Freedom in the World 2004 Aili Piano,Arch Puddington,2004 Freedom in the World contains both comparative ratings and written narratives and is now the standard reference work for measuring the progress and decline in political rights and civil liberties on a global basis.

**Freedom in the World 2011** Freedom House,2011-12-01 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 194 countries and 14 territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide.

Freedom in the World 2006 Freedom House,2006 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Freedom House is a nonprofit, nonpartisan organization that supports democratic change, monitors freedom, and advocates for democracy and human rights.

**Freedom in the World 2008** Freedom House (U.S.),2008 A survey of the state of human freedom around the world investigates such crucial indicators as the status of civil and political liberties and provides individual country reports.

*Freedom in the World 2009* Arch Puddington,Aili Piano,Katrina Neubauer,Tyler Roylance,2009-10 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. *Corporate Social Responsibility and International Development* Michael Hopkins, 2012-05-04 Presenting ideas for how business can lead the way in deriving the good from globalisation, this book makes the case that governments and their international agencies, grouped under the umbrella of the United Nations, have failed in their attempts to rid the planet of underdevelopment and poverty.

**Negotiated Risks** Rudolf Avenhaus, Gunnar Sjöstedt, 2009-04-28 The International Institute for Applied Systems Analysis (IIASA) has had risk as a research topic on its agenda right from its inception in 1972. Risk has played a - jor role in the Energy Program, with research being carried out both in-house and in cooperation with other international institutions like the International Atomic - ergy Agency (IAEA) and national research centers. Research areas were primarily the evaluation of all possible risks within one category of energy supply like nuclear fission or fusion or fossil fuels and, even more important, the comparison of risks of different energy-supply strategies. Later on an independent program was started which still exists today under the name Risk and Vulnerability. There is a large amount of literature on risks to which IIASA's research programs have contributed significantly over the years, and there is, of course, an abundance of published work on international negotiations, part of which is a result of the work of the Processes of International Negotiation (PIN) Program. There are, however, so far no studies on the combination of these two strands. Therefore, and as research on both topics is housed at IIASA, we are happy that our PIN Program has undertaken the difficult and important task of analyzing what the editors of this book have called negotiated risks.

*Social Dialogue and Democracy in the Workplace* Erdem Cam, 2018-07-06 This book focuses on the experience of social dialogue in Turkey, which is a European Union candidate country. It argues that social dialogue constitutes one of the fundamental pillars of European social model and therefore should be analysed not only at the supranational level but also at the national, sectoral and workplace levels. The book critically examines social dialogue processes and mechanisms in Turkey at various levels, with focus on the workplace because it is shaped by socio-cultural elements which contain many variables. The book also identifies the shortcomings and structural impediments of social dialogue, and provides an empirically grounded theoretical explanation of social dialogue in Turkey. In the process, the book explains and clarifies key concepts to help readers grasp important points relevant to social dialogue, and contains interviews with social partners to take into consideration their views and recommendations on social dialogue. These in-depth interviews also provide a rare insight into the dynamics of social dialogue on the ground. By looking at social dialogue at various levels, the book offers a balanced view of its strengths and weaknesses in Turkey. This book is a valuable tool for students, academics and researchers interested in understanding the complex dynamics of social dialogue and workplace relations in Turkey.

**Freedom in the World 2003** Freedom House (U.S.), 2003 Freedom in the World contains both comparative ratings and

written narratives and is now the standard reference work for measuring the progress and decline in political rights and civil liberties on a global basis.

Making Globalization Socially Sustainable Marc Bacchetta, Marion Jansen, 2011

**Migration, Mobility and Human Rights at the Eastern Border of the European Union** Grigore Silași, 2008

**Amnesty International Report** Amnesty International, 2005 During 2004, the human rights of ordinary men, women and children were disregarded or grossly abused in every corner of the globe. Economic interests, political hypocrisy and socially orchestrated discrimination continued to fan the flames of conflict around the world. The war on terror appeared more effective in eroding international human rights principles than in countering international terrorism. The millions of women who suffered gender-based violence in the home, in the community or in war zones were largely ignored. The economic, social and cultural rights of marginalized communities were almost entirely neglected.

**Globalisation, the State and Regional Australia** Amanda Walsh, 2018-05-15 'If we are to understand global capital, neoliberalism and the state in meaningful ways, we must understand them as they operate in, and on, particular places and people.' Amanda Walsh Globalisation is an inescapable term in the 21st century, but its real meaning is often difficult to pin down. This book sheds new light on the political and economic implications of globalisation by examining the lived experience of a particular region: the Shoalhaven area of New South Wales, where two iconic Australian industries – dairying and manufacturing – struggled to survive in the face of global competition. Drilling down through layers of theory, policy and politics, Amanda Walsh surveys how globalisation has played out in regional Australia. Using industry case studies, she explores how decisions made at a national level have affected regional communities, and considers the role of the state in promoting and mediating globalising forces.

Thematic Study on Policy Measures Concerning Disadvantaged Youth , 2006 Recoge: What are key structures of disadvantage and what problems does it create? - How do policies react? - School-related measures - Training - Active labour market policies - What makes the social inclusion of disadvantaged youth sustainable?

**Bursting the Brussels Bubble** Helen Burley, 2010 Summary: Written by some of the leading experts on lobbying transparency in Europe, this collection provides an eye-opening insight into decision making within the European Union - and offers a valuable guide to fighting for greater transparency and accountability. Bursting the Brussels bubble is a valuable tool for anyone concerned with decision-making and democratic accountability within the European Union. It reveals how lobbyists from the world of big business have successfully embedded themselves inside the European Union's decision-making process, creating a political culture where, behind closed doors, the influence of business has become the norm.

Europeanization and Regionalization in the EU's Enlargement to Central and Eastern Europe J. Hughes, G.

Sasse, Claire Gordon, 2004-10-12 This book is a study of EU conditionality and compliance during the enlargement to the Central and Eastern European candidate countries. EU conditionality for membership is widely understood as having been a driving force for Europeanization, providing incentives and sanctions for compliance or non-

compliance with EU norms, such as the 'Copenhagen Criteria' and the adoption of the *acquis communautaire*. By taking regional policy and regionalization as a case study, this book provides a comparative analysis of the effects of conditionality on the Central and East European countries and explores the many paradoxes and weaknesses in the use of EU conditionality over time.
