Longtime Companions Alfred Lees,Ronald Nelson,2018-10-24 *Longtime Companions: Autobiographies of Gay Male Fidelity* provides a sophisticated alternative to “anything goes” gay literature. Challenging the stereotype that gay men are incapable of lasting and successful relationships, 15 long-term gay couples share slices of their own lives to give you insight into their present relationships, while some discuss life after their mates have passed on. You will find that their stories offer an inspirational and richly fulfilling alternative to an empty life of promiscuity that lacks true love. Through a treasury of autobiographical essays, *Longtime Companions* documents how committed gay male unions can be as enduring, nurturing, and diverse as heterosexual marriages and proves that loving commitments and life-sharing are not exclusive to heterosexual unions. A celebration of gay diversity, this book offers you insights from contributors of different ages, professions, geographic locations, and attitudes. You will learn the intimate details of the couples' lives, including: how they met their partners how soon they committed to each other how long the couples have been together--from 14 years to over 50 years their keys to leading successful, happy lives the ways in which their relationships fulfill their personal needs and contribute to community life You will come to realize the true strength of these men's relationships as you share in their struggles within a society that offers them little recognition or support for their successful relationships. Co-editor Alfred Lees explains in the introduction to *Longtime Companions*, “We've all worked diligently to make our partnerships sound, nurturing, and enduring. We've done this without any social motivation, largely without role models, in the face of 'official' disapproval or contempt. We've told our stories here to refute--by the simple facts of our experience--the grotesque misrepresentation of gays as being incapable of stable, committed relationships.” Will add more. . . Explorations into Sustainable Development with Forest and Biodiversity Conservation Dr. Ritu Dhingra,2023-06-02 Forests being the lungs of planet Earth are the most important ecosystems. They act as carbon sinks and sustain a huge amount of carbon in them. They play an extremely important role for the survival of the living beings on this earth. From human beings to the flora and fauna of the earth's ecosystem depend on the forests in some way or the other. Forests are the repositories of enormous biodiversity on this planet. They are an adobe to millions of species of animals including human beings, plants and microorganisms. They also give massive ecosystem services to mankind and to all the living beings thriving on this earth. They regulate climate, water cycles and carbon sequestering on this planet. They even provide a livelihood to human beings all over the world. They check global warming on this earth. The parameter of sustainable development is that forest and biodiversity is conserved for the coming generations also. Forests are the most important repositories of terrestrial biological diversity. The diversity of life amongst the living beings and their distinct habitats, the interactions between the various components of the biodiversity makes this planet a habitable place for various life forms. Forest conservation is extremely important for intergenerational equity and the principle of sustainable development paves the way. The forests especially in the domains of forestry and agriculture provide 40% of the world's economy. This is due to the biological diversity in the forest ecosystems. 70% of the world's poor populace who live in rural areas is directly dependent on biodiversity for their livelihood. A rough estimate of 60 million indigenous folks are somehow reliant on forests for their daily needs. The Supreme Court of India in *Rural Litigation and Entitlement Kendra v. State of Uttar Pradesh* elucidated the importance of ecosystem services as provided by the forests.

Lead Like a Girl Dalia Feldheim,2024-04-16 An incredibly forward-looking and positive example of how to be and how to work in today's world. Booklist For women AND men, this fresh look at leadership helps us all learn to connect to our more feminine leadership traits and lead like a girl! *Lead Like a Girl* is a holistic look at how to achieve purpose and joy at work. It is about turning the world of work into a place where empathy, intuition, passion, and resilience take their rightful place, where women can lead like women and men can tap into their more feminine leadership traits and dare to lead (more) like a girl! Dalia Feldheim was one of the marketing directors behind the 2014 global Always ad campaign “#LikeAGirl.” This message touched a nerve for women and men alike becoming much more than a commercial – as it became an icon for women's empowerment. The ad was selected by Forbes as one of the 10 most influential campaigns of the decade. In the commercial, while a young girl understand the phrase ‘run like a girl’ to mean, run as fast as you can, somewhere along the way, doing things “like a girl” becomes an insult. The goal of the commercial was to change the meaning of words and reclaim the phrase to simply mean “be proud of who you are.” With Dalia's new book it is time to reclaim that phrase once again and this time in the world of leadership. It's time to stop asking our women leaders to lead like men and instead start learning from what is working for our women leaders—and share that wisdom with everyone, men and women alike. *Lead Like a Girl* is a provocative call to action to all leaders to stop wearing an emotional mask at work and connect to their more feminine leadership traits - owning their passion, perseverance, people skills, and positivity. With her flare for relatable storytelling, Dalia shares her executive leadership journey of over two decades backed by theoretical underpinning from the world of psychology, business, and mindfulness to encourage leaders to connect to their more feminine super powers: be courageous, lead from their heart, and Lead (more) Like a Girl.

Max-Plus Methods for Nonlinear Control and Estimation William M. McEneaney, 2006-07-25 The central focus of this book is the control of continuous-time/continuous-space nonlinear systems. Using new techniques that employ the max-plus algebra, the author addresses several classes of nonlinear control problems, including nonlinear optimal control problems and nonlinear robust/H-infinity control and estimation problems. Several numerical techniques are employed, including a max-plus eigenvector approach and an approach that avoids the curse-of-dimensionality. The max-plus-based methods examined in this work belong to an entirely new class of numerical methods for the solution of nonlinear control problems and their associated Hamilton-Jacobi-Bellman (HJB) PDEs; these methods are not equivalent to either of the more commonly used finite element or characteristic approaches. Max-Plus Methods for Nonlinear Control and Estimation will be of interest to applied mathematicians, engineers, and graduate students interested in the control of nonlinear systems through the implementation of recently developed numerical methods.

On the Contrary Martha Rainbolt, Janet Fleetwood, 1983-01-01 On The Contrary contains a balance of writings by men and women. The essays are presented in pairs, a man and a woman writing on each topic. This balanced juxtaposition allows students to discuss, think, and write about changing roles and relationships without being forced into either a feminist or traditionalist party line. The essays in each section reverberate suggestively with each other and this effect is reinforced by the discussion questions, writing topics, and introductory material. An additional table of contents arranges the essays according to rhetorical rubrics.
