*MYRIAD SHADES* shashank bhattacharya,2022-02-23 A step forward to take the first initiative to let people know what a lay man, an ordinary man, a man whose emotions and feelings about life and its varied hues, its demands and expectations plays a vital role. The only difference this book in your hand makes is the plead, pleasure and commitments one make to his life very silently as he doesn't know about its reality where as the writer with the same aspirations tried to voice it through the work of this book. Alas ! Makes you feel the very core of the creations penned down in this book. So each one of you with each piece in your own way, will go through your own way. The incident, narration and character are all imaginative to the best of the writer's creation, any similarity will mere be a coincident. The book is for all age group and the writer feel each one you will find your reflection in this book. Happy reading.

*The Bodhi Valley* Shashank Sharma,2022-09 Bairaag, 32, wants to retire early from his job at Anand Securities, an off-the-books unit of the Army, to go and settle in a mountain town near the Yuvanta mountain range. He wants to open a cafe cum bookstore in the vicinity of the Bodhi valley. The cafe, he thinks, should be aptly named Cafe Bairaag; and there he'd pursue his passion for poetry, arranging cultural and artistic events. But his CO wants him on one last mission to help the Army find the very first books of the holy Quraan and the holy Geeta; The relics which were handwritten and had been under extreme security for centuries till went missing. And the whole country is now crippled by a dangerous blame game that has resulted in a nationwide riot. Sounds doable for a man with the caliber of Bairaag, but the mission hides fatal consequences behind its simple facade. How far would Bairaag go to save his country from the prejudices of a religious conflict when patriotism has always been subjective to him? Would he be able to withstand the overwhelming pressure of his job and scores of brainwashed terrorists who mean nothing but destruction? What would happen to the idea of a peaceful life he so desires? Would he be able to retire after all? Would Cafe Bairaag ever see the light of day?

*One Day You Will Reach The Top* Sekhar Shashank,2020-08-01 This life is a mysterious journey. It is like a Plant which gives shelter to flowers and thorns on the same branch. This book tells such a story of a young man named Rahul, a small town young boy, who falls in love with a lovely girl named Reema. He wants to marry the girl, but his dream shatters when Reema refuses, for they belong to different casts. Despite being in deep love with Rahul, she had to sacrifice her happiness in order to prove herself a good girl and save her family social reputation. Reema's parents fix her marriage with a boy from their caste. The separation causes an unbearable pain to Raoul. He loses interest in his life, abandons his city forever and moves to hardware. Rahul wants to lead the rest of his life as a recluse, a kind of deliberate punishment that he had chosen to obliterate the memory of Reema from his heart, but his destiny wants to take him somewhere else. It chisels a different man out of him and gives him a chance to climb the world's highest peak: Mount Everest. At the very moment, echoes reema's words in Rahul's ears: one day you will reach the top. Will Rahul be able to prove her words true? Be ready to read the story full of love, heartbreak, pain, separation and about transformation of an ordinary young boy.

Adventures unfold in various locations around the world with themes of displacement, isolation, and hardship often present. The stories have been written between 2015 and 2019. This collection is suitable for lovers of literary fiction. Glass Streams is Shashank Mane's second collection of short stories.

*Chakras of Life* Shashank Rana,2017-10-13 Each day, many of our actions are repetitive. We call them routine. We sometimes feel good when everything happens according to the routine, as routine is ordinarily considered safe. Anything out of the ordinary is not good and therefore we do not want change in our lives and we try to make our lives as similar to the other seven billion people on the planet as possible. This routine, regularity, ordinary, lack of change makes our lives monotonous, predictable and for some people, good. This book is about someone who was on the path of righteousness, who had decided to reach his final destination, someone who was happy in his solitary life until a good man changed everything for him. This is a story of someone who became ordinary from extra-ordinary and lost the purpose.pentopublish2017

Proceedings of SECON'19 Kaustubh Dasgupta,A. S. Sajith,G. Unni Kartha,Asha Joseph,P. E. Kavitha,K.I. Praseeda,2019-12-17 This book gathers peer-reviewed contributions presented at the 3rd National Conference on Structural Engineering and Construction Management (SECON'19), held in Angamaly, Kerala, India, on 15-16 May 2019. The meeting served as a fertile platform for discussion, sharing sound knowledge and introducing novel ideas on issues related to sustainable construction and design for the future. The respective contributions address various aspects of numerical modeling and simulation in structural engineering, structural dynamics and earthquake engineering, advanced analysis and design of foundations, BIM, building energy management, and technical project management. Accordingly, the book offers a valuable, up-to-date tool and essential overview of the subject for scientists and practitioners alike, and will inspire further investigations and research.

*An Agreement With Destiny* Abdul Sathar P,2021-07-31 A medal is narrating an extraordinary adventurous story about how his owner achieved him. The story happens in two time periods and tells about the important incidents that happened in the life of two police officers. Initially, the story begins with Sharma the sincere police officer when Rahul was just a child. In the later part, the story travels through the professional and personal life of the policeman Rahul. It deals with solving a mystery associated with an unusual murder case, the suspense element and unpredictability - making this story unique. This story shows the personal life of the police officers which has a lot of emotional elements in it along with a good love story happening in Rahul's life. There are a lot of action sequences in this story that will keep the readers engaged. There is an extremely powerful character in this story who has a vital role to play in this story apart from Sharma and Rahul and saying more about that character would be a spoiler.

*Advances in Research on Vegetable Production Under a Changing Climate Vol. 1* Shashank Shekhar Solankey,Meenakshi Kumari,Manoj Kumar,2021-04-09 A considerable change in climate at a global level will impact the vegetable cultivation and agriculture as a whole; subsequently affecting the world's food supply. Climate change per se is not necessarily harmful; the problems arise from extreme events that are difficult to predict (erratic rainfall patterns and unpredictable high and low temperatures), and consequently reduce crop productivity. Vegetables are in general more succulent (have 90% water) and are more sensitive to climatic vagaries. Sudden changes in temperature coupled with irregular precipitation at any phase of crop growth can affect the normal growth, flowering, pollination, fruit setting, fruit development and fruit ripening can decrease the yield. The irregular precipitation can also affect the soil salinity and is a major challenge in many vegetable growing areas. To mitigate the harmful impact of climatic change there is a urgent need to develop adequate adaptation strategies for adverse effect of climate change and the preference should be given on development of heat, cold, drought, flood and salinity stress tolerant genotypes along with climate proofing through conventional and non-conventional breeding techniques. Available evidence shows that there is a high probability of increase in the frequency and intensity of climate related natural hazards due to climate change and hence increases the potential threat due to climate change related natural disasters in the world. This book (Volume- I) will be basically useful for the researchers and postgraduate students with current challenges and mitigation strategies for increasing vegetable production under a changing climate.

Grafit's Wall Ram V,Anand Radhakrishnan,2018-11-15 When an aspiring street artist by the name of Grafit watches the tenements outside his home being razed, he finds an unlikely canvas at the one wall still left standing in the debris. Over the next weeks, he begins creating a mural on the wall, one that chronicles the lives of his friends: a local low-level fixer named Jay who harbours dreams of being a rapper. A brilliant and awkward boy named Chasma who writes love letters between shifts waiting tables at a local Chinese restaurant. And Saira, an aspiring actress with ambitions so fierce that they threaten to consume her and all those around her. As the mural progresses, the story gives us glimpses into these incandescent lives, their hopes and dreams both inspired and impeded by the impossible city that they live in.

Proceedings of SECON'22 Giuseppe Carlo Marano,A. V. Rahul,Jiji Antony,G. Unni Kartha,P. E. Kavitha,M. Preethi,2022-10-29 This book gathers peer-reviewed contributions presented at the 3rd International Conference on Structural Engineering and Construction Management (SECON'22), held in

Angamaly, Kerala, India, on 1-3 June 2022. The meeting served as a fertile platform for discussion, sharing sound knowledge and introducing novel ideas on issues related to sustainable construction and design for the future. **Solving the Climate Crisis through Social Change** Gar W. Lipow,2012-03-12 This book presents an accessible and easy-to-follow argument that the climate crisis is a side effect of inequality and injustice, and demonstrates how strategies such as large-scale social investment will prove far more effective in reducing greenhouse gas pollution than cap-and-trade or other forms of free-market environmentalism. Solving the Climate Crisis through Social Change: Public Investment in Social Prosperity to Cool a Fevered Planet offers a new approach to battling the climate crisis, arguing that the massive waste that caused the current environmental crisis resulted not only from fundamental structural flaws in markets but also from social inequality, lack of democracy, and a deeply flawed foreign policy. Rather than providing the typical doomsday perspective, it offers realistic optimism about the expanding climate crisis, highlighting the convergence between the necessary steps to save the planet and what needs to be done to improve the lives of Americans. The author's discussion of the United States's role in the climate crisis spans subjects as varied as the 17th-century forests of New England, the evolution of housework over 200 years, the American addiction to the automobile, the lettuce fields of California in the 1970s, and the Guano wars in 19th-century Bolivia, Chile, and Peru. This book will appeal to a wide range of readers, from the interested general public to students, academics, professionals, and other experts. The main section presents a clear and accessible survey of the economic, social, and political causes of the climate crisis, accompanied by potential solutions, while extensive appendixes offer in-depth and technical discussions.

**ECAI 2023** K. Gal,A. Nowé,G.J. Nalepa,2023-10-18 Artificial intelligence, or AI, now affects the day-to-day life of almost everyone on the planet, and continues to be a perennial hot topic in the news. This book presents the proceedings of ECAI 2023, the 26th European Conference on Artificial Intelligence, and of PAIS 2023, the 12th Conference on Prestigious Applications of Intelligent Systems, held from 30 September to 4 October 2023 and on 3 October 2023 respectively in Kraków, Poland. Since 1974, ECAI has been the premier venue for presenting AI research in Europe, and this annual conference has become the place for researchers and practitioners of AI to discuss the latest trends and challenges in all subfields of AI, and to demonstrate innovative applications and uses of advanced AI technology. ECAI 2023 received 1896 submissions – a record number – of which 1691 were retained for review, ultimately resulting in an acceptance rate of 23%. The 390 papers included here, cover topics including machine learning, natural language processing, multi agent systems, and vision and knowledge representation and reasoning. PAIS 2023 received 17 submissions, of which 10 were accepted after a rigorous review process. Those 10 papers cover topics ranging from fostering better working environments, behavior modeling and citizen science to large language models and neuro-symbolic applications, and are also included here. Presenting a comprehensive overview of current research and developments in AI, the book will be of interest to all those working in the field.

**Russia’s New Ground Forces** Igor Sutyagin,Justin Bronk,2017-12-22 This Whitehall Paper provides an in-depth analysis of Russia’s Ground Forces, including airborne and naval troops. It examines their role in Russian foreign policy, reforms to units’ equipment and operational roles, performance during combat operations against Ukraine, and current unit deployment locations and purposes in the Central, Southern and Western Military Districts. Russia perceives itself as operating from a position of weakness and surrounded by superior NATO forces. It is pursuing a programme of military reform, both in terms of equipment and structures. The Russian Ground Forces are being geared towards fighting in aggressive, short, sharp and complex operations into enemy territory, as well as being streamlined to increase readiness levels and deployability at short notice. However, operations against Ukraine have required force generation efforts from almost every Russian Ground Forces formation, including those in the Far East, which is evidence that the Kremlin’s ability to sustain even a moderate tempo of operations in the medium term is limited. Furthermore, chronic undermanning and morale issues remain, which will be exacerbated by the political decision to re-establish division-scale formations. In addition, Western sanctions and Russia’s difficult economic situation are severely hampering efforts to extend equipment reforms across the whole force. Russian Ground Forces should not be seen by the West as an unstoppable colossus. However, the West must not ignore the unmistakable Russian efforts to prepare for offensive, high-tempo operations against NATO, and the formidable political will that will use them if given the opportunity.
