Who's Who of Canadian Women, 1999-2000 Gillian Holmes,1999-06-01 Who's Who of Canadian Women is a guide to the most powerful and innovative women in Canada. Celebrating the talents and achievement of over 3,700 women, Who's Who of Canadian Women includes women from all over Canada, in all fields, including agriculture, academia, law, business, politics, journalism, religion, sports and entertainment. Each biography includes such information as personal data, education, career history, current employment, affiliations, interests and honours. A special comment section reveals personal thoughts, goals, and achievements of the profiled individual. Entries are indexed by employment or affiliation for easy reference. Published every two years, Who's Who of Canadian Women selects its biographees on merit alone. This collection is an essential resource for all those interested in the achievements of Canadian women.

The Class Action in Common Law Legal Systems

Rachael Mulheron,2004-11-15 Multi-party litigation is a world-wide legal process, and the class action device is one of its best-known manifestations. As a means of providing access to justice and achieving judicial economies, the class action is gaining increasing endorsement - particularly given the prevalence of mass consumerism of goods and services, and the extent to which the activities and decisions of corporations and government bodies can affect large numbers of people. The primary purpose of this

book is to compare and contrast the class action models that apply under the federal regimes of Australia and the United States and the provincial regimes of Ontario and British Columbia in Canada. While the United States model is the most longstanding, there have now been sufficient judicial determinations under each of the studied jurisdictions to provide a constructive basis for comparison. In the context of the drafting and application of a workable class action framework, it is apparent that similar problems have been confronted across these jurisdictions, which in turn promotes a search for assistance in the experience and legal analysis of others.

The book is presented in three Parts. The first Part deals with the class action concept and its alternatives, and also discusses and critiques the stance of England where the introduction of the opt-out class action model has been opposed. The second Part focuses upon the various criteria and factors governing commencement of a class action (encompassing matters such as commonality, superiority, suitability, and the class representative). Part 3 examines matters pertaining to conduct of the action itself (such as becoming a class member, notice requirements, settlement, judgments, and costs and fees). The book is written to have practical utility for a wide range of legal practitioners and professionals, such as: academics and students of comparative civil procedure and multi-party litigation; litigation lawyers who may use the reference materials cited to the benefit of their own class action clients; and those charged with law reform who look to adopt the most workable (and avoid the unworkable) features in class action models elsewhere.

Vince Carter Vince Carter, Greg Brown, 2004 In this Positively for Kids title, NBA All-Star veteran Vince Carter shares his true life stories. From a music-filled childhood to

winning an Olympic gold medal, Vince emphasizes the importance of knowing where to go and working to get there.

How Canadians Communicate David Taras, Frits Pannekoek, Maria Bakardjieva, 2003 How Canadians Communicate, Vol. 1 is a timely collection that chronicles the extraordinary changes that are shaking the foundations of Canada's cultural and communications industries in the twenty-first century. With essays from some of Canada's foremost media scholars, this book discusses the major trends and developments that have taken place in government policy, corporate strategies, creative communities, and various communication mediums: newspapers, films, cellular and palm technology, the Internet, libraries, TV, music, and book publishing. This volume addresses many issues unique to Canada in a broader framework of global communications. Specifically, it looks at new media communications in Aboriginal communities, the changing role of the state in cultural institutions, the conglomeratization of the media, the threat of American and global communications to Canadian voices, and the struggle to retain and reclaim local and national identities in the face of globalization. With articles from academics and professionals across Canada, *How Canadians Communicate*, Vol. 1 provides the most current perspectives on communication in Canada in a rapidly changing world of technology and global communication.

Outsiders Still Vivian Smith,2015-03-27 Despite years of dominating journalism school classrooms across North America, women remain vastly underrepresented at the highest levels of newspaper leadership. Why do so many female journalists leave the industry and so few reach the top? Interviewing female journalists at daily newspapers across Canada, Vivian Smith - who spent fourteen years at The Globe and Mail as a reporter, editor, and manager - finds that many of the obstacles that women face in the newspaper industry are the same now as they have been historically, made worse by the challenging times in which the industry finds itself. The youngest fear they will have to choose between a career and a family; mid-career women madly juggle the pressures of work and family while worrying that they are not "good mothers"; and the most senior reflect on decades of accomplishments mixed with

frustration at newsroom sexism that has held them back. Listening carefully to the stories these journalists tell, both about themselves and about what they write, Smith reveals in *Outsiders* how overt hostility to women in the newsroom has been replaced by systemic inequality that limits or ends the careers of many female journalists. Despite decades of contributions to society's news agenda, women print journalists are outsiders still.

Youth in Conflict with the Law, 3rd edition Paul Maxim,Paul C. Whitehead,2017-08-18 Employing a historical perspective, this well-regarded author team examines the relationship between police and youth offenders according to the Youth Criminal Justice Act (YCJA) and addresses the challenges officers face when dealing with young persons, the way police are perceived by young persons, and the strategies police use to positively interact with youth offenders. Procedures for arresting, questioning, detaining, processing, and

sentencing young persons are clearly explained. Ideal for college police foundations students in Canada, Youth in Conflict with the Law walks readers through the various legislations established to protect young persons. This book encourages students to consider the problem of youth crime within social contexts, and, ultimately, to recognize the factors that lead youth to enter into conflict with the law.

Intellectual Property Law in the Sports and Entertainment Industries Walter T. Champion,Kirk D. Willis,2014-03-28 In this detailed yet readable legal analysis, the authors thoroughly evaluate the connections between intellectual property and the sports and entertainment industries, covering everything from copyrights and patents to trademarked logos and marketing strategies. This complete survey of intellectual property law in the sports and entertainment industries evaluates the key connections between these arenas and provides an overview of trademark law for sports. The authors clearly explain the rights of publicity and privacy for entertainers and athletes, the ethical considerations involved in obtaining and using intellectual property, and how licensing agreements relate to intellectual property law. The detailed, up-to-date legal analyses are written by practitioners in the field for those without legal expertise, yet still contain useful information to the legal community. The book covers all forms of intellectual property, including copyright, patents, trademarks, trade dress, trade secrets, and the right of publicity. It will also discuss marketing, broadcasting, films and books, sports equipment, international considerations and trade issues, and intellectual property in cyberspace.

Youth in Conflict with the Law, Fourth Edition Denise Whitehead,Mark D. Hunter,2018-07-06 Now in its fourth

edition, *Youth in Conflict with the Law* provides a thorough background on the social development of children and youth and the legal responses to young persons who are involved with crime in Canada. While maintaining the sharp focus and the discussion-provoking features that made earlier editions so popular, authors Denise Whitehead and Mark D. Hunter guide students through the important distinction between punishment and a restorative justice approach—a crucial understanding for those who are the first point of contact with youth.

Highlighting the important role of police involvement from first contact to youth justice court, this new edition delves deeply into current issues relating to race and ethnicity, mental health, and the Black Lives Matter movement as well as the important intersection between youth criminal justice and child and family services. New to this edition are updated statistics on youth crime and references to current youth criminal legislation. Featuring informative sidebars, real case briefs, and “In the News” sections, and accompanied by an updated instructor’s guide, this accessibly written text is an excellent resource for students in police foundations programs and training courses.
