginalized voices, features of the CanLit infrastructure - including genre criticism and literary prize culture - are complicit in normalizing hegemonic masculinity and the Settler colonial project. *Bearers of Risk* examines how male Canadian writers mobilize the early twenty-first-century short story cycle as an illustration of post-9/11 recuperative masculinity politics, exposing the tendency to position White, heteronormative men's viewpoints as objective. Neta Gordon introduces the civil bearer of risk, a figure who comprehends the position of men as being marked by or for failure, and who reasserts masculine authority as civil duty towards community. This book looks at contemporary experimental short story cycles, debut cycles by ethnically minoritized and immigrant writers, and cycles unified by setting, whether suburban, urban, or rural. *Bearers of Risk* unsettles popular notions of the inherent outsider status of the short story cycle while also scrutinizing expressions of recuperative masculinity politics through which men assert their right to reclaim the centre.

Financial Accounting Paul D. Kimmel, Jerry J. Weygandt, Donald E. Kieso, 2020 The new eighth edition of *Financial Accounting: Tools for Decision-Making*, Canadian Edition by Kimmel, Weygandt, Kieso, Trenholm, Irvine and Burnley continues to provide the best tools for both instructors and students to succeed in their introductory financial accounting class. This hands-on text, paired with a powerful online teaching and learning environment offers students a practical set of tools for use in making business decisions based on financial information.

A Handbook of Corporate Communication and Public Relations Sandra Oliver,2004-04-22 A bold addition to existing literature, this book provides an excellent overview of corporate communication. Taking an interdisciplinary approach, it offers readers the in-depth analysis required to truly understand corporate communication, corporate strategy and corporate affairs as well as the relevant public relations issues. Its four sections cover: national communication international communication image, identity and reputation management the future for corporate communication theory and practice. What Sponsors Want: An Inspirational Guide For Event Marketers Mark Harrison,2020-08-27 This book offers a practical but conceptually grounded view of the future of sponsorship. It is based on the reality that the world of sponsorship marketing is far too focused on impressions, logos, and 'money can't buy experiences' — experiences which are miraculously secured with money. The author asks questions such as: 'Do any corporate sponsors really believe that more logos are what their consumers want?' and, 'do organizations selling sponsorship believe they have nothing more valuable to sell than digital and physical signage?'In a culmination of real-life experiences, industry learnings and third-party professional research, What Sponsors Want provides expert-supported arguments to show that the traditional bronze, silver and gold packages of sponsorship belong to a model of the past. In outlining the conceptual model for successful sponsorship, this book provides five key principles of what sponsors want for you to take on your next sponsorship challenge.
