*3D TV and 3D Cinema* Bernard Mendiburu,Yves Pupulin,Steve Schklair,2011 Hollywood is going 3D; readers learn how to adapt their cinematography and production skills to this hot new medium so they can be part of the movement.

*Specifying Software* R. D. Tennent,2002-02-25 Provides an innovative hands-on introduction to techniques for specifying the behaviour of software components. It is primarily intended for use as a text book for a course in the 2nd or 3rd year of Computer Science and Computer Engineering programs, but it is also suitable for self-study. Using this book will help the reader improve programming skills and gain a sound foundation and motivation for subsequent courses in advanced algorithms and data structures, software design, formal methods, compilers, programming languages, and theory. The presentation is based on numerous examples and case studies appropriate to the level of programming expertise of the intended readership. The main topics covered are techniques for using programmer-friendly assertional notations to specify, develop, and verify small but non-trivial algorithms and data representations, and the use of state diagrams, grammars, and regular expressions to specify and develop recognizers for formal languages.

**Fiber Optic Sensors and Fiber Lasers** Min Yong Jeon,2021-09-08 The optical fiber industry is emerging from the market for selling simple accessories using optical fiber to the new optical-IT convergence sensor market combined with high value-added smart industries such as the bio industry. Among them, fiber optic sensors and fiber lasers are growing faster and more accurately by utilizing fiber optics in various fields such as shipbuilding, construction, energy, military, railway, security, and medical. This Special Issue aims to present novel and innovative applications of sensors and devices based on fiber optic sensors and fiber lasers, and covers a wide range of applications of optical sensors. In this Special Issue, original research articles, as well as reviews, have been published.

*Civil Engineering And Urban Planning - Proceedings Of The 5th International Conference On Civil Engineering And Urban Planning (Ceup2016)* Mebarki Ahmed,2017-06-02 The 5th International Conference on Civil Engineering and Urban Planning (CEUP2016) was held in Xi'an, China on August 23 – 26, 2016. CEUP2016 gathered outstanding scientists and researchers worldwide to exchange and discuss new findings in civil engineering and urban planning associated with transportation and environmental topics. The conference program committee is also greatly honored to have four renowned experts for taking time off to present their keynotes to the conference. The conference had received a total of 410 submissions, which after peer review by the Technical Program Committee, only 108 were selected to be included in this conference proceedings, which covers Architecture and Urban Planning; Civil Engineering and Transportation Engineering.

*Indian Multinationals in the World Economy* Jaya Prakash Pradhan,2008 Indian multinationals have been active in the world economy since early 1960s. However, their number and scale of operation have grown significantly in the last fifteen years or so. In the face of increasing global competition unleashed by extensive liberalization measures, Indian firms have adopted the strategy of outward foreign direct investment (OFDI) as an integral part of their business strategies. By undertaking greenfield OFDI and brownfield OFDI for acquiring foreign companies, Indian firms are enhancing their potential for growth and global competitiveness. Consequently India has emerged as a major developing source country of FDI and Indian multinationals are likely to affect world development in several ways. The book analyses the phenomenon of Indian multinationals from both macro level factors and firm-level corporate strategies and examines its implications for India and host countries. A detailed investigation of Indian overseas investment flows and stocks from sectoral, regional, ownership and motivational perspectives provides a rigorous long-run coverage of Indian multinational firms from 1970s onwards. The role of innovation, entrepreneurial skills, scale of business, productivity, and the role of government policies, received critical attention in explaining the emergence of Indian multinationals. The comprehensive quantitative and case studies approach offers valuable insights into the behaviour and impacts of these new global actors on home and host countries. This book offers a number of lessons to home country, host countries, and Indian enterprises becoming multinationals. With the growing global interest from policy makers, business practitioners, researchers, and students in Indian multinationals, this book would serve as an important and timely reading for all of them.

*Desi Dreams* Ashidhara Das,2012 Desi Dreams focuses on the construction of self and identity by Indian immigrant professional and semi-professional women who live and work in the US. The focus in this anthropological fieldwork is on Indian immigrants in the San Francisco Bay Area. They have often been defined as a model minority. Indian immigrant women who have achieved entry into the current technology based economy in the Silicon Valley value the capital-accumulation, status-transformation, socio-economic autonomy, and renegotiation of familial gender relations that are made possible by their employment. However, this quintessential American success story conceals the psychic costs of uneasy Americanization, long drawn out gender battles, and incessant cross-cultural journeys of selves and identities. The outcome is a diasporic identity through the recomposition of Indian culture in the diaspora and strengthening of transnational ties to India.
