Sergio Sees the Good: The Story of a Not So Bad Day (Henry & Friends Mindfulness Series) Linda Ryden,2019-02-05 Sergio is amazed to discover that even on a day that felt awful, the good outweighed the bad. When a downcast Sergio gets home from a bad day at school, his wise mother listens sympathetically to his tale of woe and then suggests an experiment. Placing a bowl of marbles next to Grandfather's old balance scale, she asks him to go back to the beginning of his day and remember each good and bad thing that happened. For each bad thing, he places a marble on the right-hand pan of the scale; for each good thing he places a marble on the left-hand pan. Sergio is amazed to discover that even on a day that felt awful, the good outweighed the bad.

14 Miles DW Gibson,2021-07-27 An esteemed journalist delivers a compelling on-the-ground account of the construction of President Trump's border wall in San Diego—and the impact on the lives of local residents. In August of 2019, Donald Trump finished building his border wall—at least a portion of it. In San Diego, the Army Corps of engineers completed two years of construction on a 14-mile steel beamed barrier that extends eighteen-feet high and cost a staggering \$147 million. As one border patrol agent told reporters visiting the site, “It was funded and approved and it was built under his administration. It is Trump's wall.” 14 Miles is a definitive account of all the dramatic construction, showing readers what it feels like to stand on both sides of the border looking up at the imposing and controversial barrier. After the Department of Homeland Security announced an open call for wall prototypes in 2017, DW Gibson, an award-winning journalist and Southern California native, began visiting the construction site and watching as the prototype samples were erected. Gibson spent those two years closely observing the work and interviewing local residents to understand how it was impacting them. These include April McKee, a border patrol agent leading a recruiting program that trains teenagers to work as agents; Jeff Schwilk, a retired Marine who organizes pro-wall rallies as head of the group San Diegans for Secure Borders; Roque De La Fuente, an eccentric millionaire developer who uses the construction as a promotional opportunity; and Civile Ephedouard, a Haitian refugee who spent two years migrating through Central America to the United States and anxiously awaits the results of his asylum case. Fascinating, propulsive, and incredibly timely, 14 Miles is an important work that explains not only how the wall has reshaped our landscape and countless lives but also how its shadow looms over our very identity as a nation.

Kant and Animals John J. Callanan,Lucy Allais,2020-04-23 This is the first edited collection devoted entirely to the question of the role of animals in the thought of Immanuel Kant. Though the topic is not one treated systematically in his work, mentions of animals occur throughout his corpus in relation to many of his central concerns. In this volume, a team of leading scholars address issues ranging over Kant's theoretical and practical philosophy, including questions regarding the possibility of objective representation and intentionality in animals, the role of animals in Kant's scientific picture of nature, the status of our moral responsibilities to animals' welfare, and more. It also includes chapters concerning contemporary questions relating to animals and Kantian ethics and metaethics, making a use of Kant's philosophy to help contend with one of the most crucial ethics issues facing us today.

SDG 14: Life Below Water Sergio Rossi,2022-11-23 This book focuses, in seven chapters, on the perspectives and solutions that different research groups offer to try to address problems related to SDG 14: Life Below Water. The different objectives developed in SDG 14 are treated independently, with an attempt to give a global vision of the issues. The mechanism used to select the book's content was through an Artificial Intelligence program, choosing articles related to the topics by means of keywords. The program selected those articles, and those that were not related to the topic or did not focus on SDG 14 were discarded by a subject matter expert. Obviously, the selection was partial and the entire subject is not covered, but the final product gives a very solid idea of how to orient ourselves to delve deeper into the topic of SDG 14 using published chapters and articles. The AI program itself selected the text of these contributions to show the progress in different topics related to SDG 14. This mode of operation will allow specialists (and non-specialists) to collect useful information for their specific research purposes in a short period of time. At a time when information is essential in order to move quickly by providing concrete answers to complex problems, this type of approach will become essential for researchers, especially for a subject as vast as SDG 14.

Sergio Natasha Knight, I'm the first-born son of the mafia king. The favorite. Destined to rule, I'm a dangerous man, a ruthless one. But in my world, you have to be. Then Natalie stumbles into my life. Wrong place. Wrong time. Twice, fate put her in my path. Twice, fate placed the innocent lamb at the mercy of the monster. I gave her a chance to walk away. Told her it would be better for her if she did. But she didn't listen. And now it's too late. Because I'm not good. I never wanted to be. And I won't let her go anymore. See, I'm not the hero. When I touch her, it's with dirty hands. I know my reckoning is coming though. I know I'll burn for the things I've done, the sins I've committed. And I don't deny hell is where I belong, but I want my time first. I want my time with her. She's mine. Forever. No matter what. Author's Note: Sergio is an emotional romance set in the Benedetti Mafia world. It is not a traditional romance. It is recommended that you read both Salvatore: a Dark Mafia Romance and Dominic: a Dark Mafia Romance before reading Sergio's story.

Chasing the Flame Samantha Power,2008-02-14 Now a Netflix biopic, Sergio, with Narcos star Wagner Moura playing diplomat Sergio Vieira de Mello. The best way to understand today's messy world is to read about the inspiring life and diplomatic genius of Sergio Vieira de Mello. –Walter Isaacson Before his death in 2003 in Iraq's first major suicide bomb attack, Sergio Vieira de Mello--a humanitarian and peacemaker with the United Nations--placed himself at the center of the most significant geopolitical crises of the last half-century. He cut deals with the murderous Khmer Rouge in Cambodia, forcibly confronted genocidal killers from Rwanda, and used his intellect and charisma to try to tame militant extremists in Lebanon, Afghanistan, and Iraq. Known as a cross between James Bond and Bobby Kennedy, Vieira de Mello managed to save lives in the world's most dangerous places, while also pressing the world's most powerful countries to join him in grappling with such urgent dilemmas as: When should killers be engaged, and when should they be shunned? When is military force justified? How can outsiders play a role in healing broken people and broken places? He did not have the luxury of merely posing these questions; Vieira de Mello had to find answers, apply them, and live with the consequences. With Chasing the Flame, Pulitzer Prize winner and author of The Education of an Idealist Samantha Power offers a profile in courage and humanity--and an unforgettable meditation on how best to manage the deadly challenges of the twenty-first century.

The Hundred Languages of Children Carolyn Edwards,Lella Gandini,George Forman,2011-12-13 Why does the city of Reggio Emilia in northern Italy feature one of the best public systems of early education in the world? This book documents the comprehensive and innovative approach that utilizes the hundred languages of children to support their well-being and foster their intellectual development. Educators in Reggio Emilia, Italy, use a distinctive innovative approach that supports children's well-being and fosters their intellectual development through a systematic focus on symbolic representation. From birth through age six, young children are encouraged to explore their environment and express their understanding through many modes of expression or languages, including verbal communication, movement, drawing, painting, sculpture, shadow play, collage, and music. This organic strategy has been shown to be highly effective, as the children in Reggio Emilia display surprising examples of symbolic skill and creativity. This book describes how the world-renowned preschool services and accompanying practical strategies for children under six in Reggio Emilia have evolved in response to the community's demographic and political transformations, and to generational changes in both the educators and the parents of the children. The authors provide the reader with a comprehensive introduction to the Reggio Emilia experience, and address three of the most important central themes of the work in Reggio in detail: teaching and learning through relationships; the hundred languages of children, and how this concept has evolved; and integrating documentation into the process of observing, reflecting, and communicating.
