Heroes Mike Larson, 2008-09 Even today, my thoughts of Vietnam are positive. I have incredibly fond memories of spending one year in that theater with some incredible people. My feelings about the Vietnam War mesh exactly with what Michael Norman wrote in his book *These Good Men: Friendships Forged From War*—even though Norman's heroes served in the U.S. Marine Corps and mine

served in the First Air Cav. In recalling his tour in Vietnam, Norman wrote: I did not pick these men. They were delivered by fate and the U.S. Marine Corps. But I know them in a way I know no other men. I have never since given anyone such trust. They were willing to guard something more precious than my life. They would have carried my reputation, the memory of me. It was part of the bargain we all made, the reason we were so willing to die for one another.

Six Days from Sitka Brad Watkins,2006-06-16 After being wrongly accused of murdering his father, Matt Albright drops out of high school and flees his broken life in Bonners Ferry, Idaho, for the only other place he knows-Seattle. What Matt doesn't realize is that his job washing boats at the local marina will lead to his dream trip of helping a multimillionaire, KT, pilot his yacht from Seattle to Sitka, Alaska. Unfortunately, KT dies from a heart attack just days before reaching Sitka. The question of whether to turn back or continue on is answered in several letters and an unusual necklace Matt finds in a wooden sea chest KT is clutching when he dies. The letters explain that KT intended to deliver the necklace to the gravesite of a lost love. The remainder of the journey is anything but easy as Matt encounters rough seas, engine trouble, illegal border crossings, and captivity when the crooked sheriff from Bonners Ferry finally catches up with him. Matt eventually makes it to Sitka, only to discover that KT's lost love is not buried in the location mentioned in the letters from the sea chest. Can Matt muster enough patience and persistence to solve the mystery waiting for him in Sitka?

Bad Shadou Capulet Poehner,2017-05-04 YOU HAD ONE JOB Something really bad is about to happen. It will start at Mount Rainier, but it's going to be big, bigger than anything ever before. The most evil force ever known—older than the universe—will soon be unleashed on Earth. Quaru has

been buried for centuries. Buried alive ... with nothing but time to figure out how to get out. Then his guard makes a mistake. And in a fierce explosion of rock and ash, the ancient evil is loose Once He consumes a planet, and brings it into His universe, He can enslave those sentient beings He despises so much, and make them do His bidding. Shadou, the friendly but forgetful guard, must return Quaru to his mountain prison. But he needs help. And for that, he turns to Elle Redfern, snarky American teenager and keeper of a secret talent You got sent here to Earth, carrying the most dangerous thing in the universe, and then you let it dig a tunnel out of its prison, and you're just all like, 'Sorry people, my bad'! On a dystopian landscape of ash and desolation, a small band of shaken survivors led by Shadou and Elle set out on a collision course with the most powerful entity imaginable We'll have one shot to break into that firewall and discover His weakness. You are the only being on this planet capable of such a feat. And that's just the beginning of a multi-volume epic of Earth and space, reluctance and redemption, duty and sacrifice ...

Song for My Father Stephanie Stokes Oliver, 2004 Song for My Father is a daughter's memoir of her father, Charles M. Stokes, a prominent African-American member of the National Republican Party. Known as Stokey, he was born just forty years after the abolition of slavery. But by the time he became a pioneer in the fields of law, legislation, and politics-during the turbulent and transformative 1960s and 70s-contemporary associations of the GOP with the party of Lincoln had faded. Stokes's choice to remain a Republican against the tide of black Democratic political loyalty took courage. He would live to become Seattle's first black state legislator and serve as Washington State's first African-American district court judge.

Dog Medicine Julie Barton, 2016-07-19 An honest and deeply moving debut memoir about a

young woman's battle with depression and how her dog saved her life A New York Times Bestseller "Dog Medicine simply has to be your next must-read." —Cheryl Strayed At twenty-two, Julie Barton collapsed on her kitchen floor in Manhattan. She was one year out of college and severely depressed. Summoned by Julie's incoherent phone call, her mother raced from Ohio to New York and took her home. Haunted by troubling childhood memories, Julie continued to sink into suicidal depression. Psychiatrists, therapists, and family tried to intervene, but nothing reached her until the day she decided to do one hopeful thing: adopt a Golden Retriever puppy she named Bunker. Dog Medicine captures the anguish of depression, the slow path to recovery, the beauty of forgiveness, and the astonishing ways animals can help heal even the most broken hearts and minds.

Protest on Trial Kit Bakke, 2021-09-13 The Seattle 7 embodied late 1960s counterculture-- young, idealistic, active organizers against racism and the Vietnam War, and fond of long hair, rock'n'roll, sex, drugs, and parties. In January 1970 they founded the Seattle Liberation Front (SLF). Nationally, the FBI was using tactics such as wiretapping, warrantless break-ins, and the placing of informers and provocateurs to destroy organizations like the SLF. But in Seattle, it went a step further. After a protest at Seattle's downtown federal building turned violent, seven SLF leaders--Michael

Abeles, Jeff Dowd, Joe Kelly, Michael Lerner, Roger Lippman, Chip Marshall, and Susan Stern--faced federal conspiracy and intent to riot indictments. Their chaotic trial became a crash course in the real American judicial system. Carl Maxey and Michael Tigar led the defense team; the U.S. prosecuting attorney was Stan Pitkin. When Pitkin's key witness faltered and the government's case appeared doomed, the presiding judge issued a surprise ruling to end the trial and send the defendants to prison. For this solidly researched oral history, the author conducted dozens of interviews with defendants, attorneys, FBI agents, jurors, and others. She also accessed the trial transcript, appeals briefs and depositions, media articles, books, and more.

Teresita Fernández Teresita Fernández, 2009 Teresita Fernández is internationally known for her immersive installations and evocative large-scale sculptures that address space, light, and the perception of change. The exhibition is curated by USF Institute for Research in Art Chief Curator, David Louis Norr and will present a spectrum of the artist's most recent and ambitious projects, including a new sculpture and a room sized installation created specifically for this exhibition. Teresita Fernández, one of the most accomplished artists of her generation, is recognized for her deft ability to transform common materials and processes into dazzling cinematic illusions, blending abstraction, reflection, and transparency into potent configurations of projection and play. Nature and perception are the schematic sources for Fernandez' picturesque materializations. Clouds, trees, water, and fire--in patterned formations of polished stainless steel, glass, plastic, and thread--double as screens, mirrors, and lenses, and vacillate between object and optical phenomena. Much like shadows or ghosts, Fernandez' doubled forms reside in the folds and margins of perception--a tangled overlay of absence and presence, nature and artifice. I am interested in the projection of the body, in an imaginary, kinesthetic way, penetrating history and distance cinematically, almost like a daydream,

she explains. It's as if, through visual pleasure, your gaze positions you in a place without actually being there. Indeed, for Fernández, how one sees is as relevant as what one sees. Featured among the works in the exhibition is *Vertigo* (sotto en su) from 2007. Made in collaboration with USF Graphicstudio, *Vertigo* is comprised of layers of precision-cut, highly polished metal, woven into a reflective and intricate arboreal pattern suspended high above the viewer--not unlike an immense, cascading tree branch. The multiple planes of space, through which the viewer looks, become visible simultaneously, vacillating between object and optical phenomena, continuously disassembling and reassembling. The idea that one must turn away from nature in order to see it is a loaded concern at the crux of Fernández' new works, states David Norr. Nature, for Fernández, is a fabrication of culture where cinematic illusions, industrial design and lasting ephemeral experience intertwine--collapsing artifice and nature into prismatic experience.

Below Sunlight Ryan Smith, 2010-04-01 For twenty-three years Sam has lived an ordinary life in Seattle with his mother, sister, and friends. But after a romance with his girlfriend ends in tragedy, Sam escapes to New Mexico in hopes of finding adventure and leaving his past, family, and friends a distant memory. In Albuquerque, a place filled with sun and blue skies and where he is a stranger, Sam meets Lola, an angel-obsessed woman with secrets of her own, who invites him to be a part of her close-knit circle. *Below Sunlight* is a gripping, and sometimes funny, story of addiction, lust, sorrow, and the burden dark secrets carry.

Ole Manuʻo O Tala TuʻU Ma Fisaga O Tala Ave Amerika Samoa Humanities Council, 2018-04-06 Home is where our stories begin and where our future is shaped. It is a place where family history and identity are nurtured and grown to advance in life. Before European explorers and the missionaries arrived on our shores, our people connected through generations by

oral history in the forms of stories and narratives. The human ties to our home, land, and identity were kept strong by tales and songs that were passed on by our forefathers through word of mouth. Wisdom and information were transmitted through living the culture and speaking the language of the land. An astute student of culture and language developed a close-knit fellowship with the elders and village council, and later in life, he became a strong and wise leader in the village. In Samoa, our cultural values influence the pattern of which we relate to people and to our surroundings; thus, the Samoan culture exists today as a living culture. The future of any young Samoan man and woman is cultivated and encouraged from within his or her home. The title for this project pays tribute to the wisdom and the untiring labor of our forefathers, who have been stewards of an oral tradition since the prehistoric era of the Samoan islands. Echoed in these words: Ole Manu o Tala Tuu Ma Fisaga o Tala Ave, metaphorically transcends our appreciation for the heralding of our oral history and relishing of our story narratives. The stories shared here embraced the significance of knowing who we are and where we came from. This work is the councils way to document the stories of yesterdays and todays generations to encourage success in the lives of tomorrows generation.
