Geospatial Technologies for Crops and Soils Tarik Mitran,Ram Swaroop Meena,Abhishek Chakraborty,2021-10-26 The sustainable development of the agriculture sector is the only option to meet the demands of increased and economically viable production in a changing climate. This means there is a need to introduce the latest technologies to enhance production, and also help policymakers make decisions for the future. Geospatial technologies & tools, such as remote sensing, geographical information systems (GIS), global positioning systems (GPS), and mobile & web applications, provide unique capabilities to analyze multi-scale, multi-temporal datasets, and support decision-making in sustainable agriculture development and natural resources management. Further, the availability of reliable and timely geospatial information on natural resources and environmental conditions is essential for sustainable agricultural development and food security. Since remote sensing solutions are fast, non-destructive and have large spatial coverage, they can play a significant role in the identification, inventory, and mapping of land resources. Over the past four decades, remote sensing has proved to be a cost-effective and powerful tool to assess crop and soil properties in varying spatial and temporal scales using both visual and digital techniques. Satellite remote sensing coupled with GIS & mobile-app based positional information has emerged as an efficient tool for optimizing input resources, and minimizing cost of production and risk of biotic/ abiotic factors nature to promote sustainable agriculture. This book comprehensively documents the applications of space-based technologies for crop and soil assessments for the sustainable development of agriculture.

The Indian Family in Transition Sanjukta Dasgupta,Malashri Lal,2007-12-01 This book critiques literary and cultural representations of the Indian family to explore the manner in which the family and its structure are in transition. The papers explore and expose how the Indian family, whether in India or in diaspora, needs to be redefined in the current context—in this age of rapid industrialization, cultural and economic globalization, and the emergence of new technologies.

Lions 320C District Directory PMJF Lion B.Venkateswara Rao, District Governor,2017-12-14 Print Edition of Lions District 320C for the Centenary year 2017-18 , was released by District Governor PMJF Lion B.Venkateswara Rao. It contains complete lionistic information on the District, Lions International etc.

Gives entire details on its Clubs, Club Officials, Z C, RC, Core Cabinet, D G Team etc like Address, Communication numbers etc. This Digital Edition is an exact copy of the book for reading in Mobile Phones and eReaders. The print edition in 450+ pages is heavy and difficult to handle. So this Digital Edition enables portability of the contents of the book, through the Mobile Phones every Lion Carry.

Quality Control in the Food Industry S. M. Herschdoerfer, 1984 The organization of quality control. Health problems in food. Chemical aspects. Food processing and nutritional values. Microbiological quality control. Statistical methods in quality control. Tasting panels. national and international standards. Quality standards and specification in the food industry.

Coastal and Estuarine Management Peter French, 2002-11-01 The coast cannot be left to nature to determine its fate. Wealth, property, economic interests, recreation, tourism and wildlife are all threatened. Coasts are an administrative battle ground and one of the most important and widely examined topics in environmental management. Coastal and Estuarine Management examines the issues surrounding the human use and abuse of estuarine and coastal environments. Emphasising the importance and significance of this natural resource, the uses and conflicts which occur and the results of human activity, this book explains the ways in which conservation and management policies and practices can protect this productive and diverse ecosystem. Examples and real-life case studies illustrate the effect of human intervention, both from an historic and contemporary perspective. Exposing the environmental consequences of estuarine pollution, Peter French highlights the need for management strategies to promote a sustainable development ethic for estuaries.

Temperate Horticulture for Sustainable Development and Environment Larissa I. Weisfeld, Anatoly I. Opalko, Sarra A. Bekuzarova, 2021-03-31 Ecological and genetic control of plant resistance to unfavorable environmental influences is being carried out all over the world, and new varieties and hybrids of plants are being created, resulting in rich, new information and innovative new methods of cultivation. This new volume, Temperate Horticulture for Sustainable Development and Environment: Ecological Aspects, explores the vast biotic diversity in horticulture, with a focus on sustainable development in today's deteriorating environment. The book offers new technologies for a wide range of horticultural crops, including vegetables, fruit, berries, and flowers. The information presented here is the result of original experiments and study of leading specialists in horticulture, plant breeding, and related areas. Part 1, Innovation in the Field of Vegetable Growing, looks at several completely new methods for increasing the yield of potatoes and cucumbers. The second part. The Arctic Berries: Ecology and Biochemistry presents an abundance of data on the phytocenotic properties of wild-growing and cultivated berry plants and of arctic raspberry and blueberry in natural populations of taiga zones. The authors studied berry crops, cranberry, Arctic bramble, blueberry, Arctic raspberry, cowberry, growing on the boggy soil and peatlands in taiga zones. Part 3, Decorative Plants: Breeding and Biochemistry, provides an overview of winter

garden plants and their successful cultivation, looks at the range of resistance to salinization and other stresses of ornamental plants growing, and presents a biochemical analysis of biological active compounds and antioxidants among various species of the genus Aloe. Part 4, on Fruit Growing and Breeding, reviews various technologies for the cultivation of various fruits and presents an overview of data on breeding rare fruit crop. This volume will be useful for the scientific community, ecologists, geneticists, breeders, and industry professionals interested in using science to implement practical applications in production of fruits, vegetables, and flowers.

Economic Development of Scheduled Castes V. S. Mahajan, B. S. Mann, 1997 The Study Addresses To The Economic Development Of Scheduled Castes In A Changing Economy And Is Based On Papers Presented In The Seminar On Economic Development Of Scheduled Castes In Punjab. Its Findings Should Be Of Value To Researchers As Also To Those Who Are Directly Responsible For The Planning And Monitoring Of The Socio-Economic Development Of The Weaker Sections. It Is Sufficiently Broad- Based To Cater To The Needs Of The Student Community As Well.
