Games Bill Pronzini, 1972 A new thriller in the tradition of Pronzini's *Snowbound*, a shivery, spine-tingling it-could-happen suspense story... a real rouser. "Publishers Weekly The rich and powerful Jackman family had always had an obsession with successful gamesmanship—whether in the parlor, the bedroom, or in national politics. When Senator David Jackman plans an escape from Washington pressures through a long, idyllic weekend with his lover on the family's lavish island estate, he has no reason to suspect that he will leave buried there forever the man he had become. No sooner do Jackman and Tracy arrive than the evidence begins to mount that they are not alone on the island. The threat quickly becomes dramatically real and the couple are soon running for their lives. Jackman knows the island well from his boyhood summers there and instinctively resorts to superb gamesmanship in eluding the pursuers—until Tracy is captured in a scene guaranteed to send chills up the reader's spine. It is a deadly and terrifying game that then begins in earnest, full of subtle clues that are as tantalizing and challenging as they are threatening. Trapped, exhausted, apparently doomed—truly defeated for the first time in his life—Jackman undergoes a catharsis and a revelation which change both his personality and his fate. He will play one final game, and with grim confidence he brilliantly plans and executes a turnabout on his tormentors which leads to a truly thrilling and action-packed triumph.

Never Knows Best Fraser Simons,2019-11-14 Note that this is the limited, pre-final release or ashcan edition of the game. Never Knows Best is a roleplaying game about middle school kids facing impending adulthood, growing up, and society's--sometimes nonsensical-expectations and obligations. It's designed for three-five players plus a game master (GM) who facilitates the game. This game uses absurdism, metaphors, motifs, and literalization to represent the struggles and growth these kids go through. Society's obligations and expectations manifest as outrageous forms-creatures and monsters not of this world. The kids combat these creatures by transforming into robots. Whenever a kid transforms, their robot takes on their unique strengths and traits representing how they reject society's attempts to make kids conform and obey. In this way, the internal conflict kids face when growing up becomes something real and seen. Battles are metaphors for their inner turmoil about who they are, where they fit in, and who they want to be.
