*Capital Offenses: Business Crime and Punishment in America's Corporate Age*  
Samuel W. Buell, 2016-08-16 From the lead prosecutor on the Enron investigation, an eye-opening examination of the explosion of American white-collar crime. If "corporations are people too," why isn't anyone in jail? A serious defect in a GM car causes accidents; Enron scams investors out of their money; banks bet on the housing market crash and win. In the race to maximize profits, corporations can behave in ways that are morally outrageous but technically legal. In Capital Offenses, Samuel Buell draws on the unique pairing of his expertise as a Duke University law professor and his personal experience leading the investigation into Enron—the biggest white-collar crime case in U.S. history—to present an in-depth examination of business crime today At the heart of it sits the limited liability corporation, simultaneously the bedrock of American prosperity and the reason that white-collar crime is difficult to prosecute—a brilliant legal innovation that, in its modern form, can seem impossible to regulate or even manage. By shielding employees from legal responsibility, the corporation encourages the risk-taking that drives economic growth. But its special legal status and its

ever-expanding scale place daunting barriers in the way of federal and local investigators. Detailing the complex legal frameworks that govern both corporations and the people who carry out their missions, Buell shows that deciphering business crime is rarely black or white. In lucid, thought-provoking prose, he illuminates the depths of the legal issues at stake—delving into fraudulent practices like Ponzi schemes, bad accounting, insider trading, and the art of “loopholing”—showing how every major case and each problem of law further exposes the ambivalence and instability at the core of America’s relationship with its corporations. An expert in criminal law, Buell masterfully examines the limits of too permissive or overzealous prosecution of business crimes. Capital Offenses invites us to take a fresh look at our legal framework and learn how it can be used to effectively discipline corporations for wrongdoing, without dismantling the corporation.

**Corporate Entrepreneurship and Innovation** Paul Burns, 2020-02-15 Written by a highly regarded expert on entrepreneurship, this bestselling textbook provides an engaging and comprehensive overview of corporate entrepreneurship. Now in its fourth edition and fully revised throughout, this accessible text is structured in four key parts that cover everything a student needs to know about the topic. After an initial consideration of what constitutes corporate entrepreneurship and innovation, the author then guides students through the four pillars of entrepreneurial architecture: culture, structure, leadership and strategy. The third section focusses on the

entrepreneurial mind-set, including how to encourage creativity, business ideas and developing concepts. Finally, the book draws attention to corporate venturing, examining venture teams, intrapreneurs, market development and the role of shareholder value. It is no longer sufficient for businesses to grow simply by cutting costs and taking over competitors. To achieve true success, organisations must avoid an ageing product or service portfolio to bring new, innovative ideas to market. Corporate entrepreneurship is inherently risky and therefore requires a fresh approach to strategy. The approach Paul Burns offers will successfully overcome barriers to launching new ideas, internal challenges of managing creativity and show how to foster an entrepreneurial culture. This is the go-to textbook for all students studying Corporate Entrepreneurship, Intrapreneurship or Corporate Venturing at undergraduate, postgraduate or MBA level. The book is also essential reading for courses on Strategic Entrepreneurship and Innovation. New to this Edition: - Fully revised and updated content throughout with new four-part structure - Brand new case studies in every chapter, featuring some of the world's highest profile companies from across the globe - A greater focus on innovation, including a new chapter on this topic at the start of the book - New chapters on 'Developing a Business Model', 'Managing Change' and 'Managing Risk' - New on-page glossary with key terms highlighted in the text and defined in the margins - New Activities and Group Discussion topics at the end of each chapter

**In the Company of Others** Julie E. Czerneda, 2021-09-21 When humans set out to explore the universe, they found a number of planets suitable for colonizing. The one thing they didn't find was intelligent life. And so the terraforming of worlds began, with eager immigrant families temporarily housed in space stations till their new home planets were ready. But the technicians made one all-important mistake by introducing the alien Quill to worlds where they did not belong. The Quill were supposed to be destroyed when the crews finished their work, but some survived, multiplied, and mutated till they were no longer harmless. They were deadly.

**A Nation Gone Blind** Eric Larsen, 2006-03-29 America's citizens seem plagued by despair and frustration, much deeper today than the malaise President Jimmy Carter noted twenty years ago. Our political and social cultures are driven by issues morally complex and yet presented with simple-minded hostility. What's the matter with Kansas? What has happened to the once proud leader of the free world? How secure is our future? Does the republic stand or have we lost it already? Born in 1941, novelist, critic, and teacher Eric Larsen sees his own lifetime as paralleling the arc of a national dissolution, and in three penetrating essays he describes an increasingly desperate situation. A blindness has set in, he argues, producing writers no longer able to write, professors more harmful than helpful, a replacement

virtually nation-wide of thinking with feeling while the population seems unable to grasp even the remotest outlines of such dangerous, radical change. In the tradition of George Orwell, Upton Sinclair, Paul Goodman, and Christopher Lasch, Larsen offers an impassioned critique of where we once were, where we are, and where we're very soon going if we don't watch out.

**Speak: The Graphic Novel** Laurie Halse Anderson,2018-02-06 The critically acclaimed, award-winning, modern classic Speak is now a stunning graphic novel. Speak up for yourself—we want to know what you have to say. From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an

outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

*How to Use the Laws of Mind* Dr. Joseph Murphy,2019-10-03 This is one of Dr. Murphy's best books, on a par with his classic *The Power of your Subconscious Mind*. It explains the difference between the conscious and subconscious mind, and how the two work together to create the reality of the individual. As in Murphy's other books, examples are given of how people overcame problems or manifested their desires by changing their minds through belief, affirmation, and visualization. The chapters deal with: HEALING PRAYER BECOMING SPIRITUAL-MINDED THE CREATIVITY OF THOUGHT THE MEANING OF EVIL THE MEANING OF LIFE CONTROLLING ONE'S FEAR THE POWER OF SUGGESTION MARRIAGE, SEX, AND DIVORCE In his very engaging style, the author teaches us how to use both phases of the mind synchronously, harmoniously, and peacefully in order to bring harmony, health, and abundance into our lives. He also explains that Biblical statements are parables, allegories, metaphors, similes, and cryptic

statements, and are thus not to be taken literally. The main message is that we are all children of the infinite, born to win, and to live in the joyous expectancy of the best. Exclusive to and approved by the estate of Joseph Murphy
