**Radar Imaging for Maritime Observation** Fabrizio Berizzi,Marco Martorella,Elisa Giusti,2018-01-24 Based on the experiences of the Department of Information Engineering of the University of Pisa and the Radar and Surveillance System (RaSS) national laboratory of the National Interuniversity Consortium of Telecommunication (CNIT), Radar Imaging for Maritime Observation presents the most recent results in radar imaging for maritime observation. The book explores both the areas of sea surface remote sensing and maritime surveillance providing key theoretical concepts of SAR and ISAR imaging and more

advanced and ad-hoc techniques for applications in maritime scenarios. The book is organized in two sections. The first section discusses the fundamentals of standard SAR/ISAR processing and novel imaging techniques, such as Bistatic, Passive, and, 3D Interferometric ISAR. The second section focuses on the applications and results obtained by processing real data from maritime observations like SAR image processing for oil spill, detection in SAR images and fractal analysis. Useful to both beginners and experts in maritime observation, this book provides several examples of (mainly space-borne) radar imaging of maritime targets. Nevertheless, the same principles and techniques apply to the case of manned or unmanned carriers and to ground and air moving targets.

**Best Editorial Cartoons 2012** Charles Brooks, 2011-12-06 Comic journalism at its best. In 2011, we said farewell to Elizabeth Taylor and Betty Ford and good riddance to Osama bin Ladin. The ever-waning reputation of Pres. Barack Obama prompted Rick Perry, Newt Gingrich, and Donald Trump to put in their bids for the presidential election. While gas prices and the national debt rose higher than the possibility of sending another manned craft into space, the scandalous Casey Anthony trial resurfaced memories of O. J. and Nicole Simpson. The latest annual edition of this collection contains these and many other controversial comments referencing politics, the economy, sports, foreign affairs, government, and pop culture.
