The Medieval European Stage, 500-1550 William Tydeman,2001-09-27 This volume brings together a wide selection of primary source materials from the theatrical history of the Middle Ages. The focus is on Western Europe between the fall of the Roman Empire and the emergence of markedly Renaissance forms in Italy. Early sections of the volume are devoted to the survival of Classical tradition and the development of the liturgical drama of the Roman Catholic Church, but the main concentration is on the genesis and growth of popular religious drama in the vernacular. Each of the major medieval regions is featured, while a final section covers the pastimes and customs of the people, a record of whose traditional activities often only survives in the margins of official recognition. The documents are compiled by a team of leading scholars in the field and the over 700 documents are all presented in modern English translation.

Princess Sendal Jepit Agyasaziya Raziev,2013-09-23 Cinta itu apa sih? Hati mendefinisikan cinta dengan berbagai cara, kata, dan rasa. Menurut gue cinta itu adalah enigma yang disiapkan Tuhan dengan sangat sempurna. Tugas manusia adalah mengatur strategi bagaimana menyusunnya menjadi satu keabadian yang utuh. So menjaga cinta yang tumbuh di hati itu sama kayak menjaga diri pas terlempar ke zaman Gladiator. Gak bisa menaklukkan lawan buasmu yang berbentuk nafsu, bisa dipastikan lo bakal mati dengan cara yang mengenaskan. Terus gimana cara agar kita gak terjebak dengan cinta yang keliru? Dan gimana biar strategi cinta kita tetap ada di jalur-Nya? Di buku ini semua hal itu dikupas secara legit. Terus kenapa nama buku ini Princess Sendal Jepit? Ehm Princess Sendal Jepit adalah kumpulan cerita bukan KW, alias original yang dialami Agyasaziya Raziev, blogger cewe imut yang selalu dianggap oon bin oncom, dan udah malang melintang di dunia persendalan sejak zaman SD sampe kuliah eeh maksudnya dunia fana. Hehehe.

Rahasia Sendal Jepit Mantan Roseminie, Sebuah kumpulan cerpen tentang rahasia, sendal jepit, mantan dan banyak cerita lain yang menggugah perasaan, penuh hikmah.

MINDFUL THINGS Mya Duong,2017-12-01 Nineteen-year-old Lauren Reed has always felt peculiar. She has no memory of her past after her parents’ mysterious deaths, and her unusual emerald eyes and severe migraines reinforce her sense of being an outsider. With her sophomore year of Northwestern about to begin, Lauren can’t wait to escape her adoptive parents’ overprotectiveness and move in with her best friend, Raegan, for a fresh start. Unfortunately, her plan is thwarted when a strange note in her parents’ study leads to a frightful vision of a woman running for her life. Lauren’s other senses also start to heighten—especially after she meets the very handsome and charming Quinn Maxwell. As her visions and connection to Quinn strengthen, Lauren is stalked by an irate man with a cryptic warning: Raefield is coming for her, and she better not resist, or everyone will suffer. Frightened and confused, Lauren digs into her past, looking for answers. She is shocked to discover her biological parents were witches. Their lifesaving magic triggered her evolving abilities, which is why she’s being hunted by Raefield, a power-hungry madman. Although her parents’ coven swears to protect her, Lauren must willingly embrace her new powers or risk a dark fate.

Darkland Elf Terry Spear,2018-11-25 As a motivational inspirer, Eloria's mission is to convince her friend Persephonice to leave the elf world behind. She knows that if she can't, she will be stuck in their world herself. But what she finds in the primitive elf world is magic and a connection she never thought possible. Viator is a prince of the darkland elves and captures one of those extraordinary creatures like Persephonice to turn over to his father, but his people worry about the prophecy where a girl from another world would take over their kingdom. He's not giving her up as he realizes he needs her to help fulfill his mission to make his wings transparent. And she has to see where his dangerous quests will take them both...if they can survive the trials.

The Oxford Handbook of History and Material Culture Ivan Gaskell,Sarah Anne Carter,2020-04-07 Most historians rely principally on written sources. Yet there are other traces of the past available to historians: the material things that people have chosen, made, and used. This book examines how material culture can enhance historians' understanding of the past, both worldwide and across time. The successful use of material culture in history depends on treating material things of many kinds not as illustrations, but as primary evidence. Each kind of material thing-and there are many-requires the application of interpretive skills appropriate to it. These skills overlap with those acquired by scholars in disciplines that may abut history but are often relatively unfamiliar to historians, including anthropology, archaeology, and art history. Creative historians can adapt and apply the same skills they honed while studying more traditional text-based documents even as they borrow methods from these fields. They can think through familiar historical problems in new ways. They can also deploy material culture to discover the pasts of constituencies who have left few or no traces in written records. The authors of this volume contribute case studies arranged thematically in six sections that respectively address the relationship of history and material culture to cognition, technology, the symbolic, social distinction, and memory. They range across time and space, from Paleolithic to Punk.

Medieval Arms and Armour Ralph Moffat,2022 Authoritative reference guide, using the documents in which arms and armour first appeared to explain and define them.A

substantial and impressive piece of scholarship, one that will serve scholars and enthusiasts of medieval arms and armour very well indeed. Dr Robert W. Jones, Franklin and Marshall CollegeMedieval arms and armour are intrinsically fascinating. From the smoke and noise of the armourer's forge to the bloody violence of the battlefield or the silken panoply of the tournament, weapons and armour – and those who made and bore them – are woven into the fabric of medieval society. This sourcebook will aid anyone who seeks to develop a deeper understanding by introducing and presenting the primary sources in which these artefacts are first mentioned. Over a hundred original documents are transcribed and translated, including wills and inventories, craft statutes, chronicle accounts, and challenges to single combat. The book also includes an extensive glossary, lavishly illustrated with fifty-two images of extant armour and weapons from the period, and contemporary artistic depictions from illuminated manuscripts and other sources. This book will therefore be of interest to a wide audience, from the living history practitioner, crafter, and martial artist, to students of literature, military history, art, and material culture.images of extant armour and weapons from the period, and contemporary artistic depictions from illuminated manuscripts and other sources.
