In/security in Colombia Josefina A. Echavarría,2013-07-19 Based on geo- and biopolitical analyses, this book reconsiders how security policies and practices legitimate state and non-state violence in the Colombian conflict. Using the case study of the official Democratic Security Policy (DSP), Echavarría examines how security discourses write the political identities of state, self and others. She claims that the DSP delimits politics, the political, and the imaginaries of peace and war through conditioning the possibilities for identity formation. In/security in Colombia offers an innovative application of a large theoretical framework on the performative character of security discourses and furthers a nuanced understanding of the security problematique in a postcolonial setting. This wide-reaching study will benefit students, scholars and policy-makers in the fields of security, peace and conflict, and Latin American issues.

Continuereste ad amare qualcuno nonostante tutto, reggendo il fardello di tutti i nonostante del tempo? The Stronghold Xan Fielding,2013 During the Second World War, Xan Fielding served for two years as an officer in the British Special Operations Executive on German-occupied Crete, where he ran an intelligence network in co-operation with the Cretan resistance movement. Seven years later, Fielding returned to Crete to spend a year travelling in the island's White Mountains (the stronghold of the title), revisiting sites of his wartime exploits and seeking out former comrades who had returned to their peacetime lives. His sojourn resulted in this remarkable memoir, a documentary-like record of days spent among Cretan peasants blended with history and literature -- a travelogue like no other. The Stronghold is a blending of history and culture with experience, but one wedded to fidelity. Fielding never arrives; there is no great journey of self. There is just a question answered about the war and youth ... he can't shake Crete, as no man can shake the formative experience of his youth. -- from the new foreword by Robert Messenger

Overcoming James J. Rondinone,2012-04 Overcoming teaches those from every walk of life how to experience God's presence, love, joy, and peace. God wants to help us learn how to think differently about ourselves according to his word in whatever area that we have weakness in. He wants to help us by providing a new way of thinking. This new way of thinking is contained in his word, and is applied here in this book to help you target and root out potential areas of weakness. Apply God's divine prescription for each one and this verse will become a reality in your life: John 8:32 And ye shall know the truth, and the truth shall make you free.

With warmth and insight, the author draws out the lessons David learned in his turbulent life with the Lord and the rich gems he has bequeathed to followers of God today.
