Eye on I S. B. Sunit,2019-07-13 Eye on IIndia has given some extraordinary luminaries to the world. 'Eye on I' undertakes an extensive exploration of six of these personalities: Adi Shankaracharya, Buddha and Mahavir from ancient times, as well as Ramana Maharshi, Sri Aurobindo and J. Krishnamurti from more recent years. The book dwells on their philosophies and core teachings, particularly as they relate to Self and Self-realization.In addition, it contains an overview of theories of Self from all the prominent philosophies of the West and the East, as well as a well-rounded critique followed by an original synthesis providing a holistic understanding of the subject. 'Eye on I' awakens the intellectual curiosity of the reader and points to the transcendental reality espoused by these thinkers, which, as they indicate, is the highest possibility that life can achieve, creating an existence of freedom, meaning and fulfillment.Dr S B SunitDr S B Sunit has two PhDs: in philosophy and psychology. An international award-winning researcher, his research projects and publications explore the key facets of individuality and personality. As a clinical and organizational psychologist, he has worked with thousands of individuals from all over the world, including several top multinational corporations, helping them to come to a better understanding of both themselves and others and thereby improving their lives.Dr Sunit is also a poet. Aerogrammes Tania James,2012-05-15 From the acclaimed author of Atlas of Unknowns, a bravura collection of short stories—set, by turns, in London, Sierra Leone, and the American Midwest—that captures the yearning and dislocation of young people around the world. • “Funny, deeply tender, and each-and-every-one memorable.” —Nathan Englander, bestselling author of For the Relief of Unbearable Urges In “Light & Luminous,” a gifted instructor of Indian dance falls victim to the vanity and insecurities that have followed her into middle age. In “The Scriptological Review: A Last Letter from the Editor,” a damaged young man obsessively studies his father’s handwriting in hopes of making sense of his suicide. And in “What to Do with Henry,” a white woman from Ohio takes in the illegitimate child her husband left behind in Sierra Leone, as well as an orphaned chimpanzee who comes to anchor this strange new family. With Aerogrammes, Tania James once again introduces us to a host of delicate, complicated, and beautifully realized characters who find themselves separated from their friends, families, and communities by race, pride, and grief.

Makers of Jadavpur: A Technological Perspective Rajat Baisya,2021-04-02 This volume is authored by Rajat K. Baisya, alumnus of the department of Food Technology and Biochemical Engineering and a distinguished scholar, author and management consultant. The foundations of Jadavpur university and its origins as a technological institution imagined in a nationalist mould, established as a counter to the colonial British education and as a part of the movement for independence, are relatively well-known. What is less explored is the journey that the National Council of Education underwent to transform itself into the Jadavpur University. As a premier institution of higher learning in India at the present time, Jadavpur University has a number of stalwart professors to thank for its worldwide reputation. This book covers the biographies of twenty-two such professors of the Faculty of Engineering and Technology. Written from the ‘technological perspective’, the book attempts to trace a form of history of Jadavpur University through the microhistories of the individuals responsible for its beginnings and subsequent growth.
