Veterinary Secrets Andrew T. Jones, Andrew T Jones DVM, 2014-05-23 This manual draws from Dr Jones' 17 years' experience in veterinary medicine to provide a comprehensive, step-by-step guide to home pet care and disease remedies. Dr. Jones opens by explaining how he came to question conventional veterinary treatments then began to share his concerns publicly and openly

educate pet owners, empowering them to provide their pets with quality, holistic care at home. Eventually, his efforts led to his expulsion from the British Columbia Veterinary College, resulting in a ban from practicing animal medicine.

The Language of Dogs Justin Silver, David Donnenfeld, 2014-09-23 From the stand-up comic, award-winning dog trainer, founder of the non-profit Funny for Fido, and host of 2021 CBS series Dogs in the City, a hilarious, insightful, and accessible guide to understanding our canine friends. After a decade of fostering and rehabilitating abused animals, Justin Silver decided to devote his life to improving overall pet wellness. He even opened his own full-service pet care clinic and training center, also called The Language of Dogs, in 2005. Now, in this practical and witty book, Silver shares his extensive expertise on canine behavior, training, health, and more. By focusing on strengthening communication between pet and owner, Silver reveals how important and easy it is to truly understand your pet's wants and needs. Compulsively readable and with in-depth advice, remedies, and encouragement, The Language of Dogs provides everything you need for your dog to live its best life with you.

Ellie Jean Silver, 2015 This is the story of Ellie, the dog with the loving heart, who was rescued from a life of scavenging for food on the streets of Auckland. Now she has a forever home and her life is full of adventure and joy. The stories are told as if Ellie is writing them, She loves all dogs and

A Very Merry Guinea Dog Patrick Jennings, 2013-11-01 Rufus's first Christmas with Fido, the guinea pig that acts like a dog, is not what he expected. Shredded wrapping paper, opened presents, a toppled Christmas tree are only some of the ingredients, but the main one is humor.

30 Days to a Well-Mannered Dog Tamar Geller, Jonathan Grotenstein, 2010-10-12 Long known as a dog coach to the stars—her clients include Oprah Winfrey, Ben Affleck, Courteney Cox-Arquette, Owen Wilson, Natalie Portman, and Larry King—Tamar Geller changed the way Americans relate to their dogs with her bestselling book *The Loved Dog*. Her approach is simple and down-to-earth. Instead of utilizing the negative and often painful feedback of physical dominance, choke chains, and prong collars, Tamar recommends love, play, and mutual respect as the keys to a happy home for dog and human alike. Now, Tamar makes her *Loved Dog*™ Method accessible for everyone with this day-by-day guide that will lead you through the first thirty days with your new dog—or help you make a fresh start with your current dog. Drawing on her studies of wolves in the wild and basing her method on the principles of child development, Tamar uses an instincts versus choice approach that satisfies a dog's Seven Basic Needs and will result in a pet with good manners. *30 Days to a Well-Mannered Dog* covers every question commonly asked by people embarking on the momentous journey of dog ownership: why it's

important to choose the appropriate dog for you and your lifestyle, what you can expect from a puppy versus an adult dog, how to introduce your new dog to your home, and how to respond when things don't go according to plan. Tamar guides you every step of the way, from addressing undesired behaviors in your dog to crate and paper training him to introducing him to other dogs and helping him become relaxed with strangers. Included are important but often overlooked tips about the use of words and body language to communicate, the power of play, and the amazing value of teaching your dog some lighthearted pet tricks. Along the way, Tamar debunks myths in need of debunking: that dogs are frequently alpha by nature and need to be dominated; that discipline is the key to dog training, and that success only means getting your dog to do what you want. Instead, she shows how to align your dog's wishes with your own to create a rich and enduring relationship that works wonderfully for you both. Gentle, firm, and effective, *30 Days to a Well-Mannered Dog* will build your relationship with your dog to make every new day together a day of love, joy, and discovery.

Epic: the Game Jack Kaminski, 2023-03-01 EPIC: The Game, starts out with an entrepreneur pitching his idea for a Virtual Reality game. The game runs on a quantum computer platform. It leads players into dimensions where they

explore their parallel lives, and confront fears, during 20 levels of game play. The game is different for each player as it uses Artificial Intelligence to calculate each player's fears, based on data gleaned from social media and Internet preferences. It uses human energy for power, so if you get cut in the game, you bleed in real life! The story centers around a family of four. Seventeen-year-old, Billy Middleton, has a sister, Sarah with an alcoholic mother and workaholic father. When Billy dies during gameplay, his father discovers his secret and goes into EPIC: The Game to fish out his son somewhere in time/space. They learn that Life is a form of Simulation...some kind of code that is like The Matrix, only unlike the movie, people are not "battery power for technology". They are part of a quantum Ancestry Simulation that runs planet Earth. This book is an epic Journey for Readers as they explore thought-provoking concepts in philosophy, the occult, spirituality, psychology and quantum physics.

Business Strategies for Sustainability Helen Borland,Adam Lindgreen,Francois Maon,Véronique Ambrosini,Beatriz Palacios Florencio,Joelle Vanhamme,2018-10-03 Business Strategies for Sustainability brings together important research contributions that demonstrate different approaches to business strategies for sustainability. Many corporate initiatives toward what firms perceive to be sustainability are simply efficiency drives or competitive moves – falling far short of actual strategies for ecological sustainability. To suggest true ecological sustainability strategies, this new research anthology adopts an interdisciplinary, or transdisciplinary, approach to discern what business strategies might look like if they were underpinned by environmental and ecological science. The 23 chapters in this anthology reflect five main topic sections: (a) delineating sustainability challenges and visions; (b) contradiction, integration and transformation of business and sustainability logics; (c) innovating and developing strategic capabilities for sustainability; (d) assessing and valuing sustainability; and (e) toward multi-level engagement and collaboration.
