Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough

discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

The Splendid Blond Beast Christopher Simpson, 2017-04-18
From a National Jewish Book Award-winning author: The “revelatory and shocking” investigation into the CIA’s liberation of Nazi war criminals (Kirkus Reviews). How did Gen. Karl Wolff, one of the highest-ranking members of the Nazi Party’s Waffen-SS, who personally oversaw the deportation of three hundred thousand Jews to the Treblinka extermination camps, escape prosecution at the Nuremberg trials? As revealed in this groundbreaking investigation—culled from recently uncovered archival documents—the answer lies within the US government, which buried reports on the Final Solution and was complicit in the recruitment of Nazi war criminals, all to protect the world economy. Among the key players was CIA director Allen Dulles, who was not only instrumental in Wolff’s exoneration but also responsible for installing former slave-labor specialists into positions of power in postwar Germany. In this damning exposé of American government malfeasance, author Christopher Simpson traces the roots of mass murder as an instrument of financial gain and state power, from the Armenian genocide during World War I to Hitler’s Holocaust through the practice of genocide today. Detailing how the existing structures of international law and commerce have encouraged mass killings, corporate looting, and profiteering at the expense of innocent victims, *The Splendid Blond Beast* is a disturbing and profound book about the success of evil in our time. The award-winning author of *Blowback* and *Science of Coercion*, Simpson also served as research director for Marcel Ophüls’s Oscar-winning documentary, *Hôtel Terminus: The Life and Times of Klaus Barbie*.

this wealth of practical detail. It is highly accessible, written for both the professional and interested layperson. Written by a team of 15 experts - surveyors, structural engineers, craftsmen and conservators describing their own approaches to specific materials, problems and designs. It includes over 400 illustrations in colour and black and white, from a wide range of sources, including historic drawings, paintings, pattern books, textbooks, manufacturers' catalogues and contemporary and archive photographs. It is an invaluable asset for everyone involved with windows on a daily basis, combining the knowledge of leading historians and experts in the field of window conservation. The window is a familiar yet surprisingly complex feature, with a rich history that has not, up until now, been explored in any great depth. This encyclopaedic work is both a fascinating exploration of the history and development of the window, and a practical hands-on guide to their care and preservation. Part 1 covers the history of the window including the development in glass technology. It also provides an illustrated glossary of window types. Part 2 reviews the changes in policy and legislation and discusses structural issues, decay mechanisms and the current stringent performance standards and how they affect historic windows. Part 3 focuses on the materials used in the construction of windows and the craft of leaded glazing. It details the appropriate techniques for repair and conservation. *Windows* is fully illustrated in both colour and mono to include over 400 high quality illustrations.

Economics Unmasked Manfred Max-Neef, Philip B.

Smith, 2011-08-30 An inspiring outline of a new economics system, where justice, human dignity, compassion and reverence for life are the guiding values. The economic system under which we live not only forces the great majority of humankind to live their lives in indignity and poverty but also threatens all forms of life on Earth. *Economics Unmasked* presents a cogent critique of the dominant economic system, showing that the theoretical

constructions of mainstream economics work mainly to bring about injustice. The merciless onslaught on the global ecosystem of recent decades, brought about by the massive increase in the production of goods and the consequent depletion of nature's reserves, is not a chance property of the economic system. It is a direct result of neoliberal economic thinking, which recognizes value only in material things. The growth obsession is not a mistaken conception that mainstream economists can unlearn, it is inherent in their view of life. But a socio-economic system based on the growth obsession can never be sustainable. This book outlines the foundations of a new economics, where we are not ruled by greed and injustice. Contrary to the absurd assumption of mainstream economists that economics is a value-free science, a new economics must make its values explicit.

Kids of Kabul Deborah Ellis, 2012-05-01 Since its publication in 2000, hundreds of thousands of children all over the world have read and loved *The Breadwinner*, the fictional story of eleven-year-old Parvana living in Kabul under the terror of the Taliban. But what happened to Afghanistan's children after the fall of the Taliban in 2001? In 2011, Deborah Ellis went to Kabul to find out. The twenty-six boys and girls featured in this book range in age from ten to seventeen, and they speak candidly about their lives now. They are still living in a country at war. Violence and oppression exist all around them. The situation for

girls has improved, but it is still difficult and dangerous. And many children — boys and girls — are still supporting their families by selling items like pencils and matches on the street. Yet these kids are weathering their lives with remarkable courage and hope, getting as much education and life experience and fun as they can. All royalties from the sale of Kids of Kabul will go to Canadian Women for Women in Afghanistan (www.cw4wafghan.ca), which administers Parvana's Fund, supporting schools, libraries and literacy programs for Afghan women and children.
