### **Radio's Second Century** John Allen

Hendricks, 2020-03-13 Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary, *Radio's Second Century* investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. *Radio's* impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is

also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium--radio.

This installment in the MBI Battle Gear series, like the previously published Weapons of Delta Force (0-7603-1139 0), will detail in 150 photographs all of the weapons, vehicles, gear, and high-tech gadgets that the SEALs use in their operations. Photographs show SEALs utilizing weapons, watercraft, aircraft, SCUBA equipment, and more in live-action exercises, bringing the reader into the midst of the action. In Battle Gear fashion, the book also includes a chapter describing the techniques SEALs use, as well as glossaries of terms and military abbreviations.
