**Study Buddy** Avisid,2008-08-01 Although it has been said that there is nothing new under the sun, it is a fact that sunlight provides food for plants and animals. What is also true is that new thoughts and ideas are generated every day. This book is a result of many hours of ideas designed to enable the reader to think creatively and achieve his or her academic goals. Its focus is to educate. Studying, as its main theme, is universal. Readers may view this book as a compendium of educational material for cross-curricular learning. Whether you favor mathematics, trivia, geography, semantics, or science, there is something here for you. The book is divided into sections, which makes it easier for readers to locate information. Some of the sections include: ?Culture ?Global Connection ?Social Studies ?Technology ?The United States In addition, it features clear and useful examples, opportunities for review and practice, and information for parents to assist their children with homework and other related learning experiences.

*Study Buddy Bible Study Guide* Amber Lia,2019-02-20 The Study Buddy Bible Study series is for every parent who wants their child to develop the life-long habit of studying Scripture. Full of simple yet practical applications, this study on the book of James focuses on 20 key verses from chapters 3-5 that teach kids how to use biblical principles in everyday situations. **A Guided Inquiry Approach to High School Research** Randell K. Schmidt,2013-02-07 This book helps educators foster academic success and college readiness: it demonstrates how to instruct high school students to find, process, and think about new information, and then synthesize that knowledge. When students are able to manage topics of high interest by choosing their own subject matter, they learn how to effectively perform pre-collegiate research through a process that they find fun and rewarding. Ideal for high school-level teachers and

school librarians, this book provides a unique, holistic approach to guided inquiry that guides students step-by-step through the cognitive, affective, and social processes involved, building critical study skills, time management strategies, collaboration techniques, and communication and presentation skills. A Guided Inquiry Approach to High School Research is derived from a formal research protocol and provides proven techniques and supporting materials that facilitate the process for permitting students to choose their own topic, easily grasping how to search for information, and successfully completing a seemingly daunting research assignment—a process that makes understandings deep and integrative. The included detailed project lessons, student handouts, and rubrics and assessment tools are the result of many years of classroom testing and refinement.

### **IGCSE Crash Course: 20th Century History**

Prashanthi Subbiah, 2021-06-10 Recommended age group: Age 12 and above. Recommended audience: Students, teachers, and all learners who wish to understand the connect between the past and the present. In a time when liberal and interdisciplinary education is on the rise, the importance of the social sciences is increasing. Such education focuses on introspecting into current and future challenges. This means that knowledge of historical events would give us a head start in any field of study. This book is a resource aimed at providing such knowledge to students. In particular, it aids students in learning about the 20 th Century. It has been published with the intent to help students obtain a good understanding of events, and equip them with a strong foundation to relate to the significance of the described events in today's world. Tough topics have been simplified by using flow charts, tables, bullet points, and simple language, without sacrificing on the quality of content. This has been done to make the content easy to comprehend and seem more like

a story than something monotonous. This resource hopes to spark an interest in readers towards these topics. It is mainly aimed at students of the IGCSE History curriculum, which is a two-year long course spanning over Grades 9 and 10. This resource is designed to be used for both years. It is also suitable for learners outside of this subject and curriculum (such as students of Global Perspectives and other Social Studies subjects in International and Indian Boards), and fellow history-buffs. The content it covers could also be taught to middle school students, to help ignite an interest in this fascinating subject.

**Online Postgraduate Education** Katharine Stapleford, Kyungmee Lee, 2024-01-29 Providing a comprehensive examination of the nature of online higher education, this book proposes effective ways in which it can be conceptualised and designed to be more accessible and authentic for adult learners. Against the backdrop of differing historical origins, which have resulted in multiple, misaligned understandings, applications and interpretations of online and distance education, this book presents an empirical research study which uses a narrative approach to explore the lived experiences of online postgraduate students. It positions two arguments on the (in-)accessibility and (in-)authenticity of online education side by side, effectively demonstrating how they can be conflict and contradict each other. Using narrative data, the authors re-examine the concepts of distance and interaction in order to present a new understanding of the concept of openness relevant to the for-profit postgraduate distance learning sector. This book illuminates the postgraduate distance education experience and presents a

set of alternative theoretically informed conceptions which the authors present as three essential pillars of online postgraduate education: openness, distance, and interaction. Carefully presented and supported using real online higher education scenarios, the book will enable higher educators, practising online education in a range of pedagogical contexts, to re-imagine their practices; further, to create more accessible and authentic learning opportunities for their learners.
